Five-Year Review Summary Form, cont'd.

Issues / Recommendations and Follow-up Actions:

Issues	Recommendations and Follow-up Actions
Evidence of cracks and subsidences was observed in the asphalt cap.	The PRPs should continue ongoing maintenance to the cap to repair cracks and subsidences as they occur.
Evidence of coating peeling and insulation falling was observed in the buildings as well as cracks in the floor.	The PRPs should continue the building maintenance program and expand it to include filling cracks.
Evidence of weeds encroaching along the southern edge of the asphalt cap near the South Pond was observed.	The PRPs need to control weed encroachment to maintain the integrity of the cap.
No O&M manual was available for the groundwater extraction and treatment system, either onsite or with the PRPs.	The PRPs should locate the O&M manual for the system or obtain a copy from USEPA. Updates to the system including the NALCO feed system need to be included in the O&M manual.
Mechanical failures of the air stripper have occurred in the past.	Ongoing regular maintenance of the treatment system should continue to ensure quick identification of mechanical failures.
Future construction of a roadway across the northern portion of the site will impact monitoring wells.	USEPA should continue to coordinate with the City regarding their plans to construct a roadway across a portion of the site.
Groundwater extraction system is pumping below designed extraction rates.	Model the groundwater extraction system, determine reason for lower pumping rates and remedy.
Deed restrictions required in the ROD have not been placed on the Dico property.	Place deed restrictions and monitor land use.
Weekly monitoring of the groundwater extraction treatment system appears to be excessive if the system remains unchanged.	Monitoring requirements of the NPDES permit should be reviewed and evaluated to determine if less frequent monitoring is acceptable.

Five-Year Review Summary Form, cont'd.

Protectiveness Statement(s):

OU 1: The remedy at OU 1, groundwater extraction and treatment, is expected to be protective of human health and the environment as currently operated. Exposure pathways that could result in unacceptable risks are being controlled. The remedial action objectives (RAOs) identified in the ROD are being achieved. Specifically, the groundwater extraction and treatment system is successfully controlling migration of the plume and providing necessary protection of the public water supply. Continued operation and maintenance of the groundwater extraction and treatment system and continued groundwater monitoring is necessary to ensure that the remedy continues to provide long-term protection.

OUs 2/4: The remedies at OU 2 and OU 4, building encapsulation and soil capping, are protective for industrial uses of the buildings and properties. However, in order for the remedies to be protective in the long term, continued inspections, maintenance, and implementation of the institutional controls need to continue to ensure long-term protectiveness. Analytical results of the sediment sample from the South Pond overflow indicate that contaminated sediments above cleanup levels are not migrating out of the pond.

OU 3: The no action alternative with groundwater monitoring for OU 3 is protective of human health and environment. The remedy continues to meet the RAOs identified in the ROD. Monitoring data indicates that the contaminant levels in the OU 3 groundwater have remained steady and are not migrating towards the Des Moines Water Works gallery. Therefore, the OU 3 remedy continues to be protective. However, continued groundwater monitoring is required to ensure that the remedy continues to provide long-term protection.

Overall: Because the remedial actions at all OUs are protective, the site is protective of human health and the environment.

Other Comments:

Overall, O&M of the groundwater extraction treatment system, buildings, and asphalt cap appeared to be adequate.

Executive Summary

The Des Moines TCE site in Des Moines, Iowa, consists of four operable units (OUs). The remedy at OU 1, the contaminated groundwater that threatened the Des Moines public water supply, included installation of and operation of a groundwater extraction and treatment system and groundwater monitoring. The remedy at OU 3, the North Plume, consists of groundwater monitoring. The remedy at OUs 2 and 4 consisted of installation of an asphalt cap, building encapsulation, removal of South Pond sediments, and deed restrictions.

The first five-year review of the remedies at the site was conducted in December 1992 and addressed the remedial action for OU 1. The second five-year review was conducted in December 1997, 5 years after construction completion of the groundwater extraction and treatment system and addressed the remedies for all four OUs.

The assessment of this, the third, five-year review found that the remedies continue to be protective and were functioning as designed and in accordance with the Records of Decisions (RODs). The immediate threats have been addressed and the remedies remain protective of human health and the environment. Review of the analytical data indicate that the OU 1 remedial action objectives (RAOs) identified in the ROD are being achieved. Specifically, the groundwater extraction and treatment system continues to successfully control migration of the plume and provides the necessary protection of the public water supply. Continued operation and maintenance of the groundwater extraction and treatment system and continued groundwater monitoring is necessary to ensure that the remedy continues to provide long-term protection.

The remedies at OU 2 and OU 4, building encapsulation and soil capping, are protective for industrial uses of the buildings and properties. However, in order for the remedies to be protective in the long term, continued inspections, maintenance, and implementation of the institutional controls need to continue to ensure long-term protectiveness. Analytical results of the sediment sample from the South Pond overflow indicate that contaminated sediments above the cleanup levels are not migrating out of the pond.

The no action alternative with groundwater monitoring for OU 3 is protective of human health and environment. The remedy continues to meet the RAOs identified in the ROD. Monitoring data indicates that the contaminant levels in the OU 3 groundwater have remained steady and are not migrating towards the Des Moines Water Works gallery. Therefore, OU 3 continues to be protective. However, continued groundwater

monitoring is required to ensure that the remedy continues to provide long-term protection.

1.0 Introduction

The purpose of the five-year review is to determine whether the remedy at a site is protective of human health and the environment. The methods, findings, and conclusions of the reviews are documented in Five-Year Review reports. In addition, Five-Year Review reports identify issues found during the review, if any, and identify recommendations to address them.

The Agency is preparing this Five-Year Review report pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) § 121 and the National Contingency Plan (NCP). CERCLA § 121 states:

If the President selects a remedial action that results in any hazardous substances, pollutants, or contaminants remaining at the site, the President shall review such remedial action no less often than each five years after initiation of remedial action to assure that human health and the environment are being protected by the remedial action being implemented. In addition, if upon such review it is the judgement of the President that action is appropriate at such a site in accordance with section [104] or [106], the President shall take or require such action. The President shall report to Congress a list of facilities for which such review is required, the results of such reviews, and any actions taken as a result of such reviews.

The Agency interpreted this requirement further in the NCP; 40 CFR §300.430(f)(4)(ii) states:

If a remedial action is selected that results in hazardous substances, pollutants, or contaminants remaining at the site above levels that allow for unlimited use and unrestricted exposure, the lead agency shall review such action no less often than every five years after the initiation of the selected remedial action.

The U.S. Environmental Protection Agency (USEPA) Region VII has conducted a five-year review of the remedial actions implemented at the Des Moines TCE site in Des Moines, Iowa. This review was conducted by a contractor, Black & Veatch Special Projects Corp. (BVSPC), for the entire site from September 2002 through November 2002. This report documents the results of the review. A title search was conducted as part of the five-year review, the results of which are included as Attachment 3. The title search was conducted to verify current ownership of the Dico property.

This is the third five-year review for the site. The first five-year review was completed by USEPA Region VII in December 1992. The triggering action for this statutory review is the initiation of the Operable Unit (OU) 1 groundwater remediation in late 1987. The five-year review is required because hazardous substances, pollutants, or contaminants remain at the site above levels that allow for unlimited use and unrestricted exposure.

2.0 Site Chronology

Table 2-1 presents a summary of the major site events and relevant dates in the site chronology.

Table 2-1
Chronology of Site Events

Event	Date
Volatile organic compounds (VOCs) including trichloroethene (TCE), 1,2-dichloroethene (1,2-DCE), and vinyl chloride were detected in the city of Des Moines water supply.	1975
Proposed for the National Priorities List (NPL).	12/30/1982
Final listing on the NPL.	09/08/1983
Remedial investigation (RI) completed.	12/1985
Feasibility study (FS) completed.	04/1986

Unilateral Administrative Order (UAO) issued to responsible party to perform the remedial design and remedial action for the OU 1.	07/21/1986
OU 1 remedy implemented and placed into operation.	12/1987
Administrative Order on Consent (AOC) requiring an RI/FS for OU 2 entered into Federal Court.	08/08/1989
Record of Decision selecting remedy for OU 3 signed.	09/18/1992
The first Five-Year Review was conducted.	12/1992
OU 2 RI completed and approved by USEPA.	02/1993
OU 2/4 FS completed.	1994
Record of Decision selecting remedy for OU 2/4 signed.	12/13/1996
Unilateral Administrative Order issued to responsible party to conduct removal action at OU 2 Buildings 1 through 5 and the Maintenance Building.	03/04/1994
Unilateral Administrative Order issued to responsible party to conduct a removal effort to addressing threats associated with OU 2/4 pesticide contamination in soils.	06/14/1994
Administrative Order on Consent requiring a removal action at the South Pond Area was entered into Federal Court.	12/07/1995
The second Five-Year Review was conducted.	12/29/1997

3.0 Background

The Des Moines TCE site is located in the south-central portion of the city of Des Moines, Iowa, adjacent to the Raccoon River. This section presents site background information including descriptions of the site physical characteristics, land use, and past response actions.

3.1 Physical Characteristics

The site includes a portion of the Des Moines Water Works facility, the Dico, Inc. (Dico) property, the industrial area north of the Raccoon River, the Tuttle Street landfill to the east, and the Frank DuPuydt woods to the south. In all, the Des Moines TCE site encompasses more than 200 acres and has been divided into four operable units by the USEPA. The site is located in an industrial area of the city of Des Moines alongside the Raccoon River as shown on Figure 1 in Attachment 1. The Dico property is in a heavy industrial district. The southern portion of the site is in the Raccoon River flood plain. The South Pond on the Dico property is a wetland.

3.2 Land and Resource Use

The Dico property has been used for a variety of industrial uses including a grey iron foundry, a steel wheels manufacturing plant, chemical and herbicide distribution, and pesticide formulation processes.

The land use for the site is industrial. The land use of the surrounding area is support commercial. The RAs selected for this site were based on industrial site use. However, a major redevelopment project in the River Point West area adjacent to the east of the Dico property, may alter future land use in the area. At this time it is uncertain whether the Dico property will be redeveloped. If redevelopment plans include uses other than industrial for the Dico property, then USEPA will need to be involved to determine whether levels of contamination remaining at the site are protective for the planned use. The Dico property is currently fenced. The majority of the property is capped with an asphaltic cap.

The Des Moines Water Works, which supplies potable water to the city of Des Moines, is immediately across the Raccoon River from the Dico property. The onsite groundwater extraction system is designed to prevent contaminated water from entering the Des Moines Water Works. The dominant groundwater flow direction is toward the Raccoon River.

3.3 History of Contamination

Degreasers containing trichloroethene (TCE) were used onsite during the manufacture of wheels and brakes. The oily waste sludges were disposed of into a drainage ditch on the Dico property and used as dust control on the parking lot. These waste disposal practices were discontinued in approximately 1979.

In addition, bulk chemical storage and distribution occurred on the Dico property. Bulk quantities of various solvents were repackaged and distributed to commercial clients in the 1950s and 1960s. These solvents included perchloroethene, TCE, toluene, xylene, and 1,1,1-trichloroethane. The solvents were stored in large above ground containers and packaged in 55-gallon drums for distribution. A drum cleaning area was located west of the production building.

From the mid-1950s through the early 1970s, pesticide and herbicide formulation was conducted Buildings 1 through 5 and the Maintenance Building. The resulting technical grade pesticides and herbicides were then sold. The primary formulation activities were conducted in Buildings 2 and 3, while Buildings 4 and 5 were primarily used for chemical and product storage.

The major source of the groundwater contamination at OU 1 was the contaminated subsurface soil. Soil contamination had been detected into the saturated zone around 30 feet below ground surface. The contaminants detected in the subsurface soils acting as a source of the OU 1 groundwater contamination include TCE and 1,2-dichloroethene (1,2-DCE). The subsurface soil contamination was addressed under OU 2 remedies. Contaminants detected in the OU 1 groundwater include TCE; 1,2-DCE; vinyl chloride; 1,1-dichloroethene (1,1-DCE); chloroform; and 1,1,1-trichloroethane. This contamination was addressed under OU 1 remedies. The highest levels of soil contamination were found in close proximity to the areas Dico used and handled solvents. Table 3-1 lists the maximum concentrations of the contaminants of concern detected at the site.

OU 2 was subdivided geographically into two operable units, roughly along the lines of TCE handling areas and pesticide formulation areas. One unit concerned the subsurface soils acting as a source of the OU 1 groundwater contamination discussed above. The second unit consisted of surficial soils containing elevated levels of aldrin, dieldrin, and lead. The contaminated surface soils were covered with an asphalt cap in 1994. The highest concentrations of aldrin and dieldrin were detected east, northwest, and south of the Production Building and north of Building 1. The highest concentrations of lead were detected in the surface soils along the west side of the Production Building. The maximum concentrations of contaminants detected at OU 2 are

listed in Table 3-1. After further investigation, EPA found that the pesticides/metals contamination extended over both operable units. The two operable units were recombined for purposes of the December 1996 ROD.

Table 3-1
Main Hazardous Substances Detected at the Site

Operable Unit	Media	Contaminant	Maximum Concentration
OU 1	Groundwater	Trichloroethene	8,467 ug/L
		1,2-Dichloroethene	2,000 ug/L
		Vinyl chloride	95 ug/L
		1,1-Dichloroethene	6 ug/L
		Chloroform	7.3 ug/L
		1,1,1-Trichloroethane	6 ug/L
OU 2	Surface Soils	Aldrin	0.036 mg/kg
		Dieldrin	7.9 mg/kg
		Lead	4,880 mg/kg
	Subsurface Soils	Trichloroethene	55 mg/kg
		1,2-Dichloroethene	130 mg/kg
OU 3	Groundwater	Trichloroethene	100 ug/L
		1,2-Dichloroethene	59 ug/L
		Tetrachloroethene	350 ug/L
OU 4	Buildings/Concrete Dust	Aldrin	7,680 mg/kg
		Dieldrin	69.9 mg/kg
		Chlordane	30.5 mg/kg
		Dioxin	0.00623 mg/kg
	Buildings/Insulation	PCBs	29,000 mg/kg
	Surface Soils	Aldrin	10 mg/kg
		Dieldrin	59 mg/kg
		Chlordane	18.4 mg/kg

The contaminants in the OU 3 groundwater include TCE, 1,2-DCE, and tetrachloroethene (PCE). The OU 3 contamination was initially discovered during monitoring of the OU 1 groundwater remediation system. The OU 3 groundwater contamination was determined to be present at isolated locations with the OU 3 and no specific sources were identified. The maximum concentrations of contaminants detected in the groundwater at OU 3 are listed in Table 3-1.

The primary contaminants detected in the OU 4 buildings (Buildings 1 through 5 and the Maintenance Building) were aldrin dieldrin, chlordane, polychlorinated biphenyls (PCBs), and dioxin. The highest levels of aldrin, dieldrin, and chlordane were detected in the concrete floor of the Maintenance Building. Lower levels of these compounds were detected in Buildings 2, 3 and 4. Dioxin was detected in the concrete floor of Building 2. PCBs were detected in the insulation of Buildings 2, 3, 4, and 5 and the Maintenance Building with the highest concentration being detected in Building 3. The maximum concentrations of contaminants detected in the buildings at OU 4 are listed in Table 3-1.

Contaminants detected in the surface soils at OU 4 were aldrin, dieldrin, and chlordane. The pesticides were detected above health-based cleanup levels in numerous locations across OU 4. Contaminants detected in the surface soils in the South Pond area of OU 4 were aldrin, dieldrin, and chlordane. These pesticides were detected in the surface soils along the northwestern edge of the South Pond, sediment samples from the South Pond, and in samples collected from the east drainage ditch. The maximum concentrations of contaminants detected in the surface soils at OU 4 are listed in Table 3-1.

3.4 Initial Responses

After VOCs, including TCE, 1,2-DCE, and vinyl chloride, were detected in the Des Moines water supply in the mid-1970s, the Des Moines Water Works north infiltration gallery was taken off line. Extensive investigations were undertaken to identify the sources of the contamination. The site was proposed for the National Priorities List (NPL) on December 30, 1982, and was finalized on the NPL on September 8, 1983. An RI/FS was completed for OU 1 in 1986 that addressed the groundwater contamination present. The groundwater remedial action was placed into operation in December 1987.

Several removal actions have occurred at the site to address the contamination in the soils and buildings. The removal action for the buildings addressed contamination associated with various interior portions of the Dico Buildings 1 through 5 and the Maintenance Building, and the former aldrin mixing tank, annex, and surrounding soils.

The removal action included cleaning the interior surfaces of the buildings, demolition and disposal of the aldrin tank and annex structure, excavation and disposal of the soils surrounding the aldrin tank, application of epoxy coatings to walls and a urethane coating to the floors of the building, and securing the building insulation.

The removal action for the soils included excavation and capping of contaminated soil. Soils from low-lying drainage areas were excavated and disposed of at an offsite facility. An asphaltic cap was constructed over the remaining contaminated soils at the site.

3.5 Basis for Taking Action

The main contaminants that have been released at the site in each media are listed in Table 3-1. In the mid 1970's, contaminated groundwater infiltrated the city's public water supply by entering the Des Moines Water Works north infiltration gallery. Levels of TCE in the public water supply exceeded the safe drinking water standards (maximum contaminant levels [MCLs]). To protect the water supply, the affected portion of the north gallery was shut down. In addition, the OU1 groundwater extraction and treatment system was installed to capture and treat the contaminated groundwater.

The remedial action selected for OU3, no action with continued groundwater monitoring, was based on the results of the OU3 Remedial Investigation which showed no identifiable contaminant sources in the area north of the Dico property. Low levels of contaminants were detected in some of the OU3 monitoring wells. Because the north gallery had been shut down and the OU1 extraction and treatment system was operating, it was believed that groundwater from the OU3 area would not impact the public water supply. Therefore, a program of groundwater monitoring was selected for the OU3 area.

The cleanup actions taken for OU2 and OU4 were based on the release of contaminants at levels above acceptable health risks for industrial exposures into onsite soils and sediments. Several onsite buildings contained contaminated dust which may have been released into the environment via pedestrian and equipment traffic. Elevated levels of pesticides and metals were detected in the shallow soils across OU2 and OU4. In addition, drainage areas including the South Pond and a ditch adjacent to the east of the Dico property, contained pesticides at levels exceeding the established health-based level. To address the risks posed by contamination in OU2 and OU4, remedial actions were selected to prevent exposures to the contaminated media. Cleanup standards for OU2 and OU4 were based on an industrial land use scenario. For that reason, land use restrictions were also a part of the remedy for OU2 and OU4.

4.0 Remedial Actions

4.1 Operable Unit 1

Operable Unit 1 involves the volatile organic compound (VOC) contamination in the groundwater that has threatened the Des Moines public water supply.

4.1.1 Remedy Selection

The Record of Decision (ROD) for OU 1 of the Des Moines TCE site was signed on July 21, 1986. Remedial action objectives (RAOs) were developed as a result of data collected during the RI to aid in development and screening of remedial alternatives to be considered for the ROD. The RAOs for OU 1 of the Des Moines TCE site were:

- Cost effectively provide a remedial alternative that effectively mitigates and minimizes threats and provides adequate protection to the public health from exposure to contaminated water provided by the Des Moines Water Works that would be obtained through operation of the north gallery.
- Control the groundwater contaminant migration, and therefore, reduce the threat to the public health by reducing the area where potential exposure could occur.

The major components of the OU 1 remedy include the following:

- Installation and operation of a groundwater extraction and treatment system consisting of groundwater extraction wells and an air stripper.
- Groundwater monitoring of wells across the site.

4.1.2 Remedy Implementation

In a Unilateral Administrative Order (UAO) issued to Dico on July 21, 1986, Dico was ordered to perform the remedial design/remedial action (RD/RA). The RD was conducted in conformance with the ROD and the OU 1 RA construction was completed in December 1987.

4.1.3 System Operations/ O&M

Operation and maintenance (O&M) of the system has been performed by Dico. O&M activities have included extraction well and treatment system maintenance and monitoring.

Monitoring has included periodic monitoring of the groundwater and surface water in the Raccoon River and weekly monitoring of the air stripper influent and effluent.

Based on review of the annual Performance Evaluation Reports from January 1996 through December 1999 (Report Nos. 11, 12, 13, and 14), the air stripper has continued to operate at an efficiency above the National Pollutant Discharge Elimination System (NPDES) permit level of 96 percent except on two occasions. For one week in 1996, the air stripper efficiency dropped to 95 percent, but was again above 96 percent the next week. In 1997, the air stripper efficiency dropped substantially (to less than 50 percent) for a 2-week period when there was a mechanical failure of the blower. The stripper efficiency returned to above 96 percent as soon as the air stripper blower was repaired. Figure 2-3 (provided in Attachment 2) from the Performance Evaluation Report No. 14 for the period from January 1999 through December 1999 shows concentrations of TCE, 1,2-DCE, and vinyl chloride in the air stripper influent since startup in December 1987. Figure 2-6 (provided in Attachment 2) from the Performance Evaluation Report No. 14 shows the air stripper efficiency since startup in December 1987.

As seen on Figure 2-3 (provided in Attachment 2), in June 1997 the TCE influent concentration rebounded when the two extraction wells with the highest TCE concentrations were temporarily shut down for repairs. When these wells were restarted (after an unspecified period of time), the TCE influent concentrations rebounded to levels higher than before the shutdown. While the concentrations of TCE are again declining, they have not returned to their pre-1997 levels. However, the rebound seen in the groundwater extraction system influent concentrations after restarting the extraction wells may indicate that pulsed pumping of the wells should be considered.

The groundwater extraction and treatment system continues to capture the TCE and 1,2-DCE contaminated groundwater plume as shown on Figures 2-12 and 2-13 (provided in Attachment 2) from the Performance Evaluation Report No. 14.

An ongoing issue with the groundwater extraction system is the lower extraction rates being obtained from the extraction wells. The system was designed for an extraction rate of 1,000 gallons per minute (gpm) to maintain the groundwater plume containment. The average groundwater extraction rate in 1999 was 600 gpm, well below the design level.

Weekly monitoring of the groundwater treatment system for the NPDES permit has continued since the system was installed in 1987. Based on the data available, if the system is not significantly changed, reducing the frequency of this sampling should be considered. However, if the system is significantly changed (i.e., an extraction well is removed from service), the weekly monitoring should be continued for a period of time

sufficient to ensure that the system is still operating as designed and that the NPDES permitting requirements are being met.

4.2 Operable Units 2 and 4

Operable Unit 2 (originally referred to as the South Area Source Control) consists of the Dico property and a portion of the Frank DePuydt woods. OU 2 originated to address the sources related to the groundwater contamination being addressed under OU 1. OU 2 is characterized by VOC contamination in subsurface soils. In 1989, an Administrative Order on Consent (AOC) was signed by Dico for the performance of an RI/FS for OU 2. During the OU 2 RI, additional contaminants, primarily pesticides and herbicides, were detected in OU 2 soils. Following this discovery, OU 2 was subdivided to separately address the issues and area related to the VOCs (now the revised OU 2) and the area which involved the formulation of pesticides and herbicides (now OU 4).

OU 4 has been defined to include the portions of the Dico property including Buildings 1 through 5 and the Maintenance Building; soil and sediment associated with the former aldrin tank and the South Pond area; and the area associated with completed soil discing operations; and the low-lying area south and east of the Dico property up to the railroad spurs owned by the Union Pacific Railroad.

4.2.1 Remedy Selection

The ROD for OUs 2/4 of the Des Moines TCE site was signed on December 13, 1996. RAOs were developed as a result of data collected during the OU 2 RI and the OU 4 RI to aid in development and screening of remedial alternatives to be considered for the ROD. The following general RAO for OUs 2/4 of the Des Moines TCE site was identified:

- Maintain the buildings, asphalt cap, and South Pond area so that exposure pathways continue to be controlled or minimized. This will minimize risk for both current and anticipated future industrial use of the site, and will protect human health and the environment.

The following specific RAOs corresponding with the nature and extent of contamination at the site and the associated findings of the baseline risk assessments were developed:

- For the buildings, maintain the control of potential exposure pathways related to contaminated materials in Buildings 1 through 5 and the Maintenance Building,

and to protect human health and the environment during continued and future industrial uses.

- For the soils, maintain the control of potential exposure pathways related to contaminated soils and to protect human health and the environment during continued and future industrial uses similar to the current industrial operations and activities.
- For the South Pond Sediment, minimize the risks from potential exposure pathways related to contaminated soils and to protect human health and the environment during continued and future industrial uses similar to the current industrial operations and activities.

The major components of the OUs 2/4 remedy include the following:

- Continued maintenance as called for by the response actions.
- Land use restrictions to prevent residential development.
- Periodic seal coats applied to the asphalt cap.
- Sampling of soils at the South Pond discharge area during the CERCLA periodic reviews.

4.2.2 Remedy Implementation

The selected remedy for OU 2 and OU 4 included O&M of the previous removal actions involving Buildings 1 through 5 and the Maintenance Building, the asphalt cap placed over a large area of surface contamination, and the drainage area known as the South Pond Area. The remedy also called for land use restrictions to maintain an industrial use. To date, the remedy has not been fully implemented.

Following signature of the ROD, USEPA issued notice letters to all of the PRPs to initiate consent decree negotiations for implementation of the remedy. All PRPs responded except for Dico. Since the owner of the property would not join the negotiations, the scope of the consent decree was narrowed to a cash-out settlement. Since Dico was already performing the required O&M of the buildings and asphalt cap pursuant to the 1994 UAOs, the most substantive components of the remedy were being implemented. Recently, USEPA has coordinated with Dico regarding a plan for implementation of the remedy by proposing a comprehensive site-wide O&M plan. Discussions on this continue.

For all intent and purposes, the necessary O&M of the South Pond Area action has been implemented. Since the response action involved the excavation and offsite disposal of soil, the only remaining O&M includes periodic monitoring to ensure that

cleanup levels continue to be achieved at the outfall of the pond. These monitoring events can be conducted during the Five-Year Reviews for the site.

To an extent, land use restrictions required by the ROD already exist by virtue of the fact that the site is on Iowa's Registry of Hazardous Waste Sites. The registry includes a provision whereby site use can not be changed without prior notification of the state. The Iowa Department of Natural Resources has filed a notice with the deed (dated February 25, 2002) that hazardous substances are present at the property and that long term maintenance is required (see Attachment 3).

4.2.3 System Operations/O&M

O&M of OUs 2 and 4 started in 1994 after the building removal action and construction of the asphalt cap were completed. O&M activities have been conducted by Dico in accordance with the O&M plan dated June 14, 1994. Required O&M activities include employee awareness, monthly inspections, annual inspections and reporting to USEPA, and collection and analysis of wipe samples every 2 years. Results of the latest wipe samples (collected in 1999) were not available. Evidence, such as fresh tape and paint, of past and ongoing maintenance to the building encapsulation system was observed during the site inspection. However, no evidence of the required monthly inspections was available.

4.3 Operable Unit 3

Operable Unit 3 consists of groundwater VOC contamination north of the Dico property and has been under investigation by USEPA for several years. USEPA conducted the OU3 remedial RI/FS and signed the OU 3 ROD on September 18, 1992. Contaminant levels detected in OU 3 were significantly lower than contaminant levels detected to the south on and around the Dico property. Results of the OU 3 RI did not indicate that any of the properties in the OU 3 area are a source of the contamination.

4.3.1 Remedy Selection

The ROD for OU 3 of the Des Moines TCE site was signed on September 18, 1992. RAOs were developed as a result of data collected during the OU 3 RI to aid in development and screening of remedial alternatives to be considered for the ROD. The RAO for OU 3 of the Des Moines TCE site is to assure continued protection of the Des Moines water supply.

The ROD selected a limited action remedy consisting of continued groundwater monitoring and acknowledged that the OU 1 remedy was capturing the contamination from OU 3.

4.3.2 Remedy Implementation

The State of Iowa has been conducting groundwater monitoring of OU 3 under agreement with USEPA signed December 14, 1993. No discernable trends have been identified in the VOC contamination on the OU 3 groundwater plume. The Technical Progress Report on Groundwater Monitoring conducted April 28, 2000, and July 26, 2001, concludes that there is no evidence of contamination from the North Plume (the OU 3 groundwater contamination) migrating to the south/southwest towards the Des Moines Water Works' gallery system.

4.3.3 System Operations/O&M

O&M activities at OU 3 consist of annual groundwater monitoring. The groundwater monitoring activities are conducted by the State of Iowa. As required, the sampling results have been submitted to USEPA.

5.0 Progress Since Last Five-Year Review

During the first five-year review, USEPA determined that the OU 1 groundwater extraction and treatment system continued to effectively capture and treat contaminated groundwater, and continued to protect the Des Moines public water supply. USEPA also determined that the OU 3 remedy remains protective as long as no additional releases of TCE occur. USEPA stated that the remedies for OU 2 and OU 4 continue to be protective and that adequate maintenance had been provided.

USEPA recommended that the OU 1 groundwater extraction and treatment system continue to operate and that monitoring and reporting activities continue. USEPA indicated that reduced monitoring would be considered and that a proposal should be provided by the Dico. A proposal has been received by USEPA and is currently being evaluated.

The city of Des Moines notified USEPA of its plan to construct a roadway over the norther portion of the Dico property. USEPA recommended that any extractions wells impacted by the construction be relocated in locations which will maintain adequate plume capture. USEPA recommended that the cap and underlying soils remain in place, if possible, and any excavated soils be characterized and properly disposed of. To date the road has not been constructed on the Dico property; however, road construction had reached the eastern boundaries of the Dico property at the time of the site inspection.

USEPA recommended that the OU 3 groundwater monitoring be continued. However, the USEPA recommended that the OU 3 monitoring scheme be evaluated and modified as appropriate following the fall 1997 sampling event. To date, no modifications to the OU 3 groundwater monitoring have been made.

USEPA recommended that the O&M activities for OU 2 and OU 4 continue for the three removal actions. USEPA recommended that the land use restrictions called for by the ROD be implemented. Based on submittals from Titan Wheel (Dico's parent company), annual inspections of the buildings and caps have been completed as required in the O&M plan although monthly inspections and wipe sampling required by the plan have not. To date, land use restrictions have not been added to the property deeds (see Attachment 3, Title Search Results).

6.0 Five-Year Review Process

6.1 Administrative Components

Members of Titan Wheel (Dico's parent company) were notified of the initiation of the five-year review in August 2002. The Des Moines TCE site five-year review team was led by Mary Peterson of USEPA, the Remedial Project Manager (RPM) for the site. The five-year review site inspection was conducted by USEPA's contractor, BVSPC. The BVSPC team was lead by Genise Luecke, Site Manager, and included members from the BVSPC staff with expertise in hydrology and the remedial action technologies implemented at the site.

A schedule was developed for the five-year review extending through December 31, 2002, which included the following components:

- Community Involvement.
- Document Review.
- Data Review.
- Site Inspection.
- Site Interviews.
- Site Survey.
- Title Search.
- Five-Year Review Report Development and Review.

6.2 Community Notification and Involvement

A fact sheet announcing the five-year review for the Des Moines TCE site was developed in August 2002. The fact sheet was made available on the USEPA's web site and a notice was published in the Des Moines Register on August 26, 2002.

6.3 Document Review

This five-year review consisted of a review of relevant documents including O&M records and monitoring data for the site. A complete list of documents reviewed as part of the five-year review process is included in Attachment 4. Applicable cleanup standards, as listed in the three RODs for the site, were reviewed. The results of this review are listed in Attachment 5.

6.4 Data Review

6.4.1 Operable Unit 1 Monitoring

OU 1 monitoring has been conducted since 1987. OU 1 monitoring includes sampling of groundwater, air stripper influent and effluent, the north infiltration gallery, and two surface water locations (one each on the Raccoon River and the Des Moines River). In general, the groundwater contamination was at its highest levels during initial operation of the groundwater extraction and treatment system. The contaminant concentrations have decreased since operation of the remedial action began in 1987 as shown on Figure 2-3 in Attachment 2. However, as shown on Figure 2-3, the TCE air stripper influent concentration rebounded in 1997 when the two extraction wells (ERW-6 and ERW-7) with the highest TCE concentrations were temporarily shut down for repairs. After these wells were repaired and restarted, the TCE influent concentration remained above pre-1997 levels. The TCE influent concentrations are again declining, but have not returned to the pre-1997 levels. The groundwater extraction and treatment system continues to capture the TCE and 1,2-DCE contaminated groundwater plume as shown on Figures 2-12 and 2-13 (provided in Attachment 2) from the Performance Evaluation Report No. 14 for the period from January 1999 through December 1999. Since beginning operation in 1987, groundwater monitoring has shown that the groundwater extraction and treatment system has reduced the size of plume, pulling the western boundary of the plume east, away from the Des Moines Water Works gallery. Based on a comparison of the OU 1 groundwater plume data from 1996 through 1999, the groundwater extraction continues to provide sufficient capture of the plume to prevent it from migrating toward the Des Moines Water Works gallery.

The results of the surface water monitoring indicate that the surface water quality criteria set in the ROD are being met. Table 6-1 presents a summary of the surface water quality criteria from the OU 1 ROD and the surface water results from the February 1999 sampling event.

6.4.2 Operable Unit 3 Groundwater Monitoring

The State of Iowa has been monitoring the groundwater quality of eight wells in OU 3 since April 1996; however, groundwater monitoring of OU 3 has been ongoing since July 1989. Table 2 in Attachment 6 presents a summary of the PCE, TCE, and 1,2-DCE data from the OU 3 groundwater monitoring wells. No discernable trends have been identified in the VOC contamination on the OU 3 groundwater plume. The Technical

Table 6-1
Surface Water Monitoring Results

Contaminant	Raccoon River		Des Moines River	
	Feb. 1999 Analytical Results (ug/L)	Surface Water Quality Criteria (ug/L)	Feb. 1999 Analytical Results (ug/L)	Surface Water Quality Criteria (ug/L)
Trichloroethene	2	80.7	ND	5.0
trans-1,2-Dichloroethene	0.7	135,000	ND	70.0

1,1,1-Trichloroethane	ND	52,800	ND	200
Tetrachloroethene	ND	8.85	ND	0.68

ND - Not detected

Progress Report on Groundwater Monitoring conducted April 28, 2000, and July 26, 2001, concluded that there is no evidence of contamination from the North Plume (the OU 3 groundwater contamination) migrating to the south/southwest towards the Des Moines Water Works' gallery system.

6.4.3 Operable Units 2 and 4 Data

Wipe samples were collected from the buildings in 1999. However, results of the wipe samples were not available at the time of the five-year review. Based on a review of the annual inspection reports and the results of the site inspection, the building remedy appears to be functioning as designed and continues to be protective. In addition, at the time of the site inspection, only Buildings 4 and 5 were in active use. The remaining buildings were empty except for some miscellaneous materials being stored in the Maintenance Building.

As part of the five-year review site inspection, one composite soil sample was collected from the South Pond overflow area. The pesticide concentrations in the composite soil sample are below the cleanup levels set in the OU 2/4 ROD and as listed in Table 6-2.

6.5 Site Inspection

A site inspection was conducted on October 21 and 22, 2002, by the BVSPC Site Manager and Project Engineer. The site inspection was also attended by Mary Peterson and Glenn Curtis with the USEPA and Gazi George with Titan Wheel. The purpose of the site inspection was to assess the protectiveness of the remedies. The status of the O&M activities including the condition of the groundwater treatment and extraction system, the building encapsulation, asphalt cap, and South Pond were inspected. In addition, a sediment sample was collected for pesticide analysis from the South Pond overflow area. Results of the sampling effort are discussed in Section 6.4.3.

A title search was conducted of the Dico property and the two properties adjacent to the east of the Dico property. The results of the title searches are included in Attachment 3. In addition, a survey will be conducted to locate the following items:

- Dico property boundaries.
- Asphalt cap boundaries.
- South Pond boundaries.
- Layout of the buildings on the Dico property.

Table 6-2
South Pond Overflow Soil Sample Results

Compound	Concentration (mg/kg)	Cleanup Level (mg/kg)*
Aldrin	0.069	1.5 **
Dieldrin	0.60	1.5 **
Chlordane	3.7	18
Notes: * Cleanup levels were set in the OU 2/4 ROD dated December 13, 1996. ** The cleanup levels for aldrin/dieldrin are combined. The sum of the aldrin and dieldrin concentrations must be below 1.5 mg/kg.		

- Location of the air stripping tower.
- Elevations and locations of the OU 1 groundwater monitoring wells.

The results of the survey will be included as an addendum to this document when the results become available.

A trip memorandum detailing the activities conducted during the site inspection is included in Attachment 7. The following general observations were noted during the site inspection:

- Overall, the maintenance on the asphalt cap appeared to be ongoing and adequate. Specific areas that need to be addressed include repair of cracks in the concrete truck pads (which a site representative stated were not maintained); the area west of Building 3 behind the stored empty pallets which had several subsidences, holes in the cap, and a large area of standing water; and maintenance of the edge of the cap near the South Pond to correct the encroachment of weeds. Other, more minor areas that need attention are detailed in the field log book entries.
- Overall, the groundwater extraction system appears to be adequately maintained. However, no as-built drawings or O&M manual at Titan's disposal. Mr. Curtis, USEPA, indicated that USEPA will provide Titan International with a copy of the O&M manual from USEPA files. It is recommended that the O&M manual be updated to include the NALCO feed system which has been added to the treatment train since the original construction to combat air stripper tower fouling issues.
- Overall, the buildings maintenance appears to be ongoing and adequate. Evidence of ongoing maintenance including past reapplying of floor and wall coatings and re-taping of the ceiling insulation was apparent throughout the buildings. Specific areas that need to be addressed include cracks in the concrete floors that have not been coated or filled as part of the coating maintenance and the offices on the east end of the Maintenance Building do not appear to have been maintained for some time and need to be repaired. In addition, the monthly inspections required by the O&M manual have not been conducted. These inspections need to be conducted, especially in buildings that are in use such as Buildings 4 and 5 are currently. Other, more minor areas that need attention are detailed in the field log book entries.

- Three wells (two unidentified and P-6) were uncapped and unlocked. One of the unidentified wells had been run over and damaged. These wells need to be fixed, capped, and locked. All wells onsite should be identified.

6.6 Interviews

Interviews were conducted with various parties connected to the site. Mr. Gazi George with Titan International expressed concerns about the damaged wells and wells lost during the 1993 flood. Mr. George wants to close unused and damaged wells. Mr. Don Brown and Mr. Dan Buttars, both with Titan, were interviewed during the site inspection. Mr. Buttars, who has been operating the groundwater extraction and treatment system for approximately 2 months indicated that he did not have an O&M manual for the system available. Mr. Buttars had some questions about how the system operates.

7.0 Technical Assessment

7.1 Question A: Is the remedy functioning as intended by the decision documents?

Review of documents, ARARs, risk assumptions, and results of the site inspection indicates that the remedies for the site (OU 1, OU 2, OU 3, and OU 4) are functioning as intended by the RODs. The groundwater extraction and treatment system for OU 1 has prevented VOCs from entering the Des Moines Water Works gallery infiltration system and has met its discharge permit limits. The capping of the soils and building remediation (OU 2 and OU 4) have prevented exposure to contaminants in the soils and within the buildings. The OU 3 groundwater monitoring continues to ensure that the North Plume (the OU 3 groundwater contamination) is not flowing towards the Des Moines Water Works gallery infiltration system.

O&M of the groundwater extraction system has, on the whole, been effective. Weekly monitoring of the air stripper influent and effluent have quickly identified any problems with the mechanical system and they have been quickly repaired. There are no indications of any specific difficulties with the OU 1 remedy.

O&M of the cap and buildings has, on the whole, been effective. A few areas of the cap have shown evidence of cracking and subsidence, but maintenance to these areas (except one) have corrected the problems. Some areas of the buildings have shown wear and tear to the epoxy coatings and the need for repair and upkeep of the insulation. Repairs to the epoxy coatings and insulation have been made by Dico as required, although more thorough repairs should be made. There are no indications of any specific difficulties with the OU 2 and OU 4 remedies. Analytical results of the sample collected from the South Pond overflow area indicate that the South Pond remedy continues to be protective and function as designed.

O&M of the OU 3 groundwater monitoring network has been sufficient. There are no indications of any specific difficulties with the OU 3 remedy.

7.2 Question B: Are the exposure assumptions, toxicity data, cleanup levels, and remedial action objectives (RAOs) used at the time of remedy selection still valid?

There have been no changes in the physical conditions of the site that would affect the protectiveness of the remedies. However, future construction of a new roadway

across the northern portion of the Dico property may affect the groundwater extraction system and the asphalt cap. Close coordination with the City of Des Moines and the Iowa Department of Transportation is needed to ensure that the integrity of the cap and the extraction system wells are maintained as they relate to the roadway construction. It appears that monitoring wells on the northern portion of the property may be impacted by construction of the roadway. If necessary to adequately monitor the extraction system, these monitoring wells should be replaced after construction of the roadway is complete.

The soil and building ARARs have been met and the remedy remains protective of the industrial uses at the site. The groundwater ARARs, including the Safe Drinking Water Act (SDWA) which specifies the MCLs, still need to be met. Some changes in the MCLs have occurred since the OU 1 ROD and are highlighted in Attachment 5. Table 7-1 summarizes the changes in the numerical standards associated with the groundwater contamination at the site. By preventing the VOC contamination from entering the Des Moines Water Works infiltration gallery, the OU 1 and OU 3 remedies remain protective. 1,2-DCE, PCE, and vinyl chloride have been detected at OU 1 above the new MCLs. PCE has been detected at OU 3 above the MCL.

7.3 Question C: Has any other information come to light that could call into question the protectiveness of the remedy?

No new ecological targets have been identified at the site. No weather-related events, such as flooding, has occurred within the last 5 years that would effect the protectiveness of the remedies. There is no other information that calls into question the protectiveness of the remedies.

7.4 Technical Assessment Summary

According to the data reviewed, the site inspection, and the interviews, the remedies are functioning as intended by the ROD. There have been no changes in the physical conditions of the site that would affect the protectiveness of the remedies. However, the future construction of a roadway across the northern portion of the site needs to be carefully monitored and coordinated to ensure that the integrity of the cap and groundwater extraction system are maintained.

Table 7-1
Changes in Groundwater Chemical-Specific Numeric Standards

Contaminant	Maximum Detected (ug/L)		Standard (ug/L)		Citation
Chloroform	OU 1 ¹	ND	Previous	100	MCL. SDWA ³

8.0 Issues

Table 8-1 summarizes the major issues identified during the five-year review that effect the protectiveness of the remedies.

Table 8-1
Issues Identified During the Five-Year Review

Issue	Currently Affects Protectiveness (Y/N)	Affects Future Protectiveness (Y/N)
Evidence of cracks and subsidences in no-traffic areas of asphalt cap and weed encroachment along southern edge near South Pond.	N, repaired	N, if kept repaired
Evidence of lack of cap maintenance behind pallet storage area west of Building 2 including large subsidences, holes (with soil underneath visible), and areas of standing water.	N	N, if repaired and kept maintained
Evidence of coating peeling and need to repair insulation within the buildings.	N, repaired	N, if kept in good repair
Building monthly inspections and wipe sampling not being performed.	N	N, depending on use of buildings
Lack of updated O&M manual for groundwater extraction system.	N	Y
Mechanical failures of groundwater extraction system mechanical equipment.	N, repaired	N, if repairs are made in a timely manner
Annual Performance Report for year 2001 has not been submitted.	N	Y, if performance problems not reported in a timely manner
Existing documentation does not identify an exit strategy for any of the operable units.	N	N
Future construction of roadway across northern portion of site impacting monitoring wells.	N	N
Weekly NPDES monitoring of the groundwater treatment system could be reduced, unless the system is changed.	N	N
Based on rebound of the groundwater extraction system influent concentrations seen when ERW-6 and ERW-7 were shut down and restarted, pulsed pumping of the extraction wells should be considered to enhance the mass removal.	N	N
Low pumping rates.	N	Y, if the low pumping rates do not provide sufficient plume capture

Issue	Currently Affects Protectiveness (Y/N)	Affects Future Protectiveness (Y/N)
Deed restrictions as called for in the ROD have not been placed on the Dico property.	N	Y, if site use changes to non-industrial

9.0 Recommendations and Follow-Up Actions

Table 9-1 identifies the recommendations and follow-up actions identified during the five-year review.

Table 9-1
Recommendations and Follow-up Issues

Issue	Recommendations / Follow-up Actions	Party Responsible	Oversight Agency	Milestone Date	Affects Protectiveness? (Y/N)	
					Current	Future
Evidence of cracks, subsidences, and weed encroachment in asphalt cap.	Repair crack and subsidences in timely manner. Remedy weed encroachment.	PRP	USEPA	06/30/2003	N	N, as long as O&M is done
Evidence of lack of cap maintenance west of Building 2.	Repair cap and keep maintained.	PRP	USEPA	06/30/2003	N	N, as long as O&M is done
Evidence of coating peeling and need to repair insulation within the buildings.	Repair coatings and insulation in a timely manner.	PRP	USEPA	06/30/2003	N	N, as long as O&M is done
Building monthly inspections not being performed.	Institute monthly inspections and repair schedule, especially in buildings that are in use.	PRP	USEPA	Ongoing	N	N, depends on use of buildings
Lack of updated O&M manual for groundwater extraction system.	Locate and update treatment system O&M manual.	PRP	USEPA	06/30/2003	N	Y
Mechanical failures of groundwater extraction system mechanical equipment.	Continue routine maintenance.	PRP	USEPA	Ongoing	N	N, as long as failures are fixed
Annual Performance Report for 2001 not submitted.	Compel Dico to submit annual report for 2001.	PRP	USEPA	3/30/03	N	Y, if problems not reported

10.0 Protectiveness Statements

10.1 Operable Unit 1

The remedy at OU 1, groundwater extraction and treatment, is expected to be protective of human health and the environment as currently operated. Exposure pathways that could result in unacceptable risks are being controlled. The RAOs identified in the ROD are being achieved. Specifically, the groundwater extraction and treatment system is successfully controlling migration of the plume and providing necessary protection of the public water supply. Continued operation and maintenance of the groundwater extraction and treatment system and continued groundwater monitoring is necessary to ensure that the remedy continues to provide long-term protection.

10.2 Operable Units 2 and 4

The remedies at OU 2 and OU 4, building encapsulation and soil capping, are protective for industrial uses of the buildings and properties. However, in order for the remedies to be protective in the long term, the O&M Plan should continue to be implemented and the institutional controls should be implemented. Analytical results of the sediment sample from the South Pond overflow indicate that the sediments are below cleanup levels.

10.3 Operable Unit 3

The no action alternative with groundwater monitoring for OU 3 is protective of human health and environment. The remedy continues to meet the RAOs identified in the ROD. Monitoring data indicates that the contaminant levels in the OU 3 groundwater have remained steady and are not migrating towards the Des Moines Water Works gallery. Therefore, OU 3 continues to be protective. Because existing documents do not provide criteria for determining when groundwater monitoring may be discontinued, the necessary conclusion for this review is that groundwater monitoring should be continued. However, it is recommended that during the next review period, EPA develop the criteria necessary to support a decision regarding the need for continued monitoring.

10.4 Overall Protectiveness

Because the remedial actions at all the OUs are protective, the site is protective of human health and the environment.

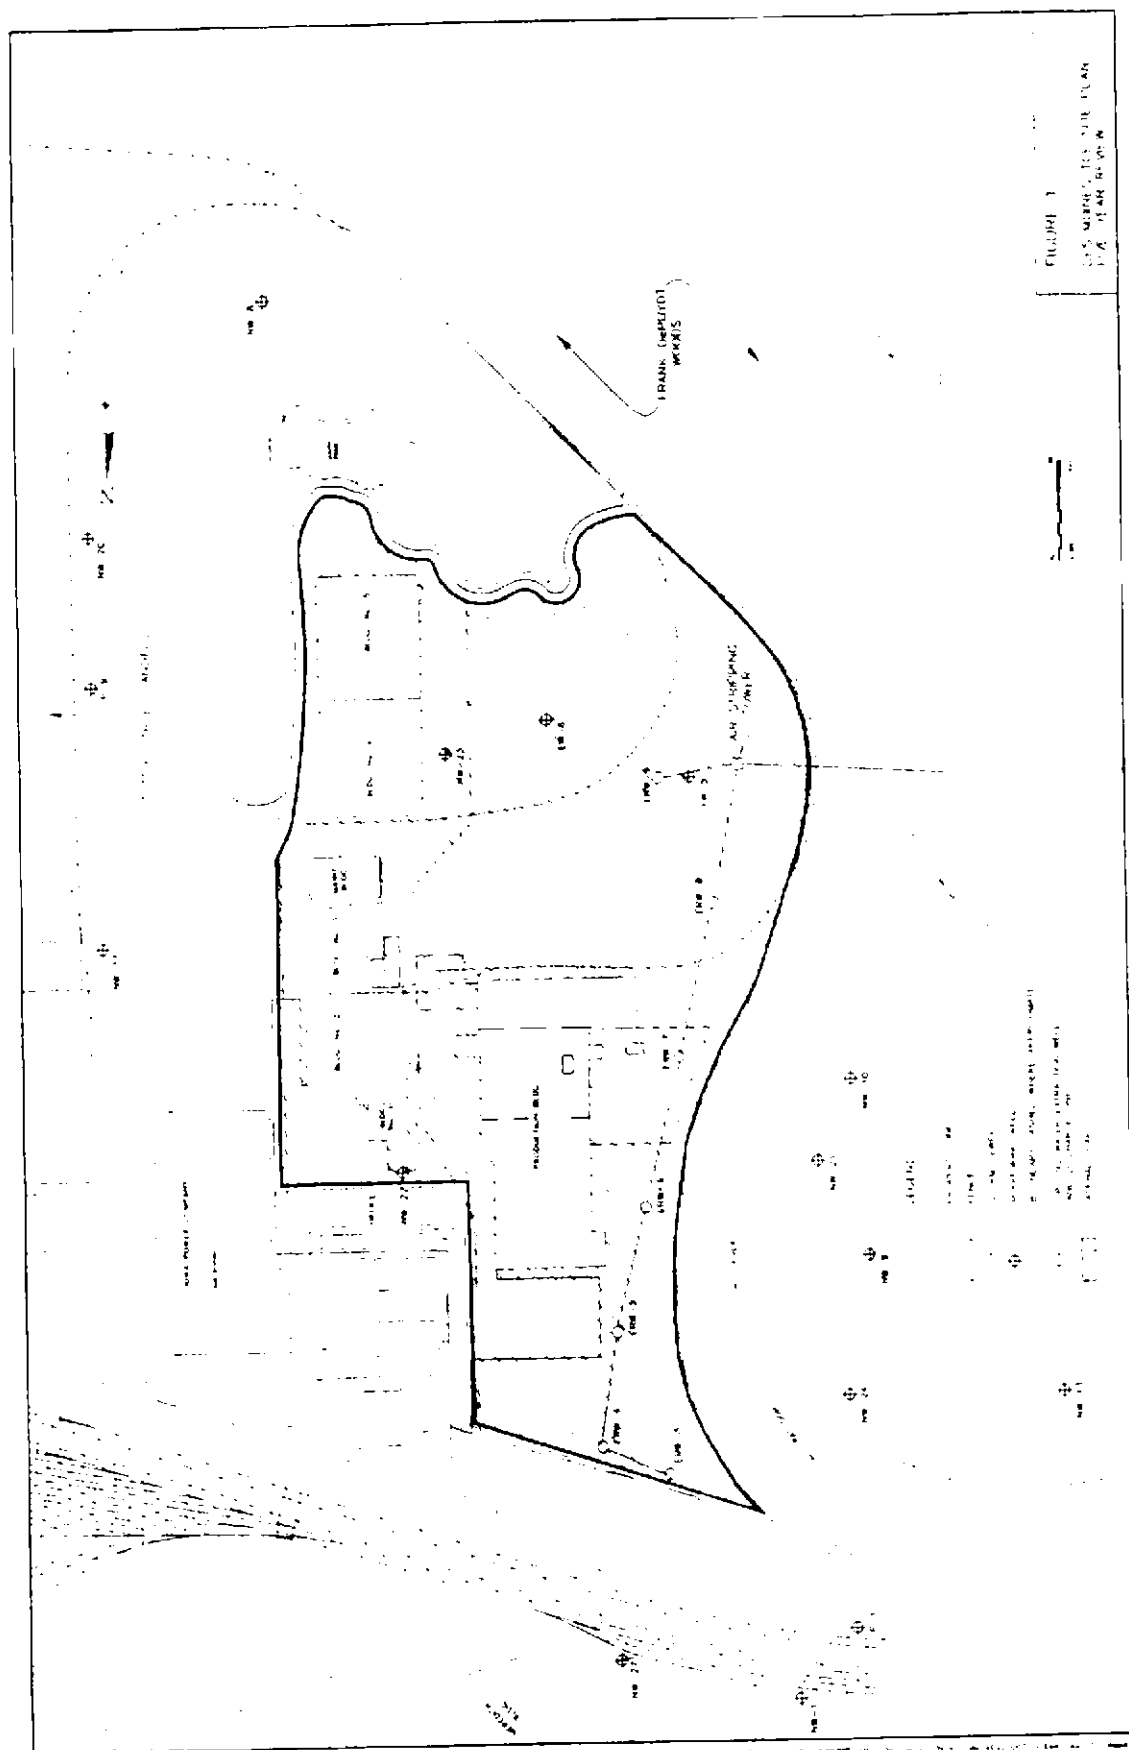

11.0 Next Review

The next five-year review for the Des Moines TCE site is required by December 2007, 5 years from the date of this review.

TITLE CERTIFICATE

No. 459950T1

Dated November 8, 2002 at 7:00 A.M.

Requested by Black & Veatch - Genise Luecke
6601 College Blvd Overland Park KS 66211

The undersigned hereby certifies that the following report is a correct reflection of the public records of Polk County, Iowa, and the United States District Court for the Southern District of Iowa, affecting title to the real estate legally described as follows:

See attached

the record title to which is vested in Daisy Industries, Inc. n/k/a Dico Corporation, Dic Corporation and Dico, Inc. by virtue of Deed filed December 7, 1945, and recorded in Book 1923, Page 581 and by Warranty Deed filed April 2, 1968, recorded in Book 3932, Page 519:

Including searches for conveyances, conflicting conveyances, deeds; unreleased mortgages, modifications and extensions thereof; Uniform Commercial Code filings subsequent to January 1, 1975, claims entered in the Claimant's Book; divorce and probate proceedings, mechanics liens, attachments, suits brought and notices filed claiming distributive shares in said real estate, suits entered in the Lis Pendens Index; due, delinquent and suspended taxes, tax sales and special assessments entered on the books of the Polk County Treasurer, to date hereof.

Also including searches for unreleased federal tax liens, state tax liens; bankruptcies, judgments and transcripts of judgments from United States and County Courts against the above-named titleholder(s) for the past ten years to date, and find none except as shown. We do not certify to judgments in divorce actions entered ten years or more prior to the date hereof.

No report is made of possible liens against vendors, mortgagees or prior titleholders.

The report is made for the exclusive information and use of requestor, and no liability for errors or omissions will accrue to the benefit of any other person or corporation.

FLOOD CONTROL
EASEMENT DEED

KNOW ALL MEN BY THESE PRESENTS, that DICO CORPORATION of Des Moines, Polk County,

Iowa, in consideration of the sum of ONE AND NO/100 (\$1.00) DOLLARS in hand paid by the City of Des Moines, Iowa, does hereby grant, bargain, sell and convey unto the City of Des Moines, Iowa, and its assigns, a perpetual and assignable easement in and to the lands for the purpose of entering thereon to construct, maintain, repair, operate, patrol and replace a flood protection levee, including all appurtenances thereto and further including the right to clear, cut, fill, remove and dispose of any and all timber, trees, underbrush, building, improvements, and/or other obstructions therefrom.

Said land is described as follows:

All of Lot "B" in Dico Plat Number One (1), an Official Plat, all now included in and forming a part of the City of Des Moines, Iowa.

The City agrees that the present fence should be removed during the construction of the levee and after said construction fence may be replaced in its present approximate position. Gates will be installed in area suitable for maintenance access to the levee, but not to interfere with the normal yard operation of Dico Corporation. The gates will be equipped with padlocks with duplicate keys available to Dico Corporation and the City of Des Moines. In case of flood danger it is understood that either the City or Dico crews may remove the fence for protection against any flood hazards. It is further agreed that Dico is to remove and replace fence and the City of Des Moines is to reimburse Dico for the removal and replacement of fence.

The aforesaid grant includes an assignable right of entry whereby the City of Des Moines, Iowa, can grant the UNITED STATES OF AMERICA, and its contractors permission to enter upon the land hereinabove described for the purpose of performing the proposed work or any part of the proposed work within the period of the grant, which assignable right of entry shall be without limitation whatsoever, except that any exercise or re-exercise of the right to be within the period of the grant.

Said rights, privileges and easements are conveyed subject to existing easements for public roads and highways, public utilities, railroads and pipelines.

DESCRIPTION APPROVED

FLOOD CONTROL
TEMPORARY EASEMENT DEED

KNOW ALL MEN BY THESE PRESENTS, that Union
Des Moines Railway Company
of Polk County, Iowa, in consideration of the sum of
One (1) and no/100th dollar in hand paid by the City of
Des Moines, Iowa, does hereby grant, bargain, sell and convey unto
the City of Des Moines, Iowa, and its assigns, an assignable ease-
ment and right-of-way in, on, over, and across the land hereinafter
described for the purpose of entering thereon at any time to haul,
transport, dump, add, store, maneuver, arrange and remove materials and
equipment in connection with construction of a flood protection
project, together with the right to remove any and all obstructions
and vegetation, and to remove any and all obstructions or
structures within the limits of the right-of-way for the period com-
mencing with the date of this deed and ending December 1, 1972 following
the date of completion of construction, currently scheduled for com-
pletion on the November 1971, provided however, that the
easement and right-of-way herein granted shall terminate and expire
on the first day of December 1972, unless sooner terminated by the
completion of construction and the expiration of the period of one
(1) year thereafter.

Said land is described as follows:

A fifteen (15) foot strip of ground located in Lot "A",
Dico Plat Number one (1), an Official Plat, said fifteen
(15) foot strip lying northeasterly and easterly of
adjacent and parallel to the southwestern and western
line of said Lot "A", said strip of ground extending from
the east line of said Lot "A" to the southeastern corner
of Lot "B", Dico Plat Number one (1), an Official Plat
now included in and forming a part of the City of Des
Moines, Iowa.

The aforesaid grant includes an assignable right of entry whereby the City of Des Moines, Iowa, can grant to the UNITED STATES OF AMERICA, and its contractors permission to enter upon the land hereinabove described for the purpose of performing the proposed work or any part of the proposed work within the period of the grant which assignable right of entry shall be without limitation whatsoever except that any exercise or reexercise of the right be within the period of grant.

Said rights, privileges and easements are conveyed subject to existing easements for public roads and highways, public utilities and railroads and pipelines in place.

And Des Moines Union Railway Company does hereby covenant with the City of Des Moines, Iowa that it holds said premises by good and perfect title; that it has good right and lawful authority to sell and convey the same; and the said Des Moines Union Railway Company does hereby covenant to warrant and defend the title to the said premises against the lawful claims of all persons whomsoever.

KNOW ALL MEN BY THESE PRESENTS.

For and in consideration of the sum of One and no/10 Dollars \$ 1.00 and other valuable consideration in hand paid by the IOWA POWER AND LIGHT COMPANY, a corporation, receipt of which is hereby acknowledged, the undersigned

DICO COMPANY, INC.

do hereby grant unto said IOWA POWER AND LIGHT COMPANY the right to construct, maintain and operate an electrical supply line, and the poles and other necessary equipment, upon, over, along and across certain real estate described below, together with the right to enter upon the said real estate for the purpose of constructing, maintaining or removing said line, and the right to trim or remove, with reasonable care, such trees as may interfere with the proper maintenance or operation thereof.

The overhead electric line easement to consist of a ten foot (10') wide strip of land being five (5) feet either side of a centerline described as follows:

Commencing at the northeast corner of Lot 1, Dico Plat 1, an Official Plat in and forming a part of the City of Des Moines, Iowa, thence south along the west line of S.W. 17th Street a distance of approximately 440 feet, thence west approximately 155 feet to the point of beginning (said point of beginning being an existing pole for an overhead electric line), thence northeasterly to a point on the east property line approximately 155 feet east and 30 feet north of the point of beginning.

This easement is for conductor overhead only. No poles or anchors will be installed on the above described property under the rights granted by this easement.

Consideration for this easement is less than \$500.00.

The IOWA POWER AND LIGHT COMPANY will repair or pay for any damage which may be caused to crops, fences or other property of the undersigned by the construction, maintenance, operation, or removal of said line, and this easement shall be binding upon the heirs, successors, and assigns of both parties and shall continue until cancelled by mutual consent, or the removal and abandonment of said line.

DATED AT DES MOINES, IOWA, this 15 day of NOVEMBER, 1929.

GRANT OF EASEMENT

KNOW ALL MEN BY THESE PRESENTS: That Dico Company, Inc., does for and in consideration of One Dollar (\$1.00) and other valuable consideration in hand paid, give and grant the easements unto the City of Des Moines, Iowa for the use and benefit of the Board of Water Works Trustees of the City of Des Moines, Iowa, as a part of and in furtherance of the water intake and distribution system managed and controlled by such Board of Water Works Trustees.

Such easements are more particularly described on Exhibit "A" hereto attached and are identified thereon as being either a perpetual easement or a construction easement. As to all of such properties, as described in Exhibit "A" as a perpetual easement, the Board of Water Works Trustees of the City of Des Moines, Iowa shall have a continuing and perpetual right to construct, repair, operate, inspect, and forever maintain a water transmission line and necessary appurtenances thereto, together with the right to enter upon such real estate with its employees, agents, and contractors for such purpose, and no structures, other than paving, shall be permitted or allowed upon such real estate except as the parties may hereafter agree in writing.

As to the real estate described on Exhibit "A" as a construction easement, the Board of Water Works Trustees of the City of Des Moines, Iowa shall have the right to go upon such real estate only for the purpose of the construction of the water transmission line and necessary appurtenances, which right, permission and easement shall terminate upon the completion of such construction but in all events no later than January 1, 1982.

The Board of Water Works Trustees of the City of Des Moines, Iowa agrees that at a further consideration for the easements herein mentioned that it will, upon the completion of any work of construction, repair, operation, inspection, or maintenance, cause the surface of the real estate to be restored to the condition it was immediately prior to such work to the extent reasonably possible.

Witness my hand and seal this 29 day of Sept., 1980.

COUNTY OF POLK

On this 29 day of Sept., A.D., 1980, before me, the undersigned, a Notary Public in and for the State of Iowa, personally appeared J. H. Strouf and W. E. McCurville, to me personally known, who, being by me duly sworn, did say that they are the President and Secretary, respectively, of said corporation executing the within and foregoing instrument to which this is attached, that (no seal has been procured by the said) (the seal affixed thereto is the seal of said corporation; that said instrument was signed (and sealed) on behalf of said corporation by authority of its Board of Directors; and that the said J. H. Strouf and W. E. McCurville as such officers acknowledged the execution of said instrument to be the voluntary act and deed of said corporation, by it and by them voluntarily executed.

W. E. McCurville
Notary Public in and for the State of Iowa

5048 not201

EXHIBIT A

A part of Lot 1, except the North 150 feet thereof and except that part thereof described as follows: Beginning at the Southeast corner of said Lot 1, thence North along the East line thereof for a distance of 50 feet, thence Northwesterly for a distance of 200 feet to a point of intersection with the North right-of-way line to the Des Moines Union Railway Company, thence Southeasterly along said North right-of-way line to the point of beginning in Dico Plat No. 1, an Official Plat, now included in and forming a part of the City of Des Moines, Polk County, Iowa, described as follows:

Perpetual Easement

A tract of land forty (40) feet in width in said Lot 1, except the North one hundred fifty (150) feet thereof, and except railroad right-of-way, both as described hereinbefore, centered on a line described as follows:

Commencing at the intersection of the South right-of-way line of Wabash Street and the West right-of-way line of Southwest 17th Street, Block 4, City Place in said City of Des Moines, thence North along said West right-of-way line, with said West right-of-way line being the East line of said Lot 1, with said West right-of-way line having an assumed true bearing of N 0° 00' W, with all subsequent bearings referenced therefrom, a distance of three hundred eighty-two and fifty-two hundredths (382.52) feet to the point of beginning, with said point of beginning being twenty (20) feet south of the Southeast corner of said North one hundred fifty (150) feet of Lot 1; thence N 90° 00' W, a distance of three hundred fourteen and five tenths (314.5) feet to Point A, as shown on Exhibit B, thence N 90° 00' W, a distance of twenty (20) feet to Point B, on the West line of said Lot 1, as shown on Exhibit B; beginning again at said Point A, thence S 0° 33' E, a distance of eighty-seven and forty-six hundredths (87.46) feet to Point C, as shown on Exhibit B, thence S 0° 33' E, a distance of twenty (20) feet to Point D; beginning again at said Point C, thence S 71° 21' W, a distance of twenty-one and four hundredths (21.04) feet to the West line of said Lot 1.

Construction Easement

During construction, the easement shall include additional tracts of land (1) sixteen and seven tenths (16.7) feet in width, measured normal to the North line of the perpetual easement from the intersection of the North line of said additional tract from its intersection with the South line of said North one hundred fifty (150) feet, thence N 90° 00' W to its intersection with the West line of said Lot 1; (2) sixty-three and three tenths (63.3) feet in width, measured normal to the South line of the perpetual easement beginning at the East line of said Lot 1, thence N 90° 00' W, a distance of two hundred fourteen and five tenths (214.5) feet and (3) the South one hundred sixty-three and three tenths (163.3) feet of the North one hundred eighty-three and three tenths (183.3) feet of the West one hundred twenty (120) feet of that part of said Lot 1 lying south of the perpetual easement described from the East line of said Lot 1 to Point B less the perpetual easement previously described and lying within said tract. This easement shall only be used for construction purposes.

A part of Lot 2, except the North one hundred fifty (150) feet thereof, in Dico Plat No. 1, an Official Plat, now included in and forming a part of the City of Des Moines, Polk County, Iowa, described as follows:

Perpetual Easement

Commencing at the intersection of the South right-of-way line of Wabash Street and the West right-of-way line of Southwest 17th Street, Block 4, City Place in said City of Des Moines, thence North along said West right-of-way line, with said West right-of-way line being the East line of Lot 1, Dico Plat No. 1, with said West right-of-way line having an assumed true bearing of N 0° 00' W, with all subsequent bearings referenced therefrom, a distance of three hundred eighty-two and fifty-two hundredths (382.52) feet to a point twenty (20) feet south of the Southeast corner of said North one hundred fifty (150) feet of Lot 1, thence N 90° 00' W, a distance

sought to be condemned for use for the Martin Luther King, Jr. Parkway Project.

**PART 1 - DESCRIPTION OF PROPERTY AND PROPERTY INTEREST TO BE
ACQUIRED; PUBLIC USE OR PURPOSE FOR THE TAKING; NATURE OF THE
TEMPORARY EASEMENT INTEREST.**

The property in which a temporary easement interest is sought to be acquired for the
Martin Luther King, Jr. Parkway Project is shown as the Easement Area on the attached
Acquisition Plat. Said Acquisition Plat is marked Exhibit A and is by this reference made a part
hereof. The Easement Area is legally described as follows:

**LEGAL DESCRIPTION OF THE EASEMENT AREA--Temporary Access Easement
Interest--City of Des Moines, Iowa:**

ALL OF DICO PLAT NO. 1, AN OFFICIAL PLAT, ALL NOW INCLUDED IN
AND FORMING A PART OF THE CITY OF DES MOINES, POLK COUNTY,
IOWA, EXCEPTING THEREFROM THE FOLLOWING DESCRIBED
PARCELS:
EXCEPT THE NORTHERLY 150.00 FEET OF SAID LOTS ONE (1), TWO (2)
AND C.
EXCEPT BEGINNING AT THE SOUTHEAST CORNER OF SAID LOT ONE;

OF 5000 FEET; THENCE NORTHWESTERLY A DISTANCE OF 200.00 FEET TO THE POINT OF INTERSECTION WITH THE NORTH RIGHT-OF-WAY LINE OF THE DES MOINES UNION RAILWAY COMPANY (ALSO THE NORTHERLY LINE OF LOT A OF SAID DICO PLAT NO. 1); THENCE SOUTHEASTERLY ON SAID NORTH RIGHT-OF-WAY LINE TO THE POINT OF BEGINNING. EXCEPT THAT PART OF SAID LOT 2 LYING SOUTH OF THE FOLLOWING DESCRIBED LINE: BEGINNING AT A POINT ON THE EAST LINE OF SAID LOT 2, SAID POINT BEING THE INTERSECTION OF THE SOUTH LINE OF LOT A OF SAID DICO PLAT NO. 1 AND THE EAST LINE OF SAID LOT 2 (THE EAST LINE OF SAID LOT 2 IS ASSUMED TO BEAR NORTH 00° (DEGREES) 10' (MINUTES) 44" (SECONDS) EAST FOR THE PURPOSE OF THIS DESCRIPTION); THENCE NORTHWESTERLY ON A 434.66-FOOT RADIUS CURVE CONCAVE NORTHEASTERLY AND HAVING A 179.98-FOOT LONG CHORD BEARING NORTH 57°10'58" WEST A DISTANCE OF 181.29 FEET (ARC LENGTH); THENCE NORTH 45°35'39" WEST A DISTANCE OF 1,159.97 FEET; THENCE NORTHERLY ON A 461.85-FOOT RADIUS CURVE CONCAVE EASTERLY AND HAVING A 430.30-FOOT LONG CHORD BEARING NORTH 10°54'30" WEST A DISTANCE OF 414.02 FEET (ARC LENGTH); THENCE NORTH 05°46'30" EAST A DISTANCE OF 14.02 FEET; THENCE NORTHERLY ON A 439.90-FOOT RADIUS CURVE CONCAVE EASTERLY AND HAVING A 135.71-FOOT LONG CHORD BEARING NORTH 14°38'57" EAST A DISTANCE OF 136.26 FEET (ARC LENGTH); THENCE NORTH 56°59'17" WEST A DISTANCE OF 142.89 FEET TO THE WEST LINE OF SAID LOT 1. EXCEPTING THAT PART OF SAID LOT ONE LYING EASTERLY OF THE SOUTHERLY EXTENSION OF THE WEST LINE OF S.W. 17TH STREET AND NORTHERLY OF THE FOLLOWING DESCRIBED LINE: BEGINNING AT A POINT ON THE MOST EASTERLY LINE OF SAID LOT ONE, SAID POINT BEING 459.90 FEET SOUTH OF THE NORTHEASTERLY CORNER OF SAID LOT ONE, THENCE WESTERLY 90°00'00" FROM THE MOST EASTERLY LINE OF SAID LOT ONE A DISTANCE OF 854.55 FEET. EXCEPTING THAT PART OF SAID LOT ONE LYING SOUTH OF THE FOLLOWING DESCRIBED LINE: BEGINNING AT A POINT ON THE MOST EASTERLY LINE OF SAID LOT ONE, SAID POINT BEING 459.90 FEET SOUTH OF THE NORTHEASTERLY CORNER OF SAID LOT ONE; THENCE WESTERLY 90°00'00" FROM THE MOST EASTERLY LINE OF SAID LOT ONE A DISTANCE OF 854.55 FEET. CONTAINING APPROXIMATELY 515,557 SQUARE FEET, OR 11.84 ACRES. PROPERTY ADDRESS: 200 SW 16th Street, Des Moines, Iowa.

2 The said temporary easement interest will be used by the City of Des Moines for the purpose of undertaking the following activities for the following purposes in support and advancement of the construction of the Martin Luther King, Jr. Parkway Project, East-West

Phase (hereinafter "the Project") upon the Easement Area:

- (a) Survey of the Easement Area to determine the boundaries and other physical features thereof in anticipation of the construction of Martin Luther King, Jr. Parkway improvements thereon;
 - (b) Conduct a geotechnical audit of a portion of the Easement Area, through the taking of soil borings, to determine the load bearing capacity and other characteristics of that portion of the Easement Area and its ability to accommodate the construction of Martin Luther King, Jr. Parkway improvements thereon;
 - (c) Conduct an environmental audit of the Easement Area, to determine the presence and extent of environmental contaminants therein (including but not limited to petroleum hydrocarbons, COCs, VOCs, Semi-VOCs, heavy metals and/or PCBs), and to determine the impact that the construction of the Martin Luther King, Jr. Parkway improvements thereon would have on such environmental contaminants and on current efforts to remediate the Easement Area. Such audit may include the construction and development of soil boreholes and temporary or long-term monitoring wells to gain access to the underlying soils and groundwater table in order to obtain soil and groundwater samples for laboratory analysis to establish the horizontal and vertical extent of soil and/or groundwater contamination. Soils which are excavated or otherwise disturbed during the course of said audit, and which contain contaminants (petroleum hydrocarbons, COCs, VOCs, Semi-VOCs, heavy metals and/or PCBs) above action levels, will be removed and disposed of off-site at an approved treatment facility. The environmental audit will be performed in order to assist the City in determining if additional or different remedial activities will be required in order to undertake the construction of the Martin Luther King, Jr. Parkway improvements on the Easement Area. Remedial activities may include the relocation of extraction wells, pumps or related equipment located on the Easement Area, such remedial activities to be undertaken only with the approval and at the direction of the U.S. Environmental Protection Agency.
3. The temporary easement shall be for a period of two years from and after the date of condemnation, and during said two year period the City, its employees, agents, consultants and/or contractors will be present upon and occupy the Easement Area or a portion thereof for a combined total of not more than 500 hours. In the event the Easement Area or any portion thereof is occupied in excess of 500 hours during said two year period, the condemnee/property owner shall be further compensated at a per hour rate to be determined by the Compensation Commission for each additional hour of occupancy in excess of 500 hours.
4. It is understood that the City may have to share the results of its environmental audit with State and/or Federal agencies in order for the Project to be undertaken and completed on the Easement Area.
5. If the Easement Area is damaged as a direct result of the survey or audit activities undertaken on the Easement Area by the City, its employees, agents, contractors and/or consultants, the City will, at the City's discretion, either repair the Easement Area or pay for the damage. The City will perform, or reimburse the condemnee/property owner for performing, any backfilling or restoration work on the Easement Area necessitated by the performance of survey or audit activities, including the restoration of surface improvements and any plantings thereby disturbed, to the pre-excavation condition to the satisfaction of the condemnee/property owner.
6. The City or its agents, consultants and/or contractors will notify the condemnee/property

owner at least 24 hours prior to entering upon the Easement Area for purposes of conducting survey or audit activities. The City will keep the condemnee/property owner informed of the progress of the environmental audit activities, to notify the condemnee/property owner when the audit has been completed, and, at the condemnee/property owner's request, to share any information obtained, including audit reports, with the condemnee/property owner.

The City's contact agent for purposes of conducting audit activities is
 David Neal McGuffin, P.E., Environmental Engineer,
 City of Des Moines Engineering Department
 City Hall, 400 East 1st Street, Des Moines, Iowa, 50309-1809
 Telephone: (515) 283-4028.

The City and its agents, consultants and/or contractors will comply at all times during the term of this temporary easement with all applicable ordinances and laws of any City, county, or state government of the United States Government, and of any political division or subdivision, or agency, authority or commission thereof which may have jurisdiction to pass laws or ordinances with respect to the Easement Area.

PART II NAMES OF RECORD OWNERS AND HOLDERS OF LIENS AND ENCUMBRANCERS OF THE EASEMENT AREA.

The names and addresses of all record owners and holders of liens and encumbrancers with respect to the Easement Area, as far as shown, are as follows:

Titleholders:

DICO INC., Fka Dico Company, Inc., Fka Dico Corporation,
 Fka Dairy Industries, Inc., 2701 Spruce St., Quincy, IL 62301
 Registered Agent: Cheri T. Holley, c/o DICO INC.,

PART III. PROPERTY INTERESTS NECESSARY TO ACHIEVE THE PUBLIC PURPOSE AND PROPERTY INTERESTS PROPOSED TO BE ACQUIRED FOR THE PROJECT.

The Acquisition Plat, marked as Exhibit A and attached hereto and made a part hereof, identifies those portions of the condemnee's property, the Easement Area, which are required by the City of Des Moines for the purposes of conducting a survey and geotechnical and environmental audits in conjunction with the Martin Luther King, Jr. Parkway Project. The City further asserts that said Easement Area constitutes the necessary minimum amount of land required to achieve the purpose herein identified. The City is acquiring the Temporary Access Easement described herein subject to the existing easement interests on this property.

PART IV. GOOD FAITH EFFORTS MADE BY THE CITY TO NEGOTIATE THE PURCHASE OF THE PROPERTY.

The City represents and warrants that it has undertaken the following activities in attempting to negotiate the purchase of a temporary easement interest in the Easement Area from the condemnee/property owner:

- (a) On October 4, 1999, by Roll Call No. 99-3144, the Des Moines City Council adopted a resolution authorizing the acquisition of all properties and property interest required for the Project.
- (b) On April 19, 2001, the Real Estate Division of the City of Des Moines Engineering Department received a compensation estimate of the value of the temporary easement hereinabove described, prepared by Mr. Fred Lock, a professional real estate appraiser with Iowa Appraisal and Research Corporation. Said compensation estimate indicated a fair market value of the easement interest as of that date in the amount of \$2,648.00.
- (c) On May 1, 2001, the City Manager of the City of Des Moines approved the above referenced compensation estimate, establishing the fair market value of the temporary easement interest in the amount of \$2,648.00, as determined by said compensation estimate.
- (d) On May 9, 2001, the Real Estate Division of the City of Des Moines Engineering Department mailed to the condemnee/property owner an offer to purchase said temporary easement interest at the fair market value thereof, as set forth in the compensation estimate and as established by the City Council, together with a copy of the compensation estimate. The offer was also accompanied by a cover letter, informing the condemnee/property owner of its right to waive the 10 day waiting period for commencement of negotiations, and informing the condemnee/property owner of the requirement that the City negotiate for purchase of the property in good faith.
- (e) Having received no response to the City's offer, the Real Estate Division corresponded with the condemnee/property owner by letter dated June 4, 2001, therein reiterating the City's offer of \$2,650.00 for acquisition of the temporary easement interest, and indicating that the City's offer would remain open for acceptance by the

condemnee property owner through June 15, 2001.

(d) The condemnee property owner made no response to the Real Estate Division's June 4th letter, and City's offer to purchase the temporary easement interest expired on June 15, 2001.

NOW, THEREFORE, pursuant to a regularly adopted resolution by the City Council of the City of Des Moines, **YOU ARE HEREBY REQUESTED** to appoint a Compensation Commission to appraise the damages caused by this appropriation, said Commission to consist of six commissioners who shall be residents of Polk County, Iowa.

YOU ARE FURTHER REQUESTED to give written notice to the City of Des Moines, Iowa as soon as the commissioners have been appointed.

Dated this 30th day of July, 2001.

by the

CITY OF DES MOINES, IOWA,
IA077011A,

Applicant.

An Application for Condemnation having been filed with me by the City of Des Moines, Iowa for the selection and appointment, by lot, of six suitable persons as provided by law to act as a Compensation Commission, to assess and appraise the damages sustained by reason of the condemnation of certain specified rights in certain land described by the Applicant, in its Application, filed in the above-entitled matter, I hereby DESIGNATE, SELECT and APPOINT as the members of said Compensation Commission required in this matter the following persons:

NAME	ADDRESS	QUALIFICATIONS
1. Darryl Green	405 SE 15th St Altoona	LICENSED REAL ESTATE
2. Clarke Stewart	550 59th Suite 301 DM	BROKER/SALESPERSON
1. Anthony Pigneri	2017 So Union DM	KNOWLEDGEABLE OF
2. Jerry Evans	6220 SE 6th Ave Pleasant Hill	PROPERTY VALUES BY VIRTUE OF OCCUPATION
1. Reed Backstrom	226 E Bundy DM	OTHER THAN
2. Jack Roberts	4017 83rd DM	AGRICULTURAL

I further DESIGNATE, SELECT and APPOINT the above-named
Darryl Green to act as Chairperson of said Commission and Clarke Stewart
is appointed to act as Alternate Chairperson.

Pursuant to Section 6B.5 of the Iowa Code, one of the above-named Compensation Commissioners shall be subject to challenge without cause by the Applicant City of Des Moines,

Iowa, and one of the above-named Compensation Commissioners shall be subject to challenge without cause by the party or parties representing the ownership interest or interests of the property being condemned. Such challenge must be filed in writing with the Sheriff not less than seven (7) days prior to the meeting of the Compensation Commission to assess and appraise damages for the taking.

I further DESIGNATE, SELECT and APPOINT the following persons to serve as alternate members of said Compensation Commission, to serve in the event that any of the members having the same qualifications are unable to serve for any reason or in the event any such members are stricken from the panel as provided by law:

NAME	ADDRESS	QUALIFICATIONS
1. Jack McWilliams	5821 NE 3rd St DM	LICENSED REAL ESTATE
2. Dennis Connolly	2130 Grand Ave DM	BROKER/SALESPERSON
3. Gene Knepper	4726 85th St Urbandale	
1. William O'Brien	7505 Vandalia Rd Runnells	KNOWLEDGEABLE OF

2. Harold Porter	3909 81st St Urbandale	AGRICULTURAL
3. Rich Raabe	3781 River Oaks Dr DM	

I HEREBY ORDER that if a person is excused from the Compensation Commission, the Applicant City of Des Moines and person or persons representing the fee ownership interest in the property may stipulate in writing to the selection and notification of a particular Alternate Commissioner having the same qualifications as the person being replaced, provided such stipulation is filed with the Sheriff not less than seventy-two (72) hours prior to the meeting of the Commission. Absent such stipulation, the Sheriff of Polk County, Iowa, shall notify Alternate Commissioners in the order above provided having the same qualifications as the person or persons unable to serve or stricken from the panel, such notification to be given to Alternate Commissioners in the same manner as the original Compensation Commissioners were notified. The Alternate Commissioner first notified who is available to serve as a Compensation Commissioner shall then serve in the place of the Commissioner who was unable to serve or who was stricken from the panel. I further direct that the above-named Alternate Commissioners shall not be subject to challenge without cause.

I FURTHER HEREBY ORDER that the Commissioners, and such Alternate Commissioners as may be hereafter selected by the Sheriff due to the absence or removal of a Commissioner, shall appear at the time and place designated for the meeting of the Compensation Commission in the Notice of Meeting of Compensation Commission to Assess Damages for the Taking of Property, and

that prior to said meeting, the above named Commissioners and Alternate Commissioners shall not communicate with the Applicant City of Des Moines, or the owner or tenant of the property being condemned regarding the condemnation proceedings.

I FURTHER HEREBY ORDER that the Applicant, City of Des Moines, Iowa, mail and publish or serve a list of the above-named Compensation Commissioners and Alternate Commissioners to the owner or owners of the property sought to be condemned, in accordance with Section 6B.4 of the Iowa Code.

TO THE SHERIFF OF POLK COUNTY, IOWA: Attached hereto please find a duplicate of the Application for Condemnation in the above matter.

Dated at Des Moines, Iowa this 23 day of July, 2001.

TO: Jack McWilliams
5821 NE 3rd Street
Des Moines, IA

The City of Des Moines, Iowa, has filed with the Chief Judge of the Fifth Judicial District, including Polk County, Iowa, an Application for Condemnation and Appointment of Commissioners to Appraise Damages, asking for the selection and appointment of a Compensation Commission to assess the damages which the owners, encumbrancers, lienholders and other persons interested in the land sought to be appropriated or condemned in these proceedings, will sustain by reason of such condemnation of the property.

WHEREAS, pursuant to Iowa law, you have been selected and appointed by the Chief Judge of the Fifth Judicial District for Polk County, Iowa, as a member of such Condemnation Commission, and Clarke Stewart has been designated as Chairman of the Commission.

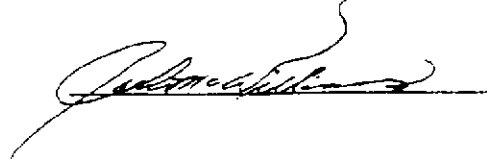

NOW, THEREFORE, you are commanded to be and appear before the undersigned in the Office of the Sheriff of Polk County, Midland Building, Suite 114, 206 Sixth Avenue, Des Moines, Iowa, on the 5th day of September, 2001, at 9:00 A.M. for the purpose of qualifying as a Commissioner and to proceed to view said premises and make an award of damages.

The attached Notice of Public Meeting of Compensation Commissioners to Assess Damages for Taking of Property identifies the persons and real estate affected by the condemnation. You should examine it in order to determine if you possess an interest in the proceeding which would cause you to render a biased decision.

The City of Des Moines, Iowa, has filed with the Chief Judge of the Fifth Judicial District, including Polk County, Iowa, an Application for Condemnation and Appointment of Commissioners to Appraise Damages, asking for the selection and appointment of a Compensation Commission to assess the damages which the owners, encumbrancers, lienholders and other persons interested in the land sought to be appropriated or condemned in these proceedings, will sustain by reason of such condemnation of the property.

WHEREAS, pursuant to Iowa law, you have been selected and appointed by the Chief Judge of the Fifth Judicial District for Polk County, Iowa, as a member of such Condemnation Commission, and Clarke Stewart has been designated as Chairman of the Commission.

NOW, THEREFORE, you are commanded to be and appear before the undersigned in the Office of the Sheriff of Polk County, Midland Building, Suite 114, 206 Sixth Avenue, Des Moines, Iowa, on the 5th day of September, 2001, at 9:00 A.M. for the purpose of qualifying as a Commissioner and to proceed to view said premises and make an award of damages.

The attached Notice of Public Meeting of Compensation Commissioners to Assess Damages for Taking of Property identifies the persons and real estate affected by the condemnation. You should examine it in order to determine if you possess an interest in the proceeding which would cause you to render a biased decision.

OATH OF COMPENSATION COMMISSIONERS

STATE OF IOWA)
)
COUNTY OF POLK)

Each of the undersigned, being duly sworn, states

That I do possess the qualifications listed under my name below; and

That I do not possess any interest in the proceeding which would cause me to render a biased decision; and

That I will, to the best of my ability, faithfully and impartially assess the damages which owners, lienholders, encumbrancers and other persons interested in the land from which certain rights are sought to be appropriated by these proceedings will sustain by reason of the appropriation of the right as set forth and described in the Application now on file in the Office of the Sheriff of Polk County.

That I will make a written report to the Sheriff, including the information used by the commission in assessing the damages, all as authorized and prescribed in Chapters 6A and 6B, Code of Iowa, and any amendments thereto, and in accordance with the instructions of the Chief Justice of the Supreme Court.

That I will well and truly perform any and all other duties imposed upon me by law as a member of the Compensation Commission selected and appointed to assess said damage.

CONTAINING APPROXIMATELY 515,557 SQUARE FEET, OR 11.84 ACRES.

PROPERTY ADDRESS: 200 S.W. 16th Street, Des Moines, Iowa

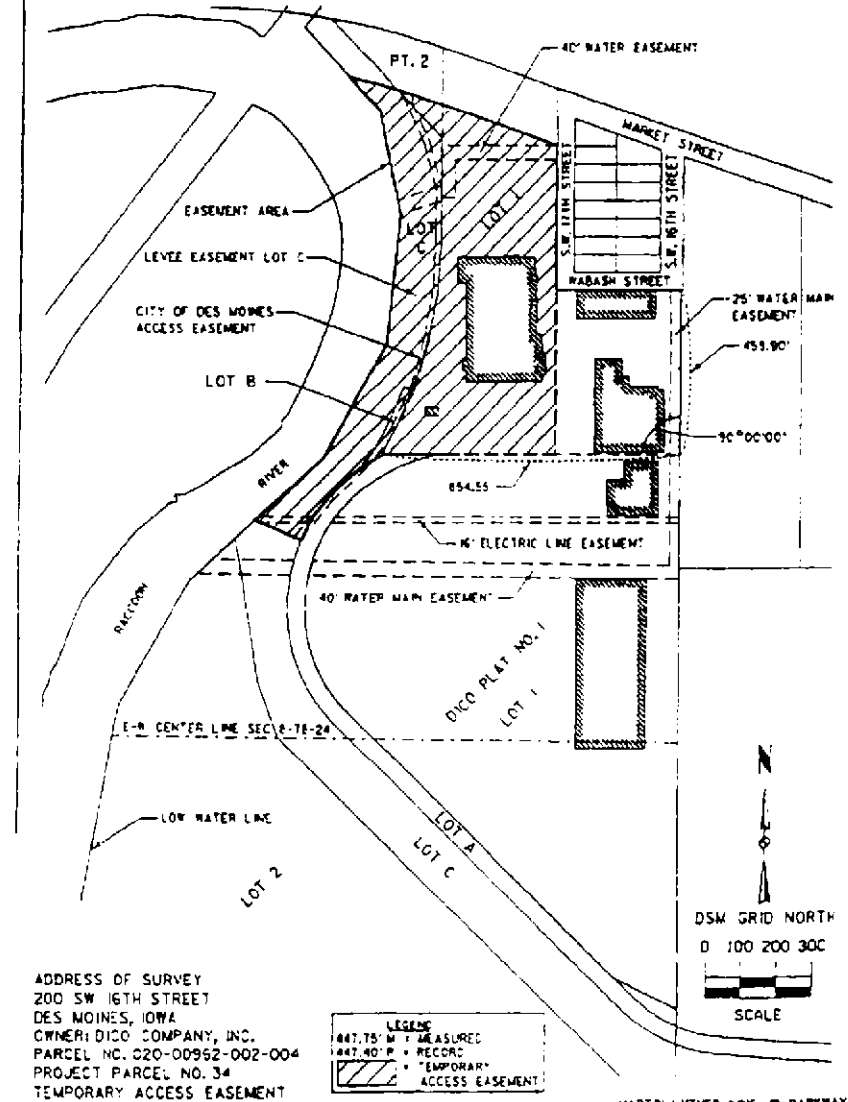

PUBLIC NOTICE IS HEREBY GIVEN:

1. That the City of Des Moines desires the condemnation of a temporary easement interest on the above-described properties, as shown on the plat attached hereto as Exhibit A and by this reference made a part hereof, and as shown on the plat attached to the Application for Condemnation filed with the Chief Judge of the Fifth Judicial District and in the office of the Sheriff of Polk County, Iowa.
2. That such condemnation is sought for use in accordance with the Martin Luther King, Jr. Parkway Project.
3. That a Compensation Commission has been appointed, as provided by law, for the purpose of appraising the damages which will be caused by the taking of the above described properties.
4. That the Compensation Commission will, on the 5th day of September, 2001 at 9:00 A.M., meet in the Office of the Sheriff of Polk County in the Midland Building at 206 Sixth Avenue in Des Moines, Iowa, and will then proceed to view the properties and to assess and appraise the damages, at which time you may appear before the Commissioners if you care to do so.
5. That the Compensation Commission is required to meet in open session (open to the public) to view the property being condemned and to receive evidence, but may deliberate in closed session, as provided by Section 6B.14 of the Iowa Code.

PUBLIC NOTICE IS HEREBY GIVEN:

1. That the City of Des Moines desires the condemnation of a temporary easement interest on the above-described properties, as shown on the plat attached to the Application for Condemnation filed with the Chief Judge of the Fifth Judicial District and in the office of the Sheriff of Polk County, Iowa.
2. That such condemnation is sought for use in accordance with the Martin Luther King, Jr. Parkway Project.
3. That a Compensation Commission has been appointed, as provided by law, for the purpose of appraising the damages which will be caused by the taking of the above described properties.
4. That the Compensation Commission will, on the 5th day of September, 2001 at 9:00 a.m., meet in the Office of the Sheriff of Polk County in the Midland Building at 206 Sixth Avenue in Des Moines, Iowa, and will then proceed to view the properties and to assess and appraise the damages, at which time you may appear before the Commissioners if you care to do so.
5. That the Compensation Commission is required to meet in open session (open to the public) to view the property being condemned and to receive evidence, but may deliberate in closed session, as provided by Section 6B.14 of the Iowa Code.

)	
Applicant.)	

BE IT REMEMBERED that on the 3rd day of July, 2001, the City of Des Moines, Iowa, a municipal corporation organized and existing under and by virtue of the laws of the State of Iowa, and located in the County of Polk, did, in pursuance of law, make written Application to the Chief Judge of the Fifth Judicial District for Polk County, Iowa, for the appointment of Compensation Commissioners under Chapter 6B of the Iowa Code to assess the damages sustained by the various persons, companies or corporations owning or having any interest in the property in the City of Des Moines, Polk County, Iowa, which said municipal corporation desires to take, acquire, appropriate and condemn a temporary easement interest for the purpose of the Martin Luther King Jr., Parkway Project, and it being made to appear that the persons, companies or corporations owning or claiming any interest in said property have refused to grant the same to said municipal corporation for said purposes and that said municipal corporation cannot agree with said owners and claimants of an interest in said property upon the compensation to be paid for the same, the Chief Judge of the Fifth Judicial District for Polk County, Iowa, in pursuance of the powers vested in him by law and said written application having been filed with him, did appoint six (6) resident freeholders of the County

of Polk, State of Iowa, who were not interested in the same or a like question to inspect the said property and assess the damages which said owners and claimants of an interest in the same might sustain by reason of the appropriation thereof by said corporation for the uses and purposes aforesaid, the said freeholders appointed being: Clarke Stewart, Jack McWilliams, Anthony Pigneri, Jerry Evans, Reed Backstrom and Jack Roberts and said Commissioners were duly and legally summoned to view the said property as herein described on the 5th day of September, 2001, at 9 o'clock a. m., and to assess the damages of each of the owners thereof, and persons, companies or corporations having or claiming an interest therein by reason of the appropriation of the same by said municipal corporation for said purpose, which said owners and persons, companies or corporations having or claiming an interest therein are as hereinafter set out.

WHEREUPON, all of said Commissioners met in my office in the Midland Building in Des Moines, Polk County, Iowa, on the 5th day of September, 2001, and said Commissioners, and each of them, then and there signed and made oath and qualified by filing with me their written oath, the original of said oath being attached hereto, marked "Exhibit A," and by this reference made a part hereof.

Thereafter, the Commissioners did, on the 5th day of September, 2001, view the said property and did thereafter meet in public session to assess the damages that said property owners and claimants of an interest in said property will sustain by reason of the appropriation of the same by said City for the purposes aforesaid.

Due and legal notice of the proposal of said municipal corporation to take said properties for a temporary easement interest, and of the time and place of meeting of said Commissioners for the purpose of making such assessment having been heretofore given and published, after the

appointment of the Commissioners, to the owners of the said described property and all persons, companies or corporations having or claiming an interest therein, the said Commissioners thereupon made out and returned their report of assessment of damages, as follows to-wit:

REPORT OF COMMISSIONERS

TO THE SHERIFF OF POLK COUNTY, IOWA:

The undersigned, duly appointed and qualified Commissioners to inspect the property hereinafter described and assess the damages which the owners thereof and persons, companies or corporations having or claiming an interest therein will sustain by reason of the appropriation of the same for the Martin Luther King, Jr. Parkway Project, having been duly sworn, faithfully and impartially assess all such damages, and it appearing that all persons, companies or corporations owning or claiming an interest in any of the property hereinafter described have been duly and legally notified of the proceedings herein and the time and place of our meeting to view said property and assess their damages, as aforesaid, we did, on the 5th day of September, 2001, view the real estate hereinafter described and assess the damages which the owners thereof and persons having or claiming an interest therein will sustain by reason of the appropriation of the same by said municipal corporation for the purposes aforesaid.

And we now, after 1 day(s) deliberation, on the 5th day of September, 2001, return this, our true findings in the premises, as shown below, as actual damages for the taking of the property hereinafter described:

TEMPORARY ACCESS EASEMENT

ALL OF DICO PLAT NO. 1, AN OFFICIAL PLAT, ALL NOW INCLUDED IN AND FORMING A PART OF THE CITY OF DES MOINES, POLK COUNTY, IOWA, EXCEPTING THEREFROM THE FOLLOWING DESCRIBED PARCELS:

PROPERTY ADDRESS: 200 SW 16th Street, Des Moines, Iowa

2. The said temporary easement interest will be used by the City of Des Moines for the purpose of undertaking the following activities for the following purposes in support and advancement of the construction of the Martin Luther King, Jr. Parkway Project, East-West:

Phase (hereinafter "the Project") upon the Easement Area:

- (a) Survey of the Easement Area to determine the boundaries and other physical features thereof in anticipation of the construction of Martin Luther King, Jr. Parkway improvements thereon;
 - (b) Conduct a geotechnical audit of a portion of the Easement Area, through the taking of soil borings, to determine the load bearing capacity and other characteristics of that portion of the Easement Area and its ability to accommodate the construction of Martin Luther King, Jr. Parkway improvements thereon;
 - (c) Conduct an environmental audit of the Easement Area, to determine the presence and extent of environmental contaminants therein (including but not limited to petroleum hydrocarbons, COCs, VOCs, Semi-VOCs, heavy metals and/or PCBs), and to determine the impact that the construction of the Martin Luther King, Jr. Parkway improvements thereon would have on such environmental contaminants and on current efforts to remediate the Easement Area. Such audit may include the construction and development of soil borholes and temporary or long-term monitoring wells to gain access to the underlying soils and groundwater table in order to obtain soil and groundwater samples for laboratory analysis to establish the horizontal and vertical extent of soil and/or groundwater contamination. Soils which are excavated or otherwise disturbed during the course of said audit, and which contain contaminants (petroleum hydrocarbons, COCs, VOCs, Semi-VOCs, heavy metals and/or PCBs) above action levels, will be removed and disposed of off-site at an approved treatment facility. The environmental audit will be performed in order to assist the City in determining if additional or different remedial activities will be required in order to undertake the construction of the Martin Luther King, Jr. Parkway improvements on the Easement Area. Remedial activities may include the relocation of extraction wells, pumps or related equipment located on the Easement Area, such remedial activities to be undertaken only with the approval and at the direction of the U.S. Environmental Protection Agency.
3. The temporary easement shall be for a period of two years from and after the date of condemnation, and during said two year period the City, its employees, agents, consultants and/or contractors will be present upon and occupy the Easement Area or a portion thereof for a combined total of not more than 500 hours. In the event the Easement Area or any portion thereof is occupied in excess of 500 hours during said two year period, the condemnee/property owner shall be further compensated at a per hour rate to be determined by the Compensation Commission for each additional hour of occupancy in excess of 500 hours.
 4. It is understood that the City may have to share the results of its environmental audit with State and/or Federal agencies in order for the Project to be undertaken and completed on the Easement Area.
 5. If the Easement Area is damaged as a direct result of the survey or audit activities undertaken on the Easement Area by the City, its employees, agents, contractors and/or consultants, the City will, at the City's discretion, either repair the Easement Area or pay for the damage. The City will perform, or reimburse the condemnee/property owner for performing, any backfilling or restoration work on the Easement Area necessitated by the performance of survey or audit activities, including the restoration of surface improvements and any plantings thereby disturbed, to the pre-excavation condition to the satisfaction of the condemnee/property owner.
 6. The City or its agents, consultants and/or contractors will notify the condemnee/property

owner at least 24 hours prior to entering upon the Easement Area for purposes of conducting survey or audit activities. The City will keep the condemnnee/property owner informed of the progress of the environmental audit activities, to notify the condemnnee/property owner when the audit has been completed, and, at the condemnnee/property owner's request, to share any information obtained, including audit reports, with the condemnnee/property owner.

7. The City's contact agent for purposes of conducting audit activities is:

David Neal McGuffin, P.E., Environmental Engineer,
City of Des Moines Engineering Department
City Hall, 400 East 1st Street, Des Moines, Iowa, 50309-1809
Telephone: (515) 283-4028.

8. The City and its agents, consultants and/or contractors will comply at all times during the term of this temporary easement with all applicable ordinances and laws of any City, county, or state government of the United States Government, and of any political division or subdivision or agency, authority or commission thereof which may have jurisdiction to pass laws or ordinances with respect to the Easement Area.

PART II NAMES OF RECORD OWNERS AND HOLDERS OF LIENS AND ENCUMBRANCERS OF THE EASEMENT AREA.

The names and addresses of all record owners and holders of liens and encumbrancers with respect to the Easement Area, as far as shown, are as follows:

Titleholders:

DICO INC., f/k/a Dico Company, Inc., f/k/a Dico Corporation.
f/k/a Dairy Industries, Inc., 2701 Spruce St., Quincy, IL 62301
Registered Agent: Cheri T. Holley, c/o DICO INC.,
2345 E. Market St., Des Moines, IA 50316

PART III. PROPERTY INTERESTS NECESSARY TO ACHIEVE THE PUBLIC PURPOSE AND PROPERTY INTERESTS PROPOSED TO BE ACQUIRED FOR THE PROJECT.

The Acquisition Plat, marked as Exhibit A and attached hereto and made a part hereof, identifies those portions of the condemnee's property, the Easement Area, which are required by the City of Des Moines for the purposes of conducting a survey and geotechnical and environmental audits in conjunction with the Martin Luther King, Jr. Parkway Project. The City further asserts that said Easement Area constitutes the necessary minimum amount of land required to achieve the purpose herein identified. The City is acquiring the Temporary Access Easement described herein subject to the existing easement interests on this property.

PART IV. GOOD FAITH EFFORTS MADE BY THE CITY TO NEGOTIATE THE PURCHASE OF THE PROPERTY.

The City represents and warrants that it has undertaken the following activities in attempting to negotiate the purchase of a temporary easement interest in the Easement Area from the condemnee/property owner:

- (a) On October 4, 1999, by Roll Call No. 99-3144, the Des Moines City Council adopted a resolution authorizing the acquisition of all properties and property interest required for the Project.
- (b) On April 19, 2001, the Real Estate Division of the City of Des Moines Engineering Department received a compensation estimate of the value of the temporary easement hereinabove described, prepared by Mr. Fred Lock, a professional real estate appraiser with Iowa Appraisal and Research Corporation. Said compensation estimate indicated a fair market value of the easement interest as of that date in the amount of \$2,648.00.
- (c) On May 1, 2001, the City Manager of the City of Des Moines approved the above referenced compensation estimate, establishing the fair market value of the temporary easement interest in the amount of \$2,648.00, as determined by said compensation estimate.
- (d) On May 9, 2001, the Real Estate Division of the City of Des Moines Engineering Department mailed to the condemnee/property owner an offer to purchase said temporary easement interest at the fair market value thereof, as set forth in the compensation estimate and as established by the City Council, together with a copy of the compensation estimate. The offer was also accompanied by a cover letter, informing the condemnee/property owner of its right to waive the 10 day waiting period for commencement of negotiations, and informing the condemnee/property owner of the requirement that the City negotiate for purchase of the property in good faith.
- (e) Having received no response to the City's offer, the Real Estate Division corresponded with the condemnee/property owner by letter dated June 4, 2001, therein reiterating the City's offer of \$2,650.00 for acquisition of the temporary easement interest, and indicating that the City's offer would remain open for acceptance by the

condemnee/property owner through June 15, 2001.

(d) The condemnee/property owner made no response to the Real Estate Division's June 4th letter, and City's offer to purchase the temporary easement interest expired on June 15, 2001.

NOW, THEREFORE, pursuant to a regularly adopted resolution by the City Council of the City of Des Moines, YOU ARE HEREBY REQUESTED to appoint a Compensation Commission to appraise the damages caused by this appropriation; said Commission to consist of six commissioners who shall be residents of Polk County, Iowa.

YOU ARE FURTHER REQUESTED to give written notice to the City of Des Moines, Iowa as soon as the commissioners have been appointed.

Dated this 23 day of July, 2001.

NOTICE

The director of the Department of Natural Resources provides notice that the real property owned by Dico Company, Inc. and located in Polk County, Iowa, which is legally described as:

E ¼ of Section 8, T78N, R24W, Polk County, Iowa.

was placed on the registry of hazardous wastes or hazardous substances disposal sites on or before March 22, 1991. The director has determined that closure activities have been completed and that the site is now properly classified pursuant to Iowa Code section 455B.427(3) as "c" - site properly closed-requires continued management. This finding does not warrant to a future purchaser of the site that the site will be free from any future adverse impacts as a result of use of the site as a hazardous waste or hazardous substances disposal site.

Questions regarding this Notice may be directed to the Department of Natural Resources, 900 East Grand Avenue, Henry A. Wallace Building, Des Moines, Iowa 50319-0034.

JEFFREY R. VONK, DIRECTOR
IOWA DEPARTMENT OF NATURAL RESOURCES

Dated this 25th day of

STATE OF IOWA)
) ss:
COUNTY OF POLK)

On this 25th day of February, 2002, before me, a notary public in and for said county, personally appeared Jeffrey R. Vonk who stated that he is the duly appointed and acting director of the Iowa Department of Natural Resources, and that he was authorized to execute the foregoing on behalf of the Iowa Department of Natural Resources pursuant to Iowa Code section 455B.431.

NOTARY PUBLIC - STATE OF IOWA

TITLE CERTIFICATE

No. 459948T1

Dated November 7, 2002 at 7:00 A.M.

Requested by Black & Veatch - Genise Luecke
6601 College Blvd Overland Park KS 66211
Fax Number 913-458-4332

The undersigned hereby certifies that the following report is a correct reflection of the public records of Polk County, Iowa, and the United States District Court for the Southern District of Iowa, affecting title to the real estate legally described as follows:

Lot 1 CENTRAL DES MOINES INDUSTRIAL PARK, an Official Plat, now included in and forming a part of the City of Des Moines, Polk County, Iowa, except beginning at the Northwest corner of said Lot 1; thence Southeast 352.84 feet; thence South 47.07 feet; thence Northwest 6.25 feet; thence North 3.03 feet; thence Northwest 21.21 feet; thence Northwesterly 312.43 feet; thence North 100.41 feet to the point of beginning.

the record title to which is vested in Iowa Power and Light Company by virtue of Warranty Deed filed January 16, 1967, and recorded in Book 3833, Page 195:

Including searches for conveyances, conflicting conveyances, deeds; unreleased mortgages, modifications and extensions thereof; Uniform Commercial Code filings subsequent to January 1, 1975, claims entered in the Claimant's Book; divorce and probate proceedings, mechanics liens, attachments, suits brought and notices filed claiming distributive shares in said real estate, suits entered in the Lis Pendens Index; due, delinquent and suspended taxes, tax sales and special assessments entered on the books of the Polk County Treasurer, to date hereof.

Also including searches for unreleased federal tax liens, state tax liens; bankruptcies, judgments and transcripts of judgments from United States and County Courts against the above-named titleholder(s) for the past ten years to date, and find none except as shown. We do not certify to judgments in divorce actions entered ten years or more prior to the date hereof.

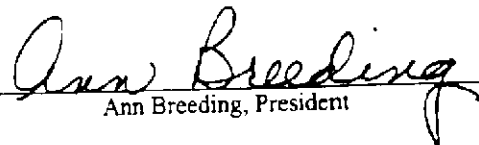

No report is made of possible liens against vendors, mortgagees or prior titleholders.

The report is made for the exclusive information and use of requestor, and no liability for errors or omissions will accrue to the benefit of any other person or corporation.

WHEN RECORDED RETURN TO

EXHIBIT "A"

1. It is expressly agreed and understood that in the event Grantee, its successors or assigns, shall decide to sell said premises in the future, Grantor, its successors or assigns, shall have the right of first refusal to repurchase this property at the same price per acre as paid by Grantee for this conveyance.

2. The Grantee, its successors or assigns, agrees with Grantor, its successors or assigns, that as a part of the consideration for this conveyance, Grantee will not lease, rent, sublease, or assign any part of the property without the express written consent of Grantor.

If the Grantee, its successors or assigns, or anyone holding or claiming by, through or under them, shall violate this condition, then this conveyance shall be null and void and all the right, title, interest and estate in said premises shall immediately revert to and be re-vested in the Grantor, its successors or assigns, and it shall be seized as of its former estate herein, as if these covenants had never been executed, and may immediately re-enter, repossess and hold said premises as of fee simple.

3. This conveyance is subject to all existing burdens, restrictions and encumbrances shown on the plat attached hereto.

TRANSMISSION LINE EASEMENT

KNOW ALL MEN BY THESE PRESENTS:

The undersigned Owners,

DICC CORPORATION

and the undersigned Tenant,

IN AND FOR POLK COUNTY, IOWA
RECORD

AT 9:13 JAN 17 1967

THEME: EASEMENT

for and in consideration of One and no/100 Dollars (\$ 1.00),
to be paid by IOWA POWER AND LIGHT COMPANY, an Iowa corporation, to hereby grant to Iowa Power and
Light Company, its successors and assigns, the right to construct, maintain and operate an electrical transmission line,
and the poles, structures, wires, and other necessary equipment incident thereto, upon, over, along and across certain
real estate described below, together with the right to enter upon said real estate for the purpose of constructing,
maintaining, or removing said line, and the right to trim or remove with reasonable care, such trees as may interfere
with the proper maintenance and operation thereof, and the right to remove from the strip of land specifically de-
scribed below any obstruction, including buildings and other structures, which may interfere with the proper
maintenance and operation of said line. In consideration of such grant, Iowa Power and Light Company agrees
that it will repair or pay for any damage which may be caused to crops, fences or other property of the undersigned
by the construction, maintenance or removal of said line.

A tract of land in the Northeast 1/4 of Section 8 - Township 78 -
Range 24, west of the 5th P. M. Polk County, Iowa, more particularly
described as follows: Starting at a point on the South line of Wabash
Avenue and the center line of Sixteenth Street in City Place, thence
South on the prolongation of the center line of Sixteenth Street 439.9
feet to the South line of the Dairy Industries Co., Inc., thence West
at right angles along the South line of the Dairy Industries Land 589.21
feet more or less to the beginning of a curve of radius 482.8 feet,
concave to the left. Thence, Southwest along said curve, being the East
right-of-way line of the Des Moines Union Railway Company to a point
192 feet due South of the projection of the South line of the Dairy
Industries Land; thence East parallel to the South line of the Dairy
Industries Land 966.1 feet more or less to the center line of vacated
Sixteenth Street, thence North along said center line 192 feet to
place of beginning--containing 163,052 square feet, more or less,
also that part of Government Lot 2 in the N. E. 1/4 of Section 8,
Township 78 North, Range 24 West of the 5th P. M. Polk County, Iowa
lying West of the West right-of-way line of the Des Moines Union
Railway Company.

The electric transmission lines to be located across the above described
property along a center line described as follows: Commencing at a point on
the South line of Wabash Avenue and the center line of Sixteenth Street in
City Place, thence South on the prolongation of the center line of Sixteenth
Street approximately 630 feet to the point of beginning, running thence
approximately due West to the East right-of-way line of the Des Moines
Union Railway, and continuing West on the same course and beginning on the
West right-of-way line of the Des Moines Railway, running thence West to the
West line of said Government Lot 2.

The electric transmission lines referred to above may consist of one or
more electric circuits on the same line of poles.

The undersigned acknowledge payment of One and no/100 Dollars (\$ 1.00) hereunder, and it is agreed that if the balance of the stated consideration is not paid the undersigned within _____ days from date hereof, this agreement shall become binding upon all parties hereto, their heirs, successors and assigns, but shall terminate upon the permanent removal or abandonment of the supply or transmission line. If the balance of the consideration is not paid as above limited, then the initial payment shall be forfeited to the grantor and both parties shall be released from all further obligation hereunder.

Iowa Power and Light Company may enter said premises for the purpose of surveys and preliminary estimates, but shall not begin construction, and shall not file this agreement for record, until full consideration is paid.

EASEMENT FOR SANITARY SEWER RIGHT-OF-WAY

KNOW ALL MEN BY THESE PRESENTS:

That MidAmerican Energy Company f/k/a/ Iowa Power & Light Company, (hereinafter called "Grantor") in consideration of the sum of Seven Thousand Five Hundred and 00/100 Dollar (\$ 7,500.00) to be paid by the City of Des Moines upon final approval and acceptance of this Easement by the Des Moines City Council, does hereby convey unto the CITY OF DES MOINES, IOWA, a municipal corporation, (hereinafter called "City"), a perpetual Easement for Sanitary Sewer Right-of-Way under, over, through, and across the following described real estate:

See Attached Exhibit "B".

(hereinafter called "Easement Area") for the purposes of the City constructing, reconstructing, repairing, enlarging and maintaining a sanitary sewer, together with necessary appurtenances thereto, under, over, through, and across said Easement Area.

This Easement shall be subject to the following terms and conditions:

1. **ERECTION OF STRUCTURES PROHIBITED.** Grantor shall not erect any structure over or within the Easement Area without obtaining the prior written approval of the City Engineer. The installation, erection or relocation of poles for electrical transmission facilities within the Easement Area by the Grantor will not be restricted, except Grantor shall not place poles directly over a sanitary sewer line without obtaining prior written approval of the City Engineer.
2. **CHANGE OF GRADE PROHIBITED.** Grantor shall not change the grade, elevation, or contour of any part of the Easement Area without obtaining the prior written consent of the City Engineer.
3. **RIGHT OF ACCESS.** City shall have the right of access to the Easement Area and have all rights of ingress and egress reasonably necessary for the use and enjoyment of the Easement Area as herein described including, but not limited to, the right to remove any unauthorized obstructions or structures placed or erected on the Easement Area. The right to remove any unauthorized obstructions or structures placed or erected on the Easement Area shall not include the removal of poles which the Grantor may install within the Easement Area except for poles placed over a sewer line without approval of the City Engineer.
4. **EASEMENT RUNS WITH THE LAND.** This Easement shall be deemed to run with the land and shall be binding on Grantor and on Grantor's successors and assigns.

BK 772 | PG 960

5. **APPROVAL BY CITY COUNCIL.** This Easement shall not be binding until it has received the final approval and acceptance by the Des Moines City Council by Resolution which approval and acceptance shall be noted on this Easement by the City Clerk.

Grantor does **HEREBY COVENANT** with the City that Grantor holds said real estate described in this Easement by Title In Fee Simple; that Grantor has good and lawful authority to convey the same; and said Grantor covenant to **WARRANT AND DEFEND** the said premises against the lawful claims of all persons whomsoever.

Each of the undersigned hereby relinquishes all rights of dower, homestead and distributive share, if any, in and to the interests conveyed by this Easement.

Words and phrases herein including acknowledgment hereof shall be construed as in the singular or plural number, and as masculine or feminine gender, according to the context.

Signed this 16th day of July, 1997.

OFFER TO PURCHASE REAL ESTATE AND ACCEPTANCE

Des Moines, Iowa

April 6, 2000

TO: MidAmerican Energy Company f/k/a Iowa Power & Light Company (hereinafter the "Seller")

The City of Des Moines, a municipal corporation of the State of Iowa (hereinafter referred to as the "City") acting by and through its authorized Right-of-Way Agent who is the undersigned, hereby offers to buy the real estate situated in Polk County, Iowa, locally known as 101 SW 16th Street, Des Moines, Iowa, and legally described as follows:

See attached Exhibit "A"

hereinafter referred to as the "Property", together with any easements and servient estates appurtenant thereto, buildings and improvements, which Property is further shown and described on the Acquisition Plat attached hereto as Exhibit "A".

1. PURCHASE PRICE.

City offers to buy said property for the total price of \$19,821, payable in full immediately after delivery of the Deed to the City and acceptance thereof by the Des Moines City Council. This offer shall expire on May 19, 2000, unless extended in writing by the City.

2. TITLE AND POSSESSION.

The Seller shall deliver legal title by Warranty Deed immediately upon full payment by the City of the purchase price. The Seller shall surrender possession of the property not later than the date of closing. However, the Seller may, if necessary, stay in the property after closing as a tenant. A Rental Agreement must be executed with the City if either the Seller or the Seller's tenant elect to stay after the closing. A security deposit is required under the terms of the rental agreement. The rental agreement is attached as Exhibit "B". Deficiencies which pose an immediate threat to any occupant must be corrected by the Seller before the premises can be occupied by the Seller or the Seller's tenant after the closing.

3. DEED.

The Seller shall convey title by Warranty Deed, with terms and provisions as per form approved by the City of Des Moines, free and clear of liens and encumbrances, including leasehold interests and leasehold claims, reservations or modifications except as in this

instrument otherwise expressly provided. All warranties shall extend to time of closing, with special warranties as to acts of the Seller up to time of delivery of deed. The Seller agrees that amounts payable by the Seller for real estate taxes, special assessments, mortgage payoffs, liens, or judgments shall be deducted at closing from the Purchase Price.

4. **ABSTRACT AND TITLE**

The Seller shall promptly provide the Abstract of title to the City for continuation and examination at the City's expense. The Abstract shall become the property of the City when the purchase price is paid in full, and shall show marketable title in conformity with this agreement, the land title law of the State of Iowa and Iowa Title standards of the Iowa State Bar Association. The Seller shall pay costs of additional abstracting and/or title work due to act or omission of the Seller, including transfer upon death of the Seller or assigns.

5. **FIXTURES**

All personal property that integrally belongs to or is part of said real estate, whether attached or detached, such as light fixtures (including fluorescent tubes but not mazda bulbs), drapes, shades, rods, blinds, venetian blinds, awnings, storm windows, storm doors, storm sashes, screens, attached linoleum, plumbing fixtures, water heaters, water softeners, automatic heating equipment, air-conditioning equipment other than window type, door chimes, built-in items and electrical service cable, fencing, gates, garage door openers and controls, and other attached fixtures, trees, bushes, shrubs and plants, shall be considered a part of real estate and included in this sale except:

None

6. **INSURANCE**

The Seller shall maintain fire, windstorm and extended coverage insurance in an amount not less than the full insurable replacement value of all buildings and personal property included in this agreement until date of possession and shall forthwith secure endorsement on the policies of insurance in such amount with loss payable to the parties as their interest may appear.

7. **STATUS QUO MAINTAINED**

The Seller will preserve the property in its present condition as of the date of this Offer and will deliver it intact at the time possession is given; in case of loss or destruction of part or all of said premises from causes covered by insurance, the City agrees to accept such insurance recovery (proceeds to be applied as the interests of the parties appear) in lieu of that part of the damaged or destroyed improvements and the Seller shall not be required to repair or replace same.

8. **SPECIAL ASSESSMENTS**

The Seller shall pay all special assessments which are a lien on the date of closing and any assessments which appear after the closing for water, sewer rental and solid waste charges

which were incurred prior to the closing date or during the term of the rental agreement, if applicable.

9. TAXES.

The Seller shall pay a pro-rata share of taxes (real and personal) for the fiscal year, and all unpaid taxes for prior years. To determine the pro-rata share of taxes for the current fiscal year, payable in the next fiscal year, the following procedure shall be used:

- A. The annual tax payment shown on the most recent tax notice for the property shall be divided by 12 to determine the amount of tax owed for each month.
- B. The total number of months in the current fiscal year commencing with the first day of July and ending with the day of closing shall be determined and said number multiplied by the monthly amount of tax owed and that figure shall be the portion of taxes payable by the Seller on the pro-rata basis.
- C. When closing is on or before the 15th of a month, no taxes will be due for that month. When closing is after the 15th of a month, a full month's taxes shall be due for that month and shall be added to the Seller's pro-rata share.
- D. Any remaining portion of taxes for said fiscal year and all subsequent taxes, if any, shall be the responsibility of the City. The Seller shall pay its pro-rata share of such taxes by means of a deduction in the amount thereof from the purchase price to be paid at the time of conveyance.

10. ENVIRONMENTAL REPRESENTATIONS AND WARRANTIES.

A. For Purposes of this Agreement.

- 1) The term "Environmental Laws" shall mean and include (i) the Resource Conservation and Recovery Act of 1976, 42 U.S.C. § 6901-6987, as amended by the Hazardous and Solid Waste Amendments of 1984; (ii) the Comprehensive Environmental Response, Compensation and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986, 42 U.S.C. § 9601-9657; (iii) the Hazardous Materials Transportation Act of 1975, 49 U.S.C. § 1801-1812; (iv) the Toxic Substances Control Act, 15 U.S.C. § 2601, et. seq.; (v) the Clean Air Act, 42 U.S.C. § 7401, et. seq.; (vi) the Federal Insecticide, Fungicide and Rodenticide Act, 7 U.S.C. § 136, et. seq.; (vii) Chapters 455B and 455E of Iowa Code; and all similar federal, state, or local environmental laws, ordinances, rules, codes and regulations, and any other federal, state and local laws, ordinances, rules, codes and regulations, as any of the foregoing may have been from time to time amended, supplemented or supplanted and any other federal, state or local laws, ordinances, rules, codes and regulations now existing relating to the environment or the regulation or control or imposing liability or standards of conduct concerning toxic or hazardous waste, substances or materials; and

- 2) The term "Hazardous Substances" shall mean and include any, each and all substances or materials regulated pursuant to any Environmental Laws, including, but not limited to, any such substance, emission or material now defined as or deemed to be a regulated substance, hazardous substance, toxic substance, pesticide, explosives, radioactive materials, hazardous waste or any similar or like classification or categorization thereunder, provided, however, that Hazardous Substances shall not include materials used or stored in connection with the operation or maintenance of the Property and in compliance in all material respects with all Environmental Laws, including petroleum products and any waste products generated therefrom.

B. The Seller hereby represents and warrants to the City, to the best knowledge and belief of the Seller, as follows:

- 1) No notices, complaints or orders of violation or noncompliance with Environmental Laws have been received by the Seller, by any tenant of the Property, and no federal, state or local environmental investigation is pending or has been threatened against the Seller, or against any tenants of the Property with regard to (i) the Property or any use thereof; (ii) any alleged violation of Environmental Laws with regard to the Property; (iii) any failure by the Seller or any tenant of the Property to have any environmental permit, certificate, approval, registration or authorization required to the conduct of its business; or (iv) the generation, treatment, storage, recycling, transportation, disposal or Release (each a "Regulated Activity") of any Hazardous Substances on, at or under the Property. For purposes hereof, "Release" shall have the meaning given to that term in 42 U.S.C. § 9601(22).
- 2) The Property has not been used by the Seller or by any prior owner for the conduct of any Regulated Activity other than in compliance in all material respects with Environmental Laws.
- 3) That it has not done, caused or allowed any of the following to occur, and has no knowledge that any other person has done, caused or allowed any of the following to occur on the Property (except as stated below):
 - a) The erection and existence of any wells;
 - b) The existence of any underground storage tanks as defined in Iowa Code Section 455B.471;
 - c) The location of any disposal sites for solid waste, as defined by Iowa Code Section 455B.301;
 - d) Disposal or location of hazardous wastes as defined by Iowa Code Section 455B.411 or as listed by the Iowa Department of Natural Resources pursuant to Iowa Code Section 455B.412(2) or 455B.464;
 - e) Activity which has or would cause (A) a release or threat of release of any Hazardous Substance or waste from the property within the meaning of, or

otherwise bring any portion of the property within the ambit of any Environmental Law; (B) the Property to be deemed a hazardous waste treatment storage or disposal facility within the meaning of, or otherwise bring any of its Parcels within the purview of the Resource Conservation and Recovery Act of 1976 ("RCRA"), 42 U.S.C. § 6901 et seq., as amended, or any similar state law or local ordinance.

- 4) There exists no petroleum contamination to the Property in violation of applicable Environmental Laws which originated on or off the Property, and there exists no underground storage tanks, surface impoundments, or solid waste disposal sites, active or abandoned, at, on or under the Property in violation of applicable Environmental Laws.
 - 5) Neither the Seller nor any third party has, to the best of the Seller's knowledge and belief, caused a release of any Hazardous Substance, nor is there any friable asbestos, polychlorinated biphenyls, formaldehyde or lead at, on or under the Property, the removal of which is required by an Environmental Law or the maintenance of which constitutes a violation of any Environmental Law.
- C. The foregoing representations and warranties with respect to the Property shall survive the closing. In addition, the foregoing representations and warranties shall not be affected by any study, investigation, or inspection of the Property by the City.

11. ENVIRONMENTAL INDEMNIFICATION.

The Seller agrees to indemnify, defend, and hold harmless the City from and against any and all claims, demands, fines, penalties, causes of action, losses, damages, liabilities, expenses and costs, including court costs and reasonable attorney fees, (including costs and fees incurred to enforce this provision) incurred by the City or asserted against the City by any third party by reason of or arising out of the breach of any representation, warranty, or agreement of the Seller as set forth above in Paragraphs 10, or arising out of any contamination of the Property.

Nothing in this agreement shall be deemed to be or constitute a waiver by the City of any defense available to it as a governmental entity pursuant to 42 U.S.C. §§ 9601(35)(A)(ii) and 9607(b)(3).

12. INSPECTION OF THE PROPERTY.

The City, at its expense, shall have the right to conduct such inspections of the Property to be acquired by it as it deems reasonable or necessary prior to Closing. The Seller hereby grants the City, its officers, agents, employees and independent contractors, the right to enter upon the Property at reasonable times upon reasonable notice, oral or written, from time to time after the date the City submitted its offer to the Seller for the purposes of inspecting and testing the Property to be acquired and for other purposes consistent with the City's interest under this Agreement. The City agrees to defend, indemnify and hold harmless the Seller, its officers, directors, agents and employees, from any liability and expense, including

reasonable attorney's fees, that result from the exercise by the City of its right of entry onto the Property prior to Closing.

13. TIME IS OF THE ESSENCE.

Time is of the essence of this Agreement.

14. APPROVAL OF COURT.

If this property is an asset of any estate, trust or guardianship, this contract shall be subject to Court approval, unless declared unnecessary by the City's attorney. If necessary, the appropriate fiduciary shall proceed promptly and diligently to bring the matter on for hearing for Court approval. (In that event the Court Officer's Deed shall be used.)

15. INSTALLMENT CONTRACTS.

Where the Seller is purchasing the property on an installment contract, the Seller and Titleholder shall, before closing, provide the City with a written statement of agreement on the total amount required to pay off the installment contract, including interest, to the day of closing. Said statement of agreement shall also include any amounts paid by the Seller into any real estate tax and insurance escrow accounts which amounts have not been paid by the Titleholder to the County Treasurer or to the insurer. Any funds paid by the Seller to the Titleholder for said purpose shall be deducted from the Titleholder's share of proceeds and credited to the Seller at the time of closing, or the parties may agree to deduct the amount in escrow from the principle balance of the contract.

16. COUNCIL APPROVAL.

This contract is subject to the approval of the Des Moines City Council and neither the City or its representatives in this matter shall be bound by the contract until said approval is given and is public record.

17. RELOCATION ASSISTANCE SEPARATE.

This Offer to Purchase Real Estate and Acceptance is separate from any agreement by the City to provide relocation assistance to which the Seller may become entitled under provisions of Federal and State law and is not contingent upon the promise of any relocation assistance.

18. PURPOSE OF ACQUISITION / EXERCISE OF THE POWER OF EMINENT DOMAIN.

The parties acknowledge and agree that the City is acquiring the Property subject of this Offer for the Martin Luther King, Jr. Parkway Project, pursuant to agreement with the Iowa Department of Transportation. The parties further acknowledge and agree that the City has the authority, under Chapters 6A and 6B of the Iowa Code, to exercise the power of eminent domain to acquire property for said project, and that the City could have acquired the Property subject of this Offer by condemnation, should the Seller have declined this Offer.

The Seller acknowledges that it understands that upon its execution of this Offer and the City Council's acceptance thereof, the Seller will be required to remove itself from the Property and permanently relocate.

19. EXTRA PROVISIONS.

None.

TIMOTHY J. BRIEN, Recorder

By J. F. Fritts Deputy

K. D. Harje hereby certify that I am Secretary of Iowa Power and Light Company, an Iowa corporation having its principal place of business in Des Moines, Iowa (herein the "Corporation"); that I am duly appointed to such office in accordance with the Corporation's Articles of Incorporation and Bylaws and that as secretary I am the keeper of the records of the Corporation including its minute book.

I further certify that at a meeting of the shareholder of the Corporation held as required by law and convened on the 15th day of December, 1985, the following resolution and amendment to the Articles of Incorporation of the Corporation was duly adopted by affirmative vote of all of the issued and outstanding stock entitled to vote thereon:

RESOLVED that the Articles of Incorporation of Iowa Power and Light Company are hereby amended, effective January 1, 1990, by striking Article I, "Name of Corporation" in its entirety, and inserting in lieu thereof the following:

"ARTICLE I

Name of Corporation

The name of the corporation is IOWA POWER INC."

The foregoing resolution and amendment is presently in full force and effect and has not been revoked or rescinded. This Certificate is given for the purpose of evidencing of public record that the Corporation's name has been changed.

IN WITNESS WHEREOF, I have hereupon set the seal of the Corporation this 15th day of January, 1990.

I, Paul J. Leighton, hereby certify that I am Secretary of Midwest Power Systems Inc., an Iowa Corporation having its principal place of business in Des Moines, Iowa (herein the "Corporation"), that I am duly appointed to such office in accordance with the Corporation's Articles of Incorporation, as amended, and Bylaws and that as Secretary I am the keeper of the records of the Corporation including the minute book.

I further certify that on April 15, 1992 at a meeting of the shareholders of each Midwest Power Systems Inc., Iowa Power Inc. and Iowa Public Service Company, held as required by law, the merger of Iowa Power Inc. and Iowa Public Service Company with and into Midwest Power Systems Inc., was duly approved.

I further certify that on July 22, 1992 the Articles of Merger were filed with the Secretary of State for the State of Iowa evidencing such merger.

This certificate is given for the purpose of evidencing of public record that Iowa Power Inc. and Iowa Public Service Company merged with and into Midwest Power Systems Inc. with Midwest Power Systems Inc. being the surviving company.

IN WITNESS WHEREOF, I have hereupon executed this Certificate this 28th day of January, 1993.

ARTICLES OF MERGER

OF
MIDAMERICAN ENERGY COMPANYRECEIVED
JUN 30 1995
SECRETARY OF STATETO THE SECRETARY OF STATE
OF THE STATE OF IOWA:

Pursuant to the provisions of Sections 490.1105 and 1107 of the Iowa Business Corporation Act, the undersigned corporation hereby executes and adopts the following Articles of Merger for the purpose of merging each of Midwest Resources Inc., an Iowa corporation ("Resources"), Midwest Power Systems Inc., an Iowa corporation ("Midwest Power"), and Iowa-Illinois Gas and Electric Company, an Illinois corporation ("Iowa-Illinois"), with and into MidAmerican Energy Company, an Iowa corporation ("MidAmerican"), which will be the surviving corporation. Resources, Midwest Power, Iowa-Illinois and MidAmerican are sometimes referred to individually as a "Constituent Corporation" and collectively as the "Constituent Corporations."

1. The Agreement and Plan of Merger ("Plan of Merger"), dated as of July 26, 1994, as amended and restated as of September 27, 1994, a copy of which is attached hereto as Annex A and is incorporated by reference herein, was approved by the shareholders of each of the Constituent Corporations.

2. The laws of Illinois, the state under which Iowa-Illinois is organized, pertain such merger.

3. As to each Constituent Corporation, the designation, number of shares outstanding, number of shares entitled to vote and the number of votes entitled to be cast by each voting group entitled to vote separately on the Plan of Merger is as follows:

Name	Class	Outstanding	Entitled to Vote	Number of Votes
MidAmerican	Common	1,000	1,000	1,000
Resources	Common	55,630,485	55,630,485	55,630,485
Midwest Power	Common	1,000	1,000	1,000
	Preferred	2,717,789	2,717,789	917,789
	Common and Preferred, together as a class	2,718,789	2,718,789	918,789

The undersigned hereby certifies that the following report is a correct reflection of the public records of Polk County, Iowa, and the United States District Court for the Southern District of Iowa, affecting title to the real estate legally described as follows:

See attached

the record title to which is vested in Des Moines Union Railway Company by virtue of Deed filed July 26, 1946, recorded in 2011, Page 5, and by Warranty Right of Way Deed filed April 15, 1968, recorded in Book 3029, Page 541, and by Warranty Deed filed December 29, 1964, recorded in Book 3655, Page 101, and by Warranty Deed filed December 29, 1964, recorded in Book 3655, Page 119:

Including searches for conveyances, conflicting conveyances, deeds; unreleased mortgages, modifications and extensions thereof; Uniform Commercial Code filings subsequent to January 1, 1975, claims entered in the Claimant's Book; divorce and probate proceedings, mechanics liens, attachments, suits brought and notices filed claiming distributive shares in said real estate, suits entered in the Lis Pendens Index; due, delinquent and suspended taxes, tax sales and special assessments entered on the books of the Polk County Treasurer, to date hereof.

Also including searches for unreleased federal tax liens, state tax liens; bankruptcies, judgments and transcripts of judgments from United States and County Courts against the above-named titleholder(s) for the past ten years to date, and find none except as shown. We do not certify to judgments in divorce actions entered ten years or more prior to the date hereof.

No report is made of possible liens against vendors, mortgagees or prior titleholders.

The report is made for the exclusive information and use of requestor, and no liability for errors or omissions will accrue to the benefit of any other person or corporation.

Parcel A (in Section 18, Township Seventy-eight
(78) North, Range Twenty-four (24) West of the
5th P.M., Polk County, Iowa, lying west of the
16th Street, Inc., property and northerly
from Parcel A.)

Commencing at a point on the southerly pro-
jection of the center of the 16th Street, which point
is 159.89 feet south of the south line of Wabash Street;

Thence west at right angles 829.55 feet to the
point of beginning.

The point of beginning is also the S.W. corner
of land owned by the Dairy Industries, Inc.;

Thence turning an interior angle of $59^{\circ}49'$
(measured east to northeast) and proceeding on a $4^{\circ}42'$
curve to the left, a distance of 200 feet;

Thence northwesterly on a radius of the
above curve, a distance of 25 feet;

Thence southwesterly parallel to and 25 feet
distant from the $4^{\circ}42'$ curve before mentioned, a distance
of 260 feet more or less to intersect the northwesterly
boundary of the tract heretofore described as Parcel A.

Thence northeasterly along the north line of
Parcel A to the south line of the Dairy Industries, Inc.

Thence westerly to place of beginning.

Parcel C (in Government Lot 5, in Section 9, Township
78 North, Range Twenty-four (24) West of the 5th
P.M., Polk County, Iowa.)

A tract of land 50 feet wide, which lies 25
feet on each side of a center line described as follows:

Beginning at a point on the west line of said
Section 9 - which is 897.9 feet south of the west
quarter corner thereof;

Thence easterly on a line which makes an angle
(measured north to east) of $94^{\circ}29'$ with the west line
of said Section 9, a distance of 801.47 feet.

Thence northeasterly on an eleven degree and
56 minute curve to the left, a distance of 600 feet
to the west line of the present right of way of the
Des Moines Union Railway Company;

Said point of intersection is 25 feet west
of the east line of Lot 8. Factory Addition, and
600 feet south of the east and west center line of
said Lot 8.

Thence continuing northeasterly along said 11
degree and 56 minute curve, a distance of 85 feet
to the east line of Lot 8 and of said curve.

Subject to an easement for any or all of the following:

Grantor warrants that it holds the above described premises by good title, that it has good right and lawful authority to sell and convey the same, and that said premises are free from all liens and encumbrances whatsoever, excepting taxes, assessments; and Grants covenants and warrants to defend and to the same against the lawful claims of all persons.

2011

hereinafter described shall revert to the Grantor, its assigns or successors in interest: and in such event, Grantee, or its then successor in interest, shall, upon the request of Grantor or its then successor in interest, execute and deliver to Grantor, or its then successor in interest, for the consideration of One Dollar (\$1.00) a quit-claim deed to said property.

This deed is given pursuant to Paragraph 2 of a certain written Agreement between Grantor and Grantee bearing even date herewith.

Dated this 2nd day of July, 1946.

Parcel d.

Lot 6 of the Official Plat of the Northwest Quarter (NW 1/4) of Section 9, Township 78 North, Range 24, West of the 10th P.M., Polk County, Iowa, excepting therefrom the following:

(1) except beginning at a point on the North line of said Lot 6, which point is 15 feet West of the Northeast corner of said Lot 6; thence South along a line 15 feet West of and parallel to the East line of said Lot 6, a distance of 630 feet; thence West 10 feet; thence South 63.9 feet; thence South $81^{\circ} 56'$ West 81.7 feet to intersect a line which is 735 feet West of, and parallel to the East line of said Lot 6; thence North, parallel to the East line of said Lot 6, to intersect the North line of said Lot 6 (said North line being the South right-of-way line of said Minneapolis and St. Louis Railway Company, now Chicago and Northwestern Railway Company); thence Easterly, along said North line of said Lot 6, to the point of beginning;

(2) except that part of the East 25 feet of said Lot 6 lying South of a line which is 630 feet South of and parallel to the North line of said Lot 6;

(3) except the North 630 feet of the East 15 feet of said Lot 6.

Subject to the following leases:

1. Lease dated December 19, 1963, between Grantor as lessor and Gibbs-Cook Equipment Company as lessee, for a term expiring January 1, 1969;
2. Lease dated January 3, 1963, between Grantor as lessor and Dico Company as lessee, for a term expiring January 1, 1968;
3. Lease dated June 15, 1964, between Grantor as lessor and Everett Harris as lessee, for a term expiring July 1, 1965;

Subject to the following easements granted by Grantor to Iowa Power and Light Company:

1. Easement dated October 17, 1962, for gas pipe line;
2. Easement dated August 15, 1947, for electric supply line and poles (recorded Book 2136 page 309);
3. Easement dated January 3, 1957, for electric supply line and poles;
4. Easement dated May 7, 1956, for electric supply line and poles;
5. Easement acknowledged May 28, 1952, for electric supply line and poles;

Easement acknowledged March 9, 1951, for electric supply line and poles;

and subject to

Easement granted by Grantor to City of Des Moines, Iowa, and Board of Water Works Trustees of City of Des Moines, dated September 17, 1934, for 30" cast iron water main, (recorded in Book 1241 at page 510);

and

Easement in favor of City of Des Moines for sewer, secured by condemnation proceedings in 1930 (recorded in Book 1105 at page 79).

And said DES MOINES TERMINAL COMPANY, Grantor, hereby covenants with said Grantee, and successors in interest, that it holds said real estate by title fee simple; that it has good and lawful authority to sell and convey the same; that said premises are free and clear of all liens and encumbrances whatsoever, except as may be above stated; and it covenants to warrant and defend the said premises against the lawful claims of all persons whomsoever, except as may be above stated.

IN WITNESS WHEREOF said corporation has caused this instrument to be duly executed this 20th day of November, 1964.

DES MOINES TERMINAL COMPANY

By James H. Windsor President

STATE OF IOWA)
COUNTY OF POLK) SS:

On this 20th day of November, A. D. 1964, before me, the undersigned, a Notary Public in and for said County, in said State, personally appeared JAMES H. WINDSOR and R. S. RUEMPER, to me personally known, who, being by me duly sworn, did say that they are the President and Assistant Secretary, respectively, of said corporation; that the seal affixed to said instrument is the seal of said corporation; that said instrument was signed and sealed on behalf of said corporation by authority of its Board of Directors; and that the said JAMES H. WINDSOR and R. S. RUEMPER, as such officers, acknowledged the execution of said instrument to be the voluntary act and deed of said corporation, by it voluntarily executed.

H. W. Hlaconks, Notary Public in and for said County.

EASEMENT.

KNOW ALL MEN BY THESE PRESENTS:

That Des Moines Terminal Company, a corporation organized under the laws of the State of Iowa, with its principal place of business in the City of Des Moines, Iowa, and being the owner of Lots Five (5) and Six (6) of the Official Plat of the North West Quarter (NW $\frac{1}{4}$) of Section Nine (9), and of Government Lot Two (2) in the North East Quarter (NE $\frac{1}{4}$) of Section Eight (8), all in Township Seventy-eight (78) North, Range Twenty-four (24), West of the Fifth Principal Meridian, and situated in the City of Des Moines, Polk County, Iowa, in consideration of One Thousand Dollars (\$1000), in hand paid by the City of Des Moines, Iowa, Board of Water Works Trustees of the City of Des Moines, Iowa, do hereby bargain, sell, grant, transfer and convey unto the said City of Des Moines, Iowa, Board of Water Works Trustees of the City of Des Moines, Iowa, their successors and assigns, hereinafter called Licensees, a perpetual right, license and easement in and to a strip of ground Fifteen (15) feet in width over and across Lots Five (5) and Six (6), Official Plat of the North West Quarter (NW $\frac{1}{4}$) of Section Nine (9), and over and across Government Lot Two (2) in the North East Quarter (NE $\frac{1}{4}$) of Section Eight (8), all in Township Seventy-eight (78) North, Range Twenty-four (24), West of the Fifth P. M., situated in the City of Des Moines, Polk County, Iowa, one-half of said strip of ground being on either side of a line over and across said tracts of land specifically located and described as follows:

Beginning at a point on the East line of said Lot Six (6) Five Hundred Eighty-seven & 2/10 (587.2) feet North of the South East corner thereof; thence Southwesterly at an angle of Eighty-one degrees Thirty minutes (81° 30') with the East line of said Lot Six (6) Seven Hundred Thirty (730) feet; thence to the right at an angle of Eight degrees Thirty-seven minutes (8° 37') a distance of Six Hundred (600) feet to the section line between said Sections Eight (8) and Nine (9), and intersecting said section line Four Hundred Seventy-two (472) feet North of the quarter section corner; thence on the same line in Government Lot Two (2) of the North East Quarter (NE $\frac{1}{4}$) of said Section Eight (8) Eighteen Hundred Sixteen (1816) feet; thence to the left at an angle of Twenty-two degrees Thirty minutes (22° 30') to the East bank of the Raccoon River; also a strip of ground Fifteen (15) feet in width in said Government Lot Two (2) in the North East Quarter (NE $\frac{1}{4}$) of said Section Eight (8), one-half (1/2) thereof being on either side of a line described as follows: Beginning at a point in the line above described Sixteen (16) feet East of the point therein Eighteen Hundred Sixteen (1816) feet West of the section line between said Sections Eight (8) and Nine (9); thence North at right angles to said line to the East bank of the Raccoon River;

with the perpetual right on the part of said Licensees, their successors and assigns, to establish, install, construct, reconstruct, maintain and use in each of said strips of ground, as a part of the Water Works system of the City of Des Moines, Iowa, a Thirty (30) inch cast iron water pipe for the transmission of water for domestic and public use and for fire protection, said water pipe to be laid longitudinally in said strips of ground, and in the center thereof, and with the perpetual right on the part of said Licensees, their successors and assigns, to go upon said strips of ground and make such excavations therein, and do such acts therein and thereon, as may be deemed reasonably necessary or desirable, and at such times and in such places as said Licensees, their successors and assigns, may elect, for the purpose of

installation, construction, reconstruction, repairing, maintaining, protecting and using of said water pipes, or for removal of same.

The Grantor, its successors and assigns, shall place no structures of any kind upon said strips of ground at any time, but shall have the right to pass over the same and to so use same as not to interfere with or obstruct the Licensees, their successors and assigns, in the construction, reconstruction, maintaining, repairing, protecting and using of said water pipes for the purposes aforesaid, provided, however, the Grantor, its successors and assigns, reserves the right to locate, maintain, operate and use railroad tracks across said strips of ground at such places as they may elect, but no railroad track shall be laid longitudinally on said strips of ground at any place.

In the event railroad tracks are so located and maintained over and across said strips of ground, the Licensees will, before making any excavation in the immediate vicinity of such tracks for purposes of repair, reconstruction, or otherwise, except in cases of emergency, give the owner of such tracks five (5) days' notice of intention so to do, and will protect such tracks from injury or damage in such reasonable manner as the owner thereof may require.

In reconstructing, reconstructing, maintaining, protecting and repairing said water pipes, the said Licensees shall have the right to deposit earth and materials, and to enclose the adjoining premises at such places thereon as are unoccupied at the time, and where same will not interfere with or inconvenience the Grantor, its successors or assigns, but such use shall be temporary only, and all earth and materials deposited on adjoining premises at any time shall be removed therefrom as soon as possible, and at once upon demand or notice so to do.

In installing the said water pipe under railroad track located on dike in the vicinity of the Rock River, an open ditch shall be excavated and the water pipe shall be laid in such ditch and shall be covered with earth. After the said water pipe is in place beneath said railroad track, the said ditch shall be filled and be turned into an open ditch, and shall be covered with earth to the said railroad track, and the dike restored to its former condition or as nearly as possible as to the original condition of the dike, and the Licensees agree that they will maintain said dike in good repair and shall be liable for the expense of such repairs, and will protect same from the overflow of high water in the Rock River.

In the event the Licensees shall at any time or times remove the said water pipes from said strips of ground, or shall remove same for any other purpose, the said strips of ground shall be returned to the original condition, and the Licensees shall be liable for the expense of such repairs, and will protect same from the overflow of high water in the Rock River.

The said Des Moines Terminal Company covenants with the said City of Des Moines, Iowa, and Board of Water Works Trustees of the City of Des Moines, Iowa, that it holds said premises by good and perfect title; that it has good right and lawful authority to grant the foregoing easement and license; that the said premises are free and clear from all liens and encumbrances whatsoever, and Des Moines Terminal Company covenants to warrant and defend said premises and said easement against the lawful claims of all persons whomsoever.

Signed this _____ day of September, A. D. 1934.

DES MOINES TERMINAL COMPANY,

By E. H. Nelson President

J. O. Thompson Secretary

STATE OF IOWA, POLK COUNTY; SS:

On this 17th day of September, A. D. 1934, before me, a Notary Public in and for said County, personally appeared Frederick C. Rubbell and F. O. Thompson, to me personally known, who, being by me duly sworn, did say that they are President and Secretary respectively of Des Moines Terminal Company, a corporation; that the seal affixed to the foregoing instrument is the seal of said corporation, and that said instrument was signed and sealed on behalf of said corporation by authority of its Board of Directors, and the said Frederick C. Rubbell and F. O. Thompson acknowledge the execution of said instrument to be the voluntary act and deed of said Des Moines Terminal Company, by it voluntarily executed.

WITNESS my hand and official seal on the date last above written.

JAMES CALDWELL

KNOW ALL MEN BY THESE PRESENTS:

That for and in consideration of the sum of One Thousand Fifty and 00/100 Dollars (\$1,500.00) in hand paid by the Iowa Power and Light Company, a corporation, receipt of which is hereby acknowledged, and of its agreements as hereinafter set forth, the undersigned, Des Moines Terminal Company and Trustees of the Frederick M. Hubbell Estate, do hereby grant unto the said Iowa Power and Light Company, its successors and assigns, the right to construct, maintain and operate an electrical supply line, and the poles and other necessary equipment, upon, over, along and across certain real estate described below, together with the right to enter upon the said real estate for the purpose of constructing, maintaining or removing said line, and the right to trim or remove, with reasonable care, such trees as may interfere with the proper maintenance or operation thereof.

The route of the said electrical supply line to be located as shown in red on the two blueprints marked Exhibit "A" and Exhibit "B" attached hereto and by this reference made a part hereof, across real estate described as the Northwest Quarter (NW¹/₄) of Section Nine (9), and the North Half (NH¹/₂) of the Northeast Quarter (NE¹/₄) of Section Eight (8), all located in Township Seventy-eight (78) North, Range Twenty-four (24), West of the Fifth P.M., in the City of Des Moines, Iowa, and Lots No. Eleven (11), Seventy-six (76) and Seventy-nine (79) in Factory Addition, an Official Plat, now included in and forming a part of the City of Des Moines, Iowa, and also the vacated part of Murphy Street lying north of said Lot Seventy-six (76) and the vacated part of Southwest Eleventh Street lying west of said Lot Seventy-six (76).

In consideration of such grant, Iowa Power and Light Company further agrees that it will repair or pay for any damage which may be caused to crops, fences or other property of any of the undersigned by the construction, maintenance, operation or removal of said line, and protect and save harmless the Des Moines Terminal Company and the Trustees of the Frederick M. Hubbell Estate, and their tenants, from any and all liability by reason of the construction, maintenance and operation of said supply line, poles, and to be liable for any damage or injury to person or property of the undersigned or any other person, firm or corporation by reason thereof, and further agrees that upon abandonment of said transmission line, all the rights and easement herein granted shall terminate, and upon the termination of this easement, the undersigned at its own expense without undue delay said transmission line, and the poles or other necessary equipment maintained in connection therewith, from said premises.

In the event that the Des Moines Terminal Company, Trustees of the Frederick M. Hubbell Estate or any of the undersigned as herein mentioned shall at any time by reason of any improvement contemplated, deem a relocation of the transmission line any part thereof necessary, then and in such event, the Iowa Power and Light Company further agrees that it will so relocate said line at its own expense, as and when requested, and if such improvement is of such a nature as to render it necessary to

to relocate said power line overhead, then and in such cases the Iowa Power and Light Company agrees to relocate said power line or such part thereof as may be necessary underground.

The Iowa Power and Light Company agrees that said power line shall be constructed with sufficient clearance to avoid interference with any ordinary uses of the land over which the same is to be located, and shall comply with all safety requirements of railroads, telephone and telegraph companies, city ordinances, etc.

And Pittsburgh-Des Moines Steel Company, Des Moines Steel Company and Chicago, Great Western Railway Company, tenants, join herein for the purpose of consenting to this easement and to bind any right or interest that they may have in and to the property covered by said easement.

This easement and agreement shall be binding upon the parties hereto, their heirs, administrators, executors, successors and assigns.

Dated this 15th day of August, 1947.

TEMPORARY EASEMENT DEED

JACOB H. MALEY, RECORDER

KNOW ALL MEN BY THESE PRESENTS, that DES MOINES UNION RAILROAD COMPANY of POLK COUNTY, IOWA, in consideration of the sum of One (1) and No/100 Dollars

, in hand paid by the City of Des Moines, Iowa, does hereby grant, bargain, sell and convey unto the City of Des Moines, Iowa, and its assigns, an assignable easement and right-of-way in, on, over, and across the land thereafter described for the purpose of entering thereon at any time to haul, transport, emplace, store, maneuver, manage and remove materials and equipment in connection with construction of a local flood protection project; together with the right at any time to trim, cut, fell and remove underbrush, obstructions, and other vegetation, structures or obstacles within the limits of the right-of-way for the period commencing with the date of this deed and ending One (1) year following the date of completion of construction, currently scheduled for completion on the June 30, 1969, provided however, that the easement and right-of-way herein granted shall terminate and expire on the September 1, 1970, unless sooner terminated by the completion of construction and the expiration of the period of One (1) year thereafter.

Said land is described as follows:

That part of the east five hundred and eighty (580) feet of Government Lot one (1) in the Southeast Quarter (SE $\frac{1}{4}$) of Section eight (8), Township seventy-eight (78) North, Range twenty-four (24) west of the fifth (5) Principal Meridian, that lies between the south line of the Des Moines Union Railroad right of way and a line that is ten (10) feet south of and normally distant from and parallel to the centerline of the said railroad right of way, said centerline being described in the description for the perpetual easement to be obtained, all now included in and forming a part of the City of Des Moines, Iowa.

The aforesaid grant includes an assignable right of entry whereby the City of Des Moines, Iowa, can grant to the UNITED STATES OF AMERICA, and its contractors permission to enter upon the land hereinabove described for the purpose of performing the proposed work or any part of the proposed work within the period of the grant, which assignable right of entry shall be without limitation whatsoever except that any exercise of reexercise of the right be within the period of grant.

Said rights, privileges and easements are conveyed subject to existing easements for public roads and highways, public utilities and railroads, and pipe lines in place.

80003895-500

And DES MOINES UNION RAILWAY COMPANY does hereby covenant with the City of Des Moines, Iowa, that it holds said premises by good and perfect title; that it has good right and lawful authority to sell and convey the same; and said DES MOINES UNION RAILWAY COMPANY does hereby covenant to warrant and defend the title to the said premises against the lawful claims of all persons whomsoever.

TEMPORARY EASEMENT DEED

NOV 13 1967 4617

KNOW ALL MEN BY THESE PRESENTS, that DES MOINES UNION RAILROAD COMPANY of

POLK COUNTY, IOWA, in consideration of the sum of One (1) and no/100 Dollars

to hand paid by the City of Des Moines, Iowa, does hereby grant,

bargain, sell and convey unto the City of Des Moines, Iowa, and its assigns, an assign-

able easement and right-of-way in, on, over, and across the land thereafter described

for the purpose of entering thereon at any time to haul, transport, emplace, store,

maneuver, manage and remove materials and equipment in connection with construction of

a local flood protection project; together with the right at any time to trim, cut,

fall and remove underbrush, obstructions, and other vegetation, structures or obsta-

cles within the limits of the right-of-way for the period commencing with the date

of this deed and ending One (1) year following the date of completion of construc-

tion, currently scheduled for completion on the June 30, 1969, provided

however, that the easement and right-of-way herein granted shall terminate and

expire on the September 1, 1970, unless sooner terminated by the completion

of construction and the expiration of the period of One (1) year thereafter.

Said land is described as follows:

All that part of the Des Moines Union Railroad right of way, located in Government Lot five (5), in the Southwest Quarter (SW¹/₄) of Section nine (9), Township seventy-eight (78) north, Range twenty-four (24) west of the Fifth Principal Meridian, that lies south of a line that is ten (10) feet south of and parallel to the aforesaid centerline of the Des Moines Union Railroad right of way, said parcel extending from the west line of said Government Lot five (5) to a line that is eleven hundred (1100) feet east of and parallel to the west line of said Government Lot five (5), all now included in and forming a part of the City of Des Moines, Iowa.

The aforesaid grant includes an assignable right of entry whereby the City of Des Moines, Iowa, can grant to the UNITED STATES OF AMERICA, and its contractors

permission to enter upon the land hereinabove described for the purpose of performing

the proposed work or any part of the proposed work within the period of the grant,

which assignable right of entry shall be without limitation whatsoever except that any

exercise of reexercise of the right be within the period of grant.

Said rights, privileges and easements are conveyed subject to existing easements

for public roads and highways, public utilities and railroads, and pipelines in place.

Des Moines Union Railway Right-of-Way, said parcel extending from the west line of the Southwest Quarter (SW $\frac{1}{4}$) of Section nine (9) to the intersection of said twenty-five (25) foot line with a line which is fifteen (15) feet south of and parallel to the center line of the southern most track of the Des Moines Union Railway, said intersection being one hundred eighty-five (185) feet (more or less) west of the east line of Government Lot five (5); also that part of Government Lot five (5) lying south of a line which is fifteen (15) feet south of and parallel to the southern most track of the Des Moines Union Railway said track extending to the east line of Government Lot five (5).

CENTER LINE OF DES MOINES UNION RAILROAD RIGHT-OF-WAY being described as follows:

Beginning at a point on the west line of said Section nine (9), which is eight hundred eighty-seven and four tenths (897.4) feet south of the west quarter corner thereof; thence easterly on a line which makes an angle (measured north to east) of ninety-four degrees and twenty-nine minutes (94°-29') with the west line of said Section nine (9), a distance of eight hundred and forty-seven hundredths (801.47) feet; thence north-easterly on a line of eleven degrees and fifty-six minutes (11°-56') curve to the left, a distance of six hundred forty-nine and six tenths (649.6) feet to the west line of the present right-of-way of the Des Moines Union Railroad Company; said point of intersection is twenty-five (25) feet west of the west line of Lot eighty-five (85), Factory Addition and six hundred eight and four hundredths (608.84) feet south of the east and west center line of said Section nine (9), thence continuing northeasterly along said eleven degrees and fifty-six minutes (11°-56') curve, a distance of eighty-five (85) feet more or less; to the end of said curve; thence northeasterly along the tangent to the preceding curve a distance of sixty-six (66) feet more or less, to a point on the west line of said Lot eighty-five (85), in Factory Addition, Attn: and forming a part of the City of Des Moines, Iowa.

TEMPORARY EASEMENT: DES MOINES UNION RAILROAD COMPANY

All that part of the Des Moines Union Railroad right-of-way, located in Government Lot five (5) in the Southwest Quarter (SW $\frac{1}{4}$) of Section nine (9), Township twenty-eight (28) North, Range twenty-four (24) West of the fifth (5) Principal Meridian, that lies south of a line that is ten (10) feet south of and parallel to the aforesaid center line of the Des Moines Union Railroad right-of-way; said parcel extending from the west line of said Government Lot five (5) to a line that is eleven hundred (1100) feet east of and parallel to the west line of said Government Lot five (5), all now included in and forming a part of the City of Des Moines, Iowa.

MINIMUM RIGHTS TO BE OBTAINED:

Perpetual Easement

A perpetual and assignable right and easement for the purpose of entering thereon to construct, maintain, repair, operate, patrol and replace a flood protection levee, storm drainage pipe and gate well including all appurtenances thereto.

TEMPORARY EASEMENT

Temporary easement in and to lands for the purpose of entering thereon to deposit fill material.

KNOW ALL MEN BY THESE PRESENTS, THAT DES MOINES UNION RAILROAD COMPANY

of Des Moines, Iowa, of Polk County, Iowa, in consideration of the sum of
One (1) and no/100 Dollars in hand paid by the City of Des Moines, Iowa,

does hereby grant, bargain, sell and convey unto the City of Des Moines, Iowa, and its assigns, a perpetual and assignable easement and right of way in, on, over and across the land hereinafter described for the purpose of entering thereon at any time to construct, reconstruct, maintain, enlarge, repair, operate, patrol, replace a flood protection levee, storm drainage pipe and gate well including all appurtenances thereto;

Said land is described as follows:

That part of Government Lot five (5) in the Southwest Quarter (SW¹/₄) of Section nine (9), Township seventy-eight (78) North, Range twenty-four (24) West of the 15th P.M., lying south of a line which is twenty-five (25) feet south of and parallel to the following described line, said described line being the centerline of the Des Moines Union Railway right of way, said parcel extending from the west line of the Southwest Quarter (SW¹/₄) of Section nine (9) to the intersection of said twenty-five (25) foot line with a line which is fifteen (15) feet south of and parallel to the centerline of the southernmost track of the Des Moines Union Railway, said intersection being one hundred eighty-five (185) feet (more or less) west of the east line of Government Lot five (5); also that part of Government Lot five (5) lying south of a line which is fifteen (15) feet south of and parallel to the southernmost track of the Des Moines Union Railway, said track extending to the east line of Government Lot five (5).

CENTERLINE OF DES MOINES UNION RAILROAD RIGHT OF WAY being described as follows:

Beginning at a point on the west line of said Section nine (9), which is eight hundred ninety-seven and four tenths (897.4) feet south of the west quarter corner thereof; thence easterly on a line which makes an angle (measured north to east) of ninety-four degrees and twenty-nine minutes (94°-29') with the west line of said Section nine (9), a distance of eight hundred one and forty-seven hundredths (801.47) feet; thence northeasterly on a eleven degrees and fifty-six minutes (11°-56') curve to the left, a distance of six hundred forty-nine and six tenths (649.6) feet to the west line of the present right of way of the Des Moines Union Railroad Company; said point of intersection is twenty-five (25) feet west of the west line of lot eighty-five (85), Factory Addition and six hundred eight and eighty-four hundredths (608.84) feet south of the east and west center line of said Section nine (9), thence continuing northeasterly along said eleven degrees and fifty-six minutes (11°-56') curve, a distance of eighty-five (85) feet more or less, to the end of said curve; thence northeasterly along the tangent to the preceding curve a distance of sixty-six (66) feet more or less, to a point on the west line of said Lot eighty-five (85), in Factory Addition, all now included in and forming a part of the City of Des Moines, Iowa.

The aforesaid grant includes an assignable right of entry whereby the City of Des Moines, Iowa, can grant the UNITED STATES OF AMERICA, and its contractors permission to enter upon the land hereinabove described for the purpose of performing the proposed work or any part of the proposed work within the period of the grant, which assignable right of entry shall be without limitation whatsoever, except that any exercise or re-exercise of the right to be within the period of the grant.

Said rights, privileges and easements are conveyed subject to existing easements for public roads and highways, public utilities, railroads and pipelines.

Grantors reserve the right to remove, on or before _____
_____ located on the land hereinabove described,
in the event that the said _____

are not removed on or before said above date, the right of removal shall terminate,
without notice to the grantors, and good and indefeasible title thereto shall auto-
matically vest in the City of Des Moines, Iowa.

And DES MOINES UNION RAILWAY COMPANY do hereby covenant with the City
of Des Moines, Iowa, that they hold said premises by good and perfect title; that they
are free from encumbrances; that they have good right and lawful authority to sell
and convey the same; and the said DES MOINES UNION RAILWAY COMPANY do
hereby covenant to warrant and defend the title to the said premises against the law-
ful claims of all persons whomsoever.

Each of the undersigned hereby relinquishes all right of dower, homestead and
distributive share in and to the interest in the above described premises herein
conveyed.

The aforesaid grant includes an assignable right of entry whereby the City of Des Moines, Iowa, can grant to the UNITED STATES OF AMERICA, and its contractors permission to enter upon the land hereinabove described for the purpose of performing the proposed work or any part of the proposed work within the period of the grant, which assignable right of entry shall be without limitation whatsoever except that any exercise or reexercise of the right be within the period of grant.

Said rights, privileges and easements are conveyed subject to existing easements for public roads and highways, public utilities and railroads, and pipelines in place.

And DES MOINES UNION RAILWAY COMPANY does hereby covenant with the City of Des Moines, Iowa that it holds said premises by good and perfect title; that it has good right and lawful authority to sell and convey the same; and the said DES MOINES UNION RAILWAY CO. does hereby covenant to warrant and defend the title to the said premises against the lawful claims of all persons whomsoever.

Signed this 22 day of OCTOBER, 1969.

DES MOINES UNION RAILWAY CO.

By JG McLean

Attest:

COUNTY IOWA
RECORD
NOV 12 1969
N. H. MALEY, RECORDER

PIPE LINE AGREEMENT

THIS AGREEMENT made and entered into this the 15TH day of SEPTEMBER, 1969, by and between CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY, a Wisconsin Corporation hereinafter referred to as the "Milwaukee Company" and DES MOINES UNION RAILROAD COMPANY, an Iowa Corporation, hereinafter referred to as the "Des Moines Company", the Milwaukee Company and said Des Moines Company hereinafter collectively called "the Licensees", and

CITY OF DES MOINES IN THE COUNTY OF POLK AND STATE OF IOWA

, hereinafter called the "Licensee," (if more than one Licensee, said term and all language herein referring thereto shall be interpreted in the plural and refers jointly and severally to such Licensees).

WITNESSETH

That WHEREAS, the Licensee desires the right to install, maintain and operate a certain pipe upon, along and under the Railroad's premises at or near Des Moines

Polk County Iowa

to be used for the purpose hereinafter set forth.

NOW, THEREFORE, the parties mutually agree as follows:

1. The Railroad, for and in consideration of the payments and covenants hereinafter mentioned to be made, kept and performed by the Licensee, does hereby license and permit said Licensee to construct, install, and thereafter during the term hereof to maintain and operate under, along and across the Railroad's property in the manner and subject to the terms and conditions herein provided, a certain pipe to be used only for the purpose of two culvert storm drain lines in the location or locations shown by the yellow line ~~between points located~~ upon the map attached hereto, marked "Exhibit X", dated May 20, 1969 and made a part hereof. The boundaries of the railroad right of way are located as shown by the heavy dash and two dot lines.

2. The said pipe shall be of reinforced concrete and have a diameter of not to exceed 78 inches. At all points where said pipe passes beneath the roadbed or tracks the same shall be installed and maintained at such depth that the top of said pipe, or any casing which may contain it, shall be not less than 3 feet, measured vertically, below the base of the rails of any such track.

The said two culvert storm drain lines shall consist of seventy-eight inch (78") reinforced concrete pipe, 3 feet below base of rail, extending underneath the right of way and tracks of the Railroad at Des Moines, Iowa as shown on Exhibit "X".

The specifications for materials and the construction procedure shall be as outlined in yellow color on the said Exhibit "X".

3. The word "pipe" wherever used herein, not otherwise herein modified, shall be construed to mean all of the pipes above described and the casings and other coverings and all appurtenances thereof.

4. This agreement shall be effective from and after the date hereof and shall continue in full force and effect until terminated in some one of the ways hereinafter provided.

5. The Licensee shall pay to the ~~Railroad~~ Milwaukee Company upon execution of this agreement the sum of Fifty (\$50.00) Dollars ~~(\$50.00)~~ to cover the cost of preparation thereof. The Licensee shall pay all assessments or taxes which may be assessed or levied against or on account of said pipe, or the use thereof and shall indemnify and save harmless the Railroad and the Railroad's property from and against any and all liens or claims on account of any such assessments or taxes.

4087 45

7. The said pipe, and all parts thereof, whether within or without the limits of the premises of the Railroad, shall be constructed and at all times maintained, repaired, renewed and operated in such manner as to cause no interference whatsoever with the constant, continuous, and uninterrupted use of the tracks, facilities, property and premises of the Railroad, both as regards operation, maintenance, repairs and renewal, or new construction by the Railroad. Nothing shall be done, or suffered to be done, by the Licensee at any time that will in any manner interfere with or impair the usefulness of any tracks, improvements, or other facilities, now or hereafter maintained upon said railroad premises, or in any way interfere with, obstruct or endanger railroad operation thereon; and if at any time the Railroad shall be of the opinion that the presence, condition or use of said pipe in any way interferes with the operation of the railroad, or any use which the Railroad desires to make of its property, it may forthwith require the Licensee to remove, alter or repair said pipe, or may remove, alter or repair the same at the cost of the Licensee.

9. The Railroad shall have the right at any and all times to raise or lower its grade, to make such changes in its existing track or tracks, roadbeds, structures and facilities or in the present standards thereof and to construct, maintain and operate such additional roadbeds, tracks, structures and facilities on said right of way and over and across said pipe as from time to time it may elect and may do whatever is necessary to enable it to use said railroad premises for all lawful purposes; and the Licensee agrees, at Licensee's sole cost, and within ten days after written notice from the Railroad so to do, to remove said pipe or make such changes in, additions to or changes in the location thereof, as may in the judgment of the Railroad be necessary to conform to the changes, alterations or new construction by the Railroad. If the Licensee shall fail so to do the Railroad may, if it so elects, in addition to any other remedy which it may have, remove said pipe or make such changes in, additions to or changes in the location thereof as are necessary for said purposes and the Licensee agrees to pay promptly upon rendition of bill the cost thereof. Provided, that the Railroad may in any event at its election do any of such work required to be done upon its right of way without notice and for all such work the Licensee likewise agrees to pay promptly upon rendition of bill the cost thereof. All the terms, conditions and stipulations herein expressed with reference to the construction, maintenance, repair, renewal or removal of said pipe in the location above described shall apply to the same as relocated, changed or modified within the contemplation of this section.

11. As a material consideration to the Railroad for entering into this agreement, and without which the Railroad would not enter into same, the Licensee agrees to, and hereby does, release, indemnify and save harmless the Railroad, its officers, agents and employees, from and against any and all liability, loss, cost, damage, expense, actions and claims for personal injuries, including death, regardless of cause, suffered by any person whomsoever while upon the Railroad's premises in connection with the construction, operation, maintenance, repair, renewal or removal of said pipe, or for personal injuries, including death, suffered by any person whomsoever or for arising out of damage to or destruction of property of any party whomsoever, including the parties hereto, in any manner arising out of or caused or contributed to by the existence, presence, construction, maintenance, condition, operation, repair, renewal, use or removal of said pipe.

[illegible]

in case of termination in any manner herein provided the Licensee shall have no claim or redress of any character against the Railroad by reason of such termination, removal of said pipe or restoration of the premises, nor shall such termination release the Licensee from any obligation or liability of the Licensee hereunder with respect to any matter or thing occurring prior to such termination.

13. The terms and conditions of this agreement shall be binding upon and the benefits thereof shall accrue to the heirs, executors, administrators, successors and assigns of the respective parties hereto, but the Licensee shall not assign the same or any rights thereunder without the written consent of the Railroad having been first obtained. In the event the Railroad shall permit any other railroad company or companies to use its said right of way facilities or premises, such other user or users shall have the benefit of the provisions of indemnity and release from liability inuring to the Railroad hereunder, with the same effect as if such other user or users were parties hereto.

14. The grant and license herein contained shall continue to be in effect so long as the said pipe shall remain in place and in use by the Licensee. Should the Licensee at any time cease to use the said pipe, the Railroad may, immediately upon cessation, consider this license cancelled and the said Licensee shall remove said pipe from the premises of the Railroad under the direction and supervision of the Chief Engineer of the Railroad, and in case of failure on the part of said Licensee to remove same, it shall be understood that the pipe is abandoned, and said Railroad may remove the same from its premises at the expense of said Licensee, or may disconnect said pipe at the points where it enters and leaves the said premises.

15. The Licensee shall require its contractor to provide for and in behalf of the Railroad, a Railroad Protective Liability Insurance Policy providing for protection to the Railroad in accordance with the U. S. Bureau of Public Roads Memorandum 20-12 issued June 30, 1967. The limits of such policy or policies shall not be less than \$500,000 for all damages arising out of bodily injuries to or death of one person and, subject to that limit for each person, a total of \$1,000,000 for all damages arising out of bodily injuries to or death of two or more persons in any one occurrence; and not less than \$500,000 for all damages arising out of injury to or destruction of property in any one occurrence, and, subject to that limit for any one occurrence, a total limit of \$1,000,000 for all damages, arising out of injuries to or destruction of property during the policy period. Said insurance shall be executed by a corporation qualified to write the same in the State of Iowa and shall be delivered to and approved by the Railroad prior to the entry upon or use of its property by the contractor.

(Continued on Sheet 4)

IN WITNESS WHEREOF, the parties hereto have executed this agreement the day and year first above written.

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC
RAILROAD COMPANY.

I, Donald H. Gerdon, City Clerk of the City of Des Moines, Iowa do hereby certify that the within and foregoing Pipe Line Agreement from Chicago, Milwaukee, St. Paul and Pacific and the Des Moines Union Railroad Company to the City of Des Moines, Iowa was duly approved and accepted by the City Council of said City of Des Moines, by Resolution and Roll Call No. 4056, passed on the 10th day of September, 1969 and this certificate is made pursuant to authority contained in said Resolution.

Signed this 10th day of September, 1969

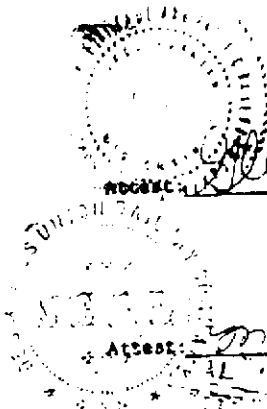

Donald H. Gerdon
Donald H. Gerdon, City Clerk of the City of Des Moines, Iowa.

BOOK 4087 PAGE 48
(Continued from Sheet 3)

16. It is understood and agreed that agreement dated April 29, 1968 between the City of Des Moines, Iowa, Acri Grocery Wholesale Company, Des Moines Union Railway Company, Dico Company, Iowa Power and Light Company, Merchants Transfer & Storage Company and Meredith Corporation, and Supplemental Agreement dated April 29, 1968, between said parties, but excluding the City of Des Moines, Iowa, provides for the allocation of costs for the construction of said pipes.

17. The term "Railroad" as used in this agreement is intended to refer to and include Chicago, Milwaukee, St. Paul and Pacific Railroad Company and Des Moines Union Railway Company, but it is understood that the Milwaukee Company or the Des Moines Company acting separately shall be entitled to assert or enforce in their own behalf as against the Licensees any right or privilege herein reserved to the "Railroad", irrespective of whether the Milwaukee Company or the Des Moines Company joins therein or not; provided further, that neither the Milwaukee Company nor the Des Moines Company shall separately assert or enforce any such right or privilege when such action shall interfere or conflict with any right or privilege of the Milwaukee Company or the Des Moines Company hereunder.

IN WITNESS WHEREOF, the parties hereto have executed this agreement the day and year first above written.

JOHN W. LAMON, RECORDER

Dr. C. C. Lamon

in the City of Des Moines, Polk County, Iowa, for the construction of a sewer with the right in said city to construct and forever maintain a sewer through, under and across said real estate along said line.

The City of Des Moines to have the right to enter in, upon, and onto said property for the purpose of constructing said sewer and for the purpose of replacing, enlarging, reconstructing or repairing said sewer whenever necessary and to have the right to use as much of the surface of the above described real estate as may be necessary for the purpose of constructing, repairing, enlarging or maintaining said sewer, but for no other use or purpose whatsoever.

And we hereby COVENANT with the City of Des Moines that we hold said premises by good and perfect title, that we have good right and lawful authority to make the conveyance herein made and by WARRANT to DEFEND said premises against the lawful claims of all persons claiming by, through or under us.

IN WITNESS WHEREOF, we have hereunto affixed our hands this 21st day of December 19 72.

AFFIDAVIT CONFIRMING ERROR ON PLAT BY Waldron Engineering Co.

STATE OF IOWA
COUNTY OF POLK, SS

I, CHARLES P. WALDRON, of WALDRON ENGINEERING CO.

DES MOINES, IOWA, being first duly sworn, on oath do depose and say:

1. That I am a duly Registered Land Surveyor under the laws of the State of Iowa and prepared the original plat known as CENTRAL DES MOINES INDUSTRIAL PARK, and recorded in the records of the Polk County

Recorder, Book "Q", Page 403

2. That an appreciable error or omission in the data shown on said plat has been detected by subsequent examination or revealed by retracement of the lines during the original survey of the lands as shown on the plans and by this affidavit, I am confirming that error or omission was made.

3. That the error is as follows: The storm sewer easement between lot 7 and lots 8 & 9, Central Des Moines Industrial Park is erroneously located.

4. That said error should be corrected as follows: Exhibit "A" attached hereto shows the location of the storm sewer and the correct easement should be 10 ft either side.

5. That I make this affidavit under the provision of Section 409.32 of the Code of Iowa, as amended.

POLK COUNTY, IOWA
FILED OR RECORD 20

OF
DES MOINES UNION RAILWAY COMPANY
STATE

AT MAN 08 1889 A.M.
9:31 P.M.

INTO

TIMOTHY J. BRIEN, Recorder
By J. Wright Deputy

NORFOLK AND WESTERN RAILWAY COMPANY

Pursuant to Sections 496A.72 and 496A.74 of the Iowa Code Annotated, Norfolk and Western Railway Company ("NW"), a Virginia corporation and the surviving corporation in the merger (the "Merger") of Des Moines Union Railway Company, an Iowa corporation ("DMU"), into NW, hereby sets forth the following Articles of Merger:

FIRST: The Plan of Merger ("Plan of Merger") is as follows:

1. Parties to Merger. Des Moines Union Railway Company ("DMU"), an Iowa corporation, shall be merged into Norfolk and Western Railway Company ("NW"), a Virginia corporation. DMU is a subsidiary corporation of NW. NW is the owner of all the outstanding shares of stock of DMU and NW shall be the surviving corporation as a result of the merger.

2. Name of the Surviving Corporation. The name which the surviving corporation shall have after the merger shall be:

Norfolk and Western Railway Company

3. Terms and Conditions. The merger shall occur on such date and at such time as shall be specified in the Articles of Merger (the "Merger Date"). On the Merger Date, the merger shall have the effect stated in Section 13.1-721 of the Code of Virginia and Section 496A.73 of the Iowa Code Annotated. This Plan of Merger may be abandoned by DMU and NW at any time prior to the Merger Date pursuant to resolutions of the boards of directors of both companies.

4. Conversion of Shares. On the Merger Date, each share of common stock of DMU then issued shall be cancelled and all certificates theretofore representing shares of common stock of DMU shall

NAME _____
ADDRESS _____
CITY _____ STATE _____ ZIP _____

006

BOOK 6068 PAGE 229

4

be cancelled and cease to represent any interest in DMU. No cash or shares or securities or obligations will be distributed or issued upon cancellation of the shares of common stock of DMU. Each share of stock of NW outstanding immediately prior to the Merger Date shall remain outstanding immediately after the Merger Date as an identical share of NW, the surviving corporation.

5. Miscellaneous. The merger will not effect any changes in the terms or provisions of the Articles of Incorporation or Bylaws of NW, the surviving corporation.

SECOND: DMU, the subsidiary corporation, has outstanding four thousand (4,000) shares of common stock, its only class of stock, all of which shares are owned by NW, the surviving corporation. Pursuant to the provisions of Section 13.1-719 of the Code of Virginia and Section 496A.72 of the Iowa Code Annotated, approval of the Merger by the shareholders of NW and DMU was not required. NW, the surviving corporation, is the owner of all the outstanding shares of stock of DMU. The Plan of Merger was duly adopted and approved by resolution of the Board of Directors of NW by unanimous written consent action dated January 25, 1989, in lieu of a meeting in accordance with Sections 13.1-719 and 13.1-685 of the Code of Virginia.

THIRD: NW, the surviving corporation, is the owner of all the issued shares of DMU and waived the mailing of a copy of the Plan of Merger.

FOURTH: NW hereby agrees that it may be served with process in the State of Iowa in any proceeding for the enforcement of any obligation of DMU and in any proceeding for the enforcement of the rights of a dissenting shareholder of DMU against NW, and NW hereby irrevocably appoints the Secretary of State of Iowa as its agent to accept service of process in any such proceeding. NW also agrees that it will promptly pay to the dissenting shareholders of DMU, if any, the amount to which they shall be entitled under the provisions of the Iowa Business Corporation Act with respect to the rights of dissenting shareholders.

FIFTH: The Merger shall become effective and be deemed to be completely consummated at 12:01 a.m. on March 1, 1989. The certificate of merger shall become effective at 12:01 a.m. on March 1, 1989.

QUITCLAIM DEED

17K

397161

NORFOLK SOUTHERN RAILWAY COMPANY, a Virginia corporation, whose address is Three Commercial Place, Norfolk, Virginia 23510-2191 ("Grantor"), for and in consideration of the sum of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and pursuant to authority given by the Board of Directors of the corporation does hereby release and quitclaim unto the CITY OF DES MOINES, IOWA, a municipality existing and operating under the laws of the State of Iowa, whose mailing address is City Hall, 400 East First Street, Des Moines, Iowa 50309 ("Grantee"), without warranty of any kind and subject to the covenants and conditions as hereinafter set forth, all of Grantor's right, title, and interest in and to the following described real estate situated in the County of Polk, State of Iowa:

See Exhibits A - B, attached hereto and incorporated herein by this reference.

Exemption No. 14.

SUBJECT, however, to any and all covenants, leases, licenses, easements, restrictions, and conditions, whether or not of record.

Entered upon transfer books and for
recording on 4-25-00 by Timothy J. Brien
Recorder, Polk County, Iowa
MICHAEL A. MAURO
Auditor

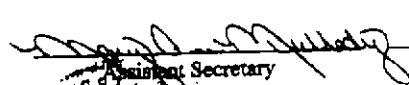

BK8478PG395

By acceptance of this Deed, Grantee agrees that it accepts the property described herein "as is" and acknowledges that Seller has not made any express or implied representation or warranty with respect to the condition or suitability of the Premises, including, but not limited to, the condition of the soil, the presence of the hazardous materials, substances, wastes or other environmentally regulated substances, or other contaminants in the soil or improvements - whether known or unknown and other physical characteristics.

IN WITNESS WHEREOF, Grantor has caused these presents to be executed by its Real Estate Manager and its corporate seal attested to by its Assistant Secretary to be hereunto affixed, this 6th day of April, 2000.

ATTEST:

NORFOLK SOUTHERN RAILWAY COMPANY
By LHE

Assistant Secretary

Real Estate Manager

BK 8478 PG 396

STATE OF GEORGIA)

COUNTY OF FULTON)

On this 6th day of April, 2000, before me, a Notary Public, in and for said County, personally appeared S.G. Portnell, to me personally known, who being by me duly sworn did say that the person is Real Estate Manager of said NORFOLK SOUTHERN RAILWAY COMPANY, that the seal affixed to said instrument is the seal of said corporation and that said instrument was signed and sealed on behalf of said corporation by authority of its Board of Directors and the said Mary Ann Mullady acknowledged the execution of said instrument to be the voluntary act and deed of said corporation by it voluntarily executed.

DEED OF EASEMENT

THIS INDENTURE, made and entered into this 6th day of April, 2000, by and between
NORFOLK SOUTHERN RAILWAY COMPANY, a corporation organized and existing under
the laws of the Commonwealth of Virginia ("Grantor"), and the CITY OF DES MOINES, a
municipal corporation existing under the laws of the State of Iowa ("Grantee"):

WITNESSETH: That Grantor, for and in consideration of the sum of ONE DOLLAR
(\$1.00), and other valuable consideration, paid by Grantee to Grantor, the receipt whereof is
hereby acknowledged, in so far as Grantor's right, title and interest allows and without warranty,
does by these presents, GRANT unto Grantee, an easement or right of way for the construction,
operation, maintenance and removal of a sewer line over, across, and upon the land as hereinafter
described, being situated in Polk County, Iowa, to wit:

A PERMANENT EASEMENT OR RIGHT OF WAY over, upon and across
parcels of land situate, lying and being in Polk County, Iowa, and being more
particularly described on Exhibit A, which exhibit is attached hereto and
incorporated herein by this reference.

Grantor further grants unto Grantee, in so far as Grantor's right, title and interest allows
and without warranty, grants unto Grantee, an easement or right of way for access to the afore-
mentioned sewer line over, across, and upon the land as hereinafter described, to wit:

A PERMANENT EASEMENT OR RIGHT OF WAY over, upon and across a parcel of
land situate, lying and being in Polk County, Iowa, and being more particularly described
on Exhibit B, which exhibit is attached hereto and incorporated herein by this reference.

397161 ITC

BK8478PG405

TOGETHER WITH, Grantor, in so far as Grantor's right, title and interest allows and without warranty, grants unto Grantee, a temporary easement or right of way for the construction of a sewer line over, across, and upon the land as hereinafter described, to wit:

A TEMPORARY EASEMENT OR RIGHT OF WAY over, upon and across parcels of land situate, lying and being in Polk County, Iowa, and being more particularly described on Exhibit C, which exhibit is attached hereto and incorporated herein by this reference.

SUBJECT, however, to that certain Track Lease Agreement between Norfolk Southern Railway Company (formerly Norfolk and Western Railway Company) and Iowa Interstate Railroad, Ltd., dated June 7, 1995, as well as any and all other leases, easements, conditions and restrictions, as may appear of record or as may be apparent from an examination of the easement areas.

RESERVING, however, unto Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and lessees the right to continue to maintain, repair, renew and operate a railroad and appurtenances across the easement areas and to construct such additional track(s) and other railroad facilities across said easement areas and to maintain, repair, renew and operate the same as in the judgment of Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees may be requisite; it being understood that if Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees elects or is required to construct any additional tracks or other structures or facilities thereon, and shall find it necessary to disturb any portion of the sewer line or access area located within the limits of said easement areas in so doing, Grantee will, at Grantee's own cost and expense, upon notice in writing so to do served upon it by Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees, make such changes in said sewer line or access area as may be necessary to accommodate the work of Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees.

RESERVING, further, unto Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees the right to install, construct, locate, maintain, repair and renew any fiber optic communications lines and associated structures and facilities related thereto across, under or over said easement area and to maintain, repair, renew and operate the same as in the judgment of Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees may be requisite; it being understood that if Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees elects or is required to construct any fiber optic communications line or associated structures or facilities thereon, and shall find it necessary to disturb any portion of the sewer line or access area located within the limits of said easement areas in so doing, Grantee will, at Grantee's own cost and expense, upon notice in writing so to do served upon it by Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees, make such changes in said sewer line or access area as may be necessary to accommodate the work of Grantor, its affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or lessees.

TO HAVE AND TO HOLD the above-described easements; PROVIDED, however, that this conveyance is made by Grantor upon the following conditions:

- (a) Grantor shall not be required to assume any expense in connection with or incident to any construction, maintenance, use or repair of any facilities located within said easement areas and shall be exempt from any and all charges, costs or assessments of any kind or character on account of the construction, maintenance, use or repair of any facilities located within said easement areas under and across the aforesaid parcel of land or adjacent property of Grantor;
- (b) If, at any time, the afore-referenced permanent easements herein granted or any part thereof, shall no longer be used or required by Grantee, its successors or assigns, for the purposes which granted, the same shall terminate and Grantee, its successors or assigns, shall execute such instruments as now provided or as may be hereinafter provided by law to clear title to the aforesaid property;
- (c) With respect to the afore-referenced temporary easement, the same shall terminate two years from the date of this instrument or when Grantee's work is completed, whichever date occurs first;

(d) Grantee shall provide Grantor's Superintendent as well as the Iowa Interstate Railroad's Superintendent with at least forty-eight (48) hours advance notice before entering into any portion of the easement areas lying within fifty (50) feet of a railroad track.

(e) All reasonable care shall be exercised and such precautions taken as Grantor's Superintendent and the Iowa Interstate Railroad's Superintendent, may deem necessary to protect their respective facilities and operations as well as those of Grantor's affiliates, subsidiaries, parent corporations, successors, assigns, licensees and/or other lessees. Grantor, on behalf of itself and the Iowa Interstate Railroad, reserves the right to place watchmen, flagmen, inspectors and supervisors for protection purposes during the operations hereunder and the expense thereof, including the expense of any material furnished, shall be promptly paid by Grantee upon receipt of the bill therefor. In addition to direct wage and material cost, such expense shall include, but shall not be limited to, cost of supervision, traveling expenses, Federal Railroad Retirement and Unemployment Taxes, vacation allowances and all other expense incidental thereto;

(f) Prior to entering the property, Grantee shall furnish Grantor with a Railroad Protective Liability Insurance Policy issued to Grantee and identifying Grantor as well as the Iowa Interstate Railroad, Ltd. as named insureds, with a combined single limit of two million dollars (\$2,000,000) for all damages arising out of bodily injury, death, property damage liability, economic loss, and physical damage to property liability per occurrence with an aggregate limit of six million dollars (\$6,000,000);

(g) Grantee, for itself and on behalf of its successors and assigns, expressly assumes full responsibility for any and all leakage, spillage, or other contamination of any form which is, in any way, related to Grantee's utilization of the easement areas. Grantee, for itself and on behalf of its successors and assigns, further agrees that it will protect, indemnify and hold harmless Grantor from and against any and all damages, penalties, fines, claims, demands, causes of action, liens, suits, liabilities, costs (including, without limitation, cleanup and remedial action costs), judgments, and expenses (including, without limitation, attorney's and experts' fees and expenses) of every kind and nature suffered by, incurred by (whether voluntarily or by court or administrative order or direction) or asserted against Grantor which are, in any way, related to Grantee's utilization of the easement areas.

(h) Upon the termination of any of the above-referenced easements for any reason, Grantee shall remove all facilities placed within said easement area(s) and restore the property to a condition acceptable to the chief engineering officers of both the Grantor and the Iowa Interstate Railroad, all within sixty (60) days of date of termination.

IN WITNESS WHEREOF, the said Grantor, have caused these presents to be signed by its Real Estate Manager and its corporate seal attested by its Assistant Secretary, to be hereunto affixed the day and year first above written.

ATTEST:

NORFOLK SOUTHERN RAILWAY COMPANY
By

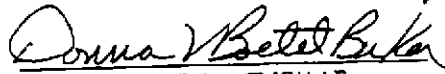

Assistant Secretary

Real Estate Manager

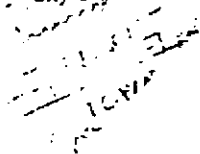

BLB/Deed of Easement
2-11-00

I, Donna V. Boetel-Baker, City Clerk of the City of Des Moines, Iowa, do hereby certify that the within and foregoing Deed of Easement was duly approved and accepted by the City Council of said City of Des Moines by Resolution and Roll Call No. 00-1069, passed on the 17th day of April, 2000, and this certificate is made pursuant to authority contained in said Resolution.

Signed this 24th day of April, 2000

Donna V. Boetel-Baker, CMC/AAE
City Clerk of the City of Des Moines, Iowa

Applicable or Relevant and Appropriate Requirements

Table A
ARARs Identified for the Des Moines TCE Site in the RODs

Media	ARAR	Status	Requirement Synopsis	Action to be taken to Attain ARAR
Groundwater	Federal, Clean Water Act (CWA), NPDES - 40 CFR Parts 122 and 125	Relevant and Appropriate	NPDES permit requirements have been set for the discharge from the air stripper.	Air stripper effluent is monitored to assure compliance with the NPDES permit requirements.
Groundwater	Federal, Safe Drinking Water Act (SDWA), Maximum Contaminant Levels (MCLs), 40 CFR Part 141	Applicable	MCLs have been adopted as enforceable standards for public drinking water systems.	Operation of the groundwater extraction and treatment system will attain MCLs. Groundwater exceeding MCLs will be prevented from entering the operating portion of the Des Moines Water Works infiltration gallery.
Surface Water	State, Water Quality Standards, IAC Chapter 61	Relevant and Appropriate	Establishes water quality standards for surface waters of the State.	The selected remedy complies with the AWQC by meeting the NPDES permit requirements for the air stripper effluent.

Table A (Continued)
ARARs Identified for the Des Moines TCE Site in the RODs

Media	ARAR	Status	Requirement Synopsis	Action to be taken to Attain ARAR
Surface Water	State, Effluent and Pretreatment Standards, IAC Chapter 62	Applicable	Requires and NPDES permit for discharge into waters of the state.	The groundwater treatment systems has an NPDES permit.
Surface Water	Federal, CWA, Ambient Water Quality Criteria (AWQC), Protection of Freshwater Aquatic Life, Human Health, Fish Consumption	Relevant and Appropriate	AWQC are developed under the CWA as guidelines from which states develop water quality standards.	The selected remedy complies with the AWQC by meeting the NPDES permit requirements for the air stripper effluent.
Wetlands	Federal, Executive Order on Protection of Wetlands	Applicable	Requires Federal agencies to avoid, to the extent possible, the adverse impacts associated with the destruction or loss of wetlands and to avoid support of new construction in wetlands if a practicable alternative exists.	No remedy that would impact wetlands was implemented at the site.
Soil, Wetlands	Federal, Executive Order on Flood Plain Management	Applicable	Requires Federal agencies to evaluate the potential effects of actions they may take in a flood plain to avoid, to the extent possible, the adverse impacts associated with the direct or indirect development of a flood plain.	No remedy was implemented within the flood plain at the site.

Table B
Federal MCLs for Groundwater Contaminants of Concern

Contaminant of Concern	MCL (ug/L)	MCLG (ug/L)	Notes
Chloroform	80	0	1
Dichloroethane, 1,2	5	0	2
Dichloroethane, 1,1	--	--	2
Dichloroethene, 1,1	7	7	2
Dichloroethene, trans-1,2	100	100	3, 5
Dichloropropane, 1,2	5	0	3
Tetrachloroethene	5	0	3, 5
Trichloroethane, 1,1,1	200	200	2
Trichloroethene	5	0	2, 5
Vinyl Chloride	2	0	4, 5
Notes: 1 - MCL has changed since the OU 1 ROD. Previous MCL for chloroform was 100 ug/L. 2 - MCL has not been changed since the OU 1 ROD. 3 - MCL has been promulgated since the OU 1 ROD. 4 - MCL has changed since the OU 1 ROD. Previous MCL for vinyl chloride was 1 ug/L. 5 - Chemical is also a contaminant of concern for OU 3.

Site Inspection Trip Memorandum

BLACK & VEATCH SPECIAL PROJECTS CORP.

TRIP MEMORANDUM

USEPA Region VII
Des Moines TCE Site
Second Five-Year Review
Site Inspection

BVSPC Project 046910.0845
BVSPC File D.3
October 25, 2002

To: File

From: Genise Luecke *Don 2*

Trip Purpose: The purpose of the trip was to perform the site inspection for the second five-year review of the Des Moines TCE site.

On Monday, October 21, 2002, Ms. Genise Luecke, BVSPC Site Manager, and Mr. Robert Blake, BVSPC Project Engineer, traveled to the site to begin the site inspection. BVSPC representatives arrived at the site at 9:15 a.m. The following persons were onsite and met with BVSPC representatives:

- Mr. Gazi George, Titan International
- Mr. Dan Butters, Titan International
- Mr. Don Brown, Titan International
- Mr. Glenn Curtis, USEPA
- Ms. Mary Peterson, USEPA

On Monday, October 21, 2002, the following activities were conducted by BVSPC representatives:

- Mr. Brown quickly showed BVSPC representatives the general site layout including the buildings, asphalt cap, and the South Pond.
- Mr. Butters showed BVSPC representatives the groundwater extraction system including the air stripper, extraction wells, and NALCO (anti-scaling) feed system.
- BVSPC representatives collected a sediment sample from the South Pond overflow area.
- BVSPC representatives conducted a detailed inspection of the asphalt cap including the monitoring wells located on and around the cap.

On Tuesday, October 22, 2002, the following activities were conducted by BVSPC representatives:

- BVSPC representatives conducted a detailed inspection of the buildings encapsulation in Buildings 1 through 5 and the Maintenance Building.
- BVSPC representatives inspected the groundwater extraction system outfall on the Raccoon River.
- BVSPC representatives inspected the monitoring wells located across the Raccoon River from the Dico property in the Des Moines Water Works park.

Details of the activities conducted during the site inspection are provided in the field log book entries, copies of which are attached. Also attached, are copies of photographs taken during the site inspection. The following general observations were noted:

- Overall, the maintenance on the asphalt cap appeared to be ongoing and adequate. Specific areas that need to be addressed include repair of cracks in the concrete truck pads which Mr. Brown stated were not maintained; the area west of Building 3 behind the stored empty pallets which had several subsidences, holes in the cap, and a large area of standing water; and maintenance of the edge of the cap near the South Pond to correct the encroachment of weeds. Other, more minor areas that need attention are detailed in the field log book entries.

TRIP MEMORANDUM

Page 2

USEPA Region VII
Des Moines TCE Site
Second Five-Year Review
Site Inspection

BVSPC Project 046910.0845
BVSPC File D.3
October 25, 2002

- Overall, the groundwater extraction system appears to be adequately maintained. However, Mr. Butters has only been conducting the maintenance for 2 months and has not been provided an operation and maintenance (O&M) manual. Mr. George also indicated that they have no as-built drawings or O&M manual at their disposal. Mr. Curtis, USEPA, indicated that USEPA will provide Titan International with a copy of the O&M manual from USEPA files. It is recommended that the O&M manual be updated to include the NALCO feed system which has been added to the treatment train since the original construction to combat air stripper tower fouling issues.
- Overall, the buildings maintenance appears to be ongoing and adequate. Evidence of ongoing maintenance including past reapplying of floor and wall coatings and re-taping of the ceiling insulation was apparent throughout the buildings. Specific areas that need to be addressed include cracks in the concrete floors which Mr. Brown indicated that they do not coat or fill as part of the coating maintenance and the offices on the east end of the Maintenance Building do not appear to have been maintained for some time and need to be fixed. In addition, the monthly inspections required by the O&M manual have not been conducted. These inspections need to be conducted, especially in buildings that are in use such as Buildings 4 and 5 are currently. Other, more minor areas that need attention are detailed in the field log book entries.
- Three wells (two unidentified and P-6) were uncapped and unlocked. One of the unidentified wells had been run over and crunched. These wells need to be fixed, capped, and locked. All wells onsite should be identified.

Attachments

3/21/02 & 3/22/02

Floating Holiday &
Vacation.

10/21/02 (Mr. Blake &
Mrs. Locke)

0600 - Left from KC for
Des Moines.
0900 - Arrived at Titan
wheel.

Met w/ Cargi George
of Titan & Dan
Mr. Cargi George is w/
Titan Home office.
Dan is the owner of
Titan Reg who samples &
maintains the air stripper.

Mr. George explained that
Mr. Dan Brown, owner of
Titan, Reg Moore, who
showing Mrs. Mary Peterson
& Mr. Glenn Carls of the
EPA.

At about 1000, Mr. Brown
began showing Mrs. Locke & Mr.
Blake the insides of the
buildings.

Went through Bldg 1/2/3 and 4/5 and Maint. Bldg.

There was no product in Building 1/2/3. The maintenance Bldg does not have product (tires & wheels). It had broken equipment, trailers, equipment.

The only obvious roof problem was in Bldg. 4/5 does have product (tires & wheels). However, it is not occupied full time every working day.

Overall, Roofs looked well maintained, with insulation kept topped. (See Maint Building Note above)

After reviewing the building, Mr Brown showed BVSPC the cap, both inside & outside

the fence, the south ponds and the pointed out the air storage.

Mr. Brown explained that the buildings and cap are repaired once per year, as required by the OSHA plan.

While reviewing the buildings it began to rain.

Mr. Brown explained that he had personal business for the afternoon, but that he would be back tomorrow.

BVSPC & Mr. Brown went offsite to get sampling supplies for the soil sample.

When BVSPC returned, discussed inspection schedules for EPT and T₁ plan. As rain had stopped, collected soil & plant sample.

Went w/ Don to inspect the air stripper

A scale inhibitor VALCO 8357 is added to the contaminated water at ERW-4. VALCO 8357 contains sodium bisulfite. 225 to 30 gal are used/wk.

BV50°C about to lunch. After lunch, Ram had stopped, so BV50°C went to collect the sediment sample from the S. Pond.

There was a concrete block in the S. Pond Spillway. Collected the sample & 6 feet downstream of concrete spillway.

Set 5 flags across the stream, one on the stream & 2 on each side.

Decanted sample bucket & frowel w/ alcohol & DI water.

Collected one jar of sediment or soil at each flag. Each aliquot went into a 100 ml. & a composting bucket.

Blended the five aliquots & used the mixed soil/sediment to fill one sample jar.

Inspected Cap. See Photo #s, below for captions & notes on inspection.

Pic 8 Got 7 pictures documented in G. Lucke's Log. South end of Non-Traffic Cap just north of the S. Pond & just South of Bldg. 4/5.

Showing well established weeds growing at edge of Cap. Edge of vegetation is @ least one foot onto the cap. Picture taken East. Facing

Picture 9 - Facing West. Patches in the cap that need further repair.

Picture 10 - Storage Area south of Bldg. 4/5. Looking east. Showing holes in asphalt from storage racks.

Picture 11 - Looking west along the north edge of Bldg. 4/5, showing gap between the cap and the Bldg. foundation.

Most patches are raised above the cap. ~~area~~ patch

There are some ~~cracks~~ cracks into the cap from the joint between the sidewalk and the cap on the east side of the maint. Bldg.

Between the Maint. Bldg. and Bldg. 2/3 (North of maint., south of 2/3) - grass growing on the concrete (Picture 12)

Picture 13 - Gouges in the cap in front of the North east corner of the maintenance bldg.

Picture 14 - Drain in the south east corner of the maint. Bldg. While most drains ~~have~~ ^{are} are mostly clear (some small buildup of weeds, grass, grit), some have heavier buildup (to the point where they are blocked)

~~Picture 15 - Damaged well cover on the south side of the Maint. Bldg. near what seems to be a pit.~~ YMM?

Picture 16 - North east corner of Bldg. 3 showing subsidence of cap around drain pipe. Note dirt showing through hole.

Note - On the west side of Bldg. 3, between the concrete ~~foot~~ ^{base} piers, there are gouges through the cap. Maybe forklift wheels.

Picture 17 - Taken facing north towards Bldg. 2, showing large pond of standing water.

Note - The outer wall of Bldg. 2 is cracked just west of the walkway to Bldg. 3, between the first two west windows, by the low point in the roof. Need to check insulation inside the bldg.

Note - Unlike the area between the maint. Bldg. and 4/S, which shows signs of regular maintenance patching, the area between Bldgs 2 and 3 does not show signs of patching.

The west side of Bldg. 2 shows signs of regular maintenance patching.

On the east side of Bldg. 2 Old patchwork next to the Blue foundation needs further repair.

17 20m²
Picture 18 - The north east corner of the cap showing a large # of cracks. Note the large area of ~~new~~ new patch.

Picture 19 - A possible drain for the northeast corner of the cap.

19 20m²
Picture 20 - Extensive cracking of concrete slab within the cap. This much cracking is not typical but all cracks need to be patched, ~~as~~ in both concrete & asphalt. All the concrete slabs have some cracking.

20 20m²
Picture 21 - Broken curbing near the northwest corner of the production bldg.

21 20m²
Picture 22 - Unmarked well north of NW-7. Note that there was no lock, no cap on the well. This well is inside a double size protection cage.

Picture 22 - Unmarked well, in single protection cage, south of ERW-5, light pole, and hydrant. The well cover (exterior) is crushed, the cap cover is broken off, well plug and bailer line hanging outside well cover.

23 20m2
Picture 24 - Well P6, with no cap, no plug, no bollards.

24 20m2
Picture 25 - This picture may not come out. Evidence of ^{PEB} gauges and holes in the cap showing Pallet storage in No Traffic Area, South east of the air stripper.

Area southwest of No Traffic area, along the beginning of the South Pond

was some plant growth along the edge of the cap. (Like Picture 8).

The curbing around well ERW-9 needs repair. Also it is, it is a breach through the cap.

West of Bldg. 4/5 there ^{PEB} is a large (20' x 15') low spot ^{PEB}

West of Bldg. 4/5 there are low in the cap. Most spots can be seen by the ponded water. Most of the low spots are shallow, but some are several inches deep.

East of well P-6 and west of Bldg. 4 there is a stand pipe? That is 6' tall. It was a permanent bollard.

large (unlike most of the well protection cages). It also has a large area of standing water (x 20' x 15') all around it.

Offsite at 1700.

REB

10/22/02

10/22/02 Partly cloudy, cold (x 36)

~~REB~~ Offsite at 0756
Begin inspecting buildings (floor encapsulation, state of coating, & roof insulation)

Building 1 - Some cracking of wall paint by east rafter door.

Picture 1 (of disposable camera)
North wall of interior room of B1. Wall paint is cracking, some coating has fallen off exposed wall.

B2, Northwest corner. There is an oily patch on the floor that has eaten through the coating. Oil area is 3' x 2'

Picture 2

B used for Building on Bldg.

B2 - Old coating appears to hold up well to traffic. For example, see area on the west side of B2, by the covered entrance.

Picture 3 - Roof panel w/ no coating. Location B2, west 1st roof girder from North wall, 4th roof panel from west wall.

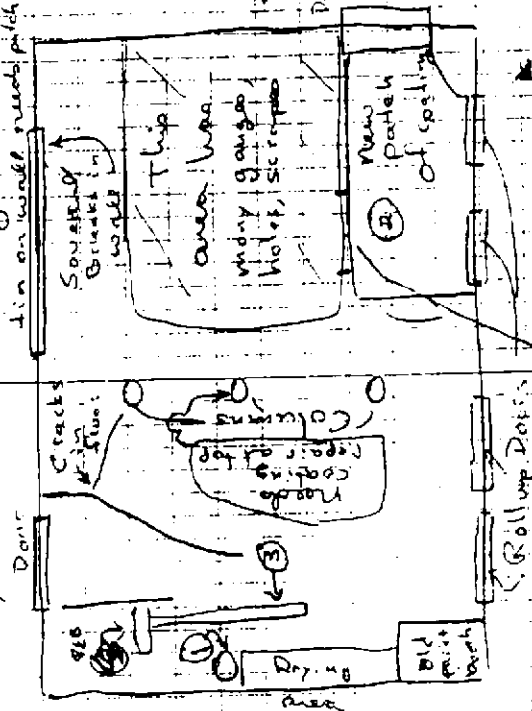

Rollup door, northeast corner B1 has coating spilled off in several places, insulation showing through.

B2, west bay - Expansion joint needs to be resealed (if line expanded & uncoated concrete can be seen)

The northwest wall of the B2 office (in east side of west bay), coating is cracking on the wall

Outside the B2 office by the hoard, the wall is broken & coating is breached. B2 - Large over hangers west and east bays, there are gauges through the coating (probably from pallet trucks).

B2, North East bay
 tin on wall needs pick
 (Not to Scale)

See next page for notes on 1 & 2 & 3

Seals with

- ① Section of floor needs repair
off of coating
- ② Area of new coating patch
where ~~off~~ coating is spalling
- ③ Area where coating seems
to be spalling off old paint
(yellow paint).

Need to determine if saw
cuts by ~~the~~ ^{the} doors were made
before or after floors were
coated.

→ Floor coating
East side of B2, east
bray in better shape than
west side (the columns were
used to divide the bray.)

At some places, new coating
has been applied over paint
(yellow & white lines to
guide traffic and mark storage
areas). The coating seems to
spall off paint more easily

than when applied to concrete.
It appears the bond between
the coating & paint is weaker.
There are several places
where there are many bubbles in
the coating and the bubbles seem
to follow lines of old paint.

In B2, east and west brays.
the color of the coating layers
appears to be

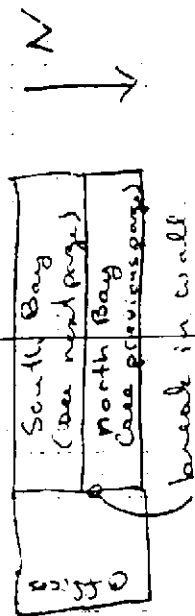

Grey - Green - 1st Coat (earliest)
Grey (dark) - 2nd Coat
Grey (bright) - New coat (2002)

In the south bay of B2,
it appears that there was a
blue-grey coat layer below
the grey-green coat. This
coat is nearly as clean as
the new bright ^{new} coat.

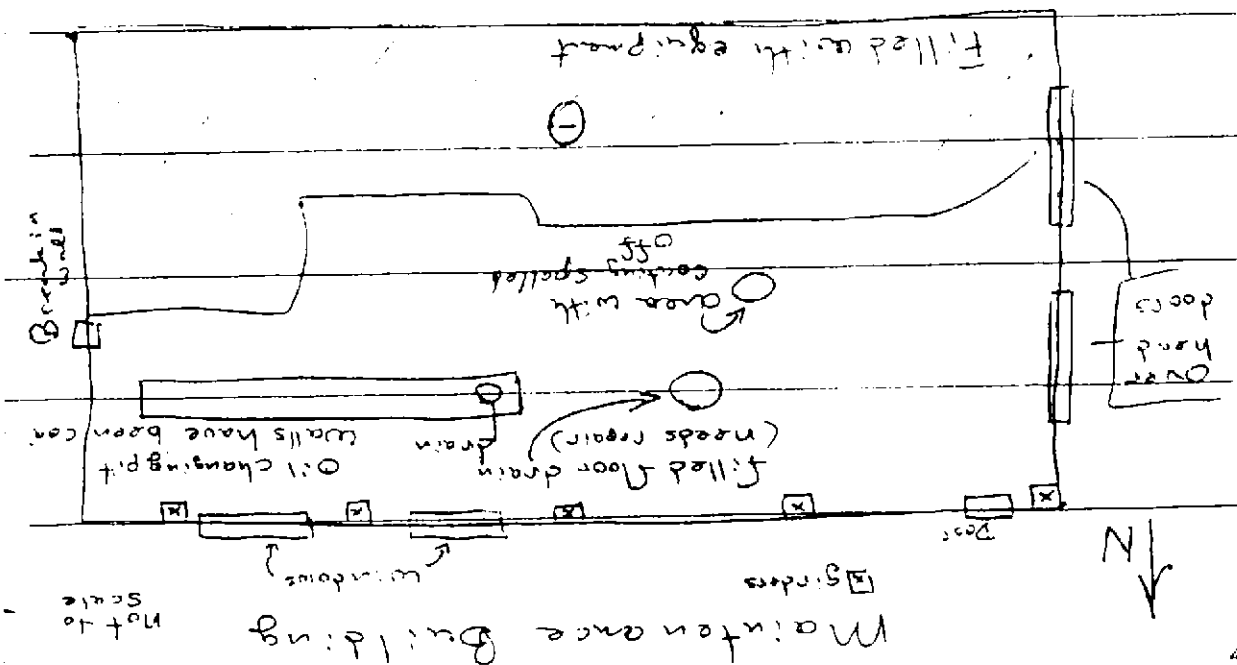

Picture 4 - Equipment stored in the Maintenance Bldg.

① - A bad spot in the roof insulation. See Picture 5.
Note - Titan is aware of this spot in the roof.

The break in the east wall of the north bay leads to a set of offices on the east side of the Maintenance B.

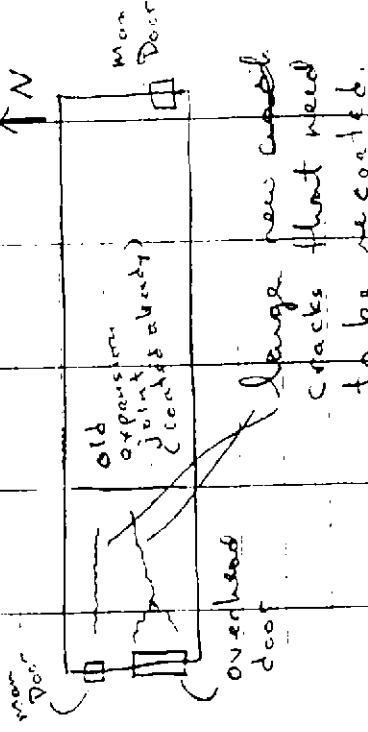

East offices → all walls and ceiling need repair. The coating on the walls is cracking and peeling off. Ceilings near stairs retaped. Floor coating is OK.

Picture #6 - Ceiling of maintenance B offices.

Picture 7 - Walls in the maintenance B, showing holes and coating flaking off

Maintenance B South Bay

There is evidence of repairs on the ceiling insulation of the South Bay of the Maintenance B Bldg.

Picture 8 - Roof insulation fallen down along the ~~walls~~ east wall of B4, across from the LB garden.

There were several steel bands on the coated floor of B5.

Left site @ ~ 1430. Went across the river to check on which wells ~~was~~ should be surveyed.

Left Des Moines ~ 1530.

R. S. Blake

Linise M Luada

10/21/02

0915 Arrived @ site. Met with

Don Bitters & Bayi George

10945 Don Brown showed us

around the buildings and

site. He discussed the

building maintenance with

us. See undermain form.

1030 Don took us to store

to purchase sampling

supplies. Began raining.

11:30 Dan Batters escorted us

around air stripper and

extraction wells. See

undermain form.

1230 Collected soil sample

from South Pond overflow.

Overflow was wet with

running water. We selected

location with the most

sediment to set up

sampling point

1247 Collected soil sample

according to QAPP

1:10 left site for lunch.

2:10 returned to site. Began inspecting caps. Began at South edge near South Pond. and worked our way north along Bldgs. Then around producing Bldg and up between the Bldgs.

Overall, maintenance appeared good. Some major areas for concern:

1. Edge of caps (SE) first north of South Pond weeds encroaching on edge over 2 feet in spots; Don Brown indicated that they only patch the asphalt not the concrete, which needs repair and cracks sealed in several spots; Area between bldgs 2 & 3 needs lots of work - pit with water, large subsidence at north west corner, tire

Denise M Luecke
10/21/02

3

Denise M Luecke

10/21/02

trucks through asphalt to name some items

needing attention; Also, noticed three wells that did not have locks or caps.

One is PW-6. The

other two are north of NW-7 (south of GPW-6) one has obviously been hit by vehicle. No caps, both off and damaged. Nailly broken, still contained ^{one} shell. Other, no caps; Spencer

observations, see photo. Log in other log book.

4:50 pm Left site after

completing outside

inspection.

0800 Arrived at site, checked in at site office. Windy 40°F.

0805 Began Bldg 1 Inspection. See separate pages for specific inspection items.

General items to note: Need to repair cracks (clean then seals in floors; should replace all insulation seams where not holding. Need to be sure to clean area before applying sealant to prevent spalling.

0820 Begin Bldg 2 inspection. Question about whether saw cuts in South Bay are post-sealant. If so, need to seal and be sure any future work is done safely. See separate sheet for specific items.

1010 Finished Bldg 2 took break at office.

Denise M. Luecke
10/22/02

Denise M. Luecke
10/22/02

1020 Returned Bldg inspection at Bldg 3. Evidence of regular maintenance can be seen. See separate sheet for specific items.

1055 Inspecting SW Bay of Bldg 3 in general OK. Some ceiling/garden work needed. Some side walls insulation panels need repair.

1105 Finished Bldg 3 begin Maintenance Bldg. In general OK except for office area on east side of building. No evidence of past maintenance here. Every wall, ceiling needs repair. Lots of cracked coatings. Holes in walls. Almost all tape on ceiling has failed. One fallen ceiling panel. Finish Maint Bldg Break for lunch.

1135

Denise M. Luecke
20/22/02

101

Donna M Luecke 10/22/02

1230 Begin inspection of Bldg 415. In general in good repair and evidence of past maintenance is apparent. See attached sheet for specific items. This is the only building still in use. Storing tires and wheels on pallets throughout Bldg.

1415

Finished Bldg 415 inspection.

1420

Inspected air stripper effluent in the Racoon River. Appears in good repair although access for sampling is precarious.

1430

Checked out with Titan office. Went across river to inspect wells in the Dos Morcos Water Works Park.

Donna Luecke
10/22/02

111

1500 Finished inspection of wells in the Dos Morcos Water Works Park. Left site.

Donna Luecke
